	intention of trying to strike the	8	Q. Good morning, Mr. Stevenson,
	testimony or deem the deposition	9	I introduced myself to you briefly off
	in any way unusable based on that	10	the record. And again, as you know, we
	prior unrelated representation.	11	met before, my name is Jennifer Scullion.
12	MS. VANNI: That's based on	12	A. Good morning, Jennifer.
	your representation that you will	13	Nice to see you.
	not use any confidential	14	Q. Very nice to see you as
	information, that's true.	15	well.
16	MS. SCULLION: Okay. If at	16	Mr. Stevenson, I'm going to
	any point today there's any	17	hand you what's been marked as Exhibit
	concern that I am, I would ask	18	Number 1.
	that that be made vocal, so I know	19	(Document marked for
	and we can resolve it.	20	identification as Exhibit
21	So, again, I don't want to	21	Endo-Stevenson-1.)
	waste the witness's time, my time,	22	BY MS. SCULLION:
	the deposition time, if there's	23	Q. Mr. Stevenson, Exhibit
	going to be any concern about the	24	Number 1 was handed to us just before the
	some to be any concern about the		Trainion I was nanded to as just octore the

1	Page 22		Page 24
1	deposition began today. Can you identify	1	which you were deposed before?
2	Exhibit Number 1 please?	2	A. There was I don't
3	A. It's my CV.	3	remember the year. There was an AWP
4 .	Q. Okay. So this is a copy of	4	pricing case that I gave a deposition
5	your current CV?	5	for.
6	A. Yes.	6	Q. Which which employer was
7	Q. And this is something you	7	that in connection with?
8	drafted yourself?	8	A. It was it was in
9	A. Yes.	9	conjunction with Geneva, which became
10	Q. And to the best of your	10	Sandoz, and Bristol-Myers Squibb,
11	knowledge, it's accurate and complete?	11	Apothecon also rep was represented
12	A. Yes, yes.	12	there because some of it referred to
13	Q. We're going to get into some	13	them. So it was like a dual deposition
14	of the preliminaries, but just as a	14	where both were there.
15	reminder in a deposition, if you can let	15	Q. Okay.
16	me finish my questions, and then you	16	A. And then before that I gave
17	begin your answers. The primary reason	17	several depositions with respect to
18	for that is that Michelle, our court	18	warfarin sodium in the case with BMS and
19	reporter, will otherwise not be able to	19	their Apothecon subsidiary versus Barr
20	take down both of our statements.	20	Laboratories. And before that I gave a
21	Does that make sense?	21	deposition in a private matter.
22	A. Thanks thanks for	22	Q. And putting aside
23	reminding me.	23	depositions, have you ever testified in
24	Sorry, Michelle.	24	court in connection with your employment
	D 22		D 05
	Page 23		Page 25
1	Q. Terrific. Okay.	1	with Endo?
2	Mr. Stevenson, have you been	2	A. No.
3	deposed before?	3	Q. Have you given any any
4	A. Yes.	4	sworn testimony of any kind in writing
5	Q. Approximately how many	5	with respect to your work at Endo?
6	times?	6	A. No.
7	A. Let me see, probably let	7	Q. All right. And just to
8	me see, there was somewhere in the	8	be really make sure, did you ever
9	neighborhood of five or six.	9	testify before the New York Attorney
10	Q. Have you ever been deposed	10	General, New York Attorney General with
11	before with respect to any opioid	11	respect to your work for Endo?
12	products?	12	A. No.
13	A. No.	13	Q. Are you represented by
14	Q. Okay. Have you ever been	14	counsel today?
15	deposed before with respect to any	15	A. Yes, I am.
16	controlled substances?	16	Q. Who is that?
17	A. No.	17	A. McCarter English, Amy Vanni.
18	Q. Have you been deposed at all	18	Q. Fantastic. Okay. And let's
19	with respect to any work you did with	19	just go over some of the basics for
~ ~	Endo?	20	deposition.
20			As I said I'm going to be
21	A. No.	21	As I said, I'm going to be
21 22	Q. All right. Can you tell me	22	asking you questions. And I'm going to
21			

	Page 26		Page 28
1	A. That's fine.	1	Q. And that was over the last
2	Q. Okay. So we can't have	2	week or more than a week?
3	shaking of heads and mm-hmms and	3	A. Somewhere in the
4 .	unh-unhs. Do you understand that?	4	neighborhood of the last two weeks.
5	A. I do.	5	Q. Okay. Was there anyone else
6	Q. Terrific. And as we	6	present at the meetings you had with
7	discussed, we need to try and avoid	7	Ms. Vanni?
8	talking over each other. Okay?	8	A. Yes. And then you want
9	A. I will.	9	to Sandra was there and
10	Q. Thank you. And from time to	10	MS. REESE: Kelly Reese.
11	time, Ms. Vanni may have objections.	11	BY MS. SCULLION:
12	Unless she instructs you not to answer	12	Q. Fantastic. Okay. Was there
13	and you choose to follow that	13	anyone else other than counsel?
14	instruction, you're going to need to	14	A. There was no, there
15		15	
16	answer the question despite any	16	was other than counsel, no.
17	objection. Do you understand that?  A. I do.	17	Q. Okay. Was anyone joined by
18		18	phone other than counsel?
19	Q. Terrific. And is there any	19	A. No one joined by phone, no.
	reason that you can't give your best		Q. Okay. And did you review
20	testimony today? For example, are you	20	documents in the course of your
21	taking any medications that might	21	preparation for today's deposition?
22	interfere with your cognitive skills	22	A. I did.
23	today?	23	Q. Did any of those documents
24	A. No.	24	refresh your recollection about any of
	Page 27		Page 29
1		1	<del>-</del>
1	Q. Okay. If at any point	1	the events that took place when you were
2	today, you don't understand a question	2	employed with Endo?
3	that I ask, would you please let me know	3	A. I would say honestly
4	that?	4	vaguely. I didn't have some I didn't
5	A. Be glad to.	5	have some, you know, burst of memory that
6	Q. Terrific. Thank you very	6	it all of the sudden jolted my brain that
7	much. Did you do anything to prepare for	7	says, oh, yeah, absolutely that's crystal
8	today's deposition?	8	clear now. I mean, I it came back a
9	A. I met with I met with	9	little bit. But remember we're going
10	Ms. Vanni, yes.	10	back you know, I left Endo in in
11	Q. And when was that?	11	August of 2007, so it's you know, it
12	A. Over several days in the	12	was already going it's 11 and a half
13	last couple of weeks.	13	years. It's going on 12 years.
14	Q. You say several days. Was	14	Q. I understand.
15	it more than two days?	15	A. So a lot of the I started
16	A. It might have been. I don't	16	in '03. So if you add those years in,
17	know. It depends on how you define a	17	you're looking at, you know, close to
18	day.	18	16 years.
19	Q. On how many different days,	19	Q. Understood. You said that
20	putting aside how length of day, on	20	your recollection may have been refreshed
21	how many different occasions did you meet	21	even just vaguely on some things. Can
22	with Ms. Vanni?	22	you tell me what kinds of things you have
23	A. I think a total of three	23	a little bit more recollection on having
24	days.	24	prepared?
1	•		

Page 30 Page 32 1 A. I don't have any -- I can't 1 personal photographs and things of my 2 give you specific examples. Just in 2 wife and kids and left. 3 general terms, you know, I saw documents 3 Q. Okay. Terrific. Did you that, you know, some dealt with the speak with anyone else other than counsel 4 4 brand. I had nothing to do with the 5 5 in preparation for the deposition about brand. So I was -- our focus was -- my 6 6 the work that you did with Endo? 7 focus was on generics. 7 A. No. 8 Q. You say you have nothing to 8 Q. Since you left Endo, have 9 do with the brand -- I apologize. Did 9 you been in touch with any of your former 10 you finish? 10 colleagues? A. I think so, yes. 11 11 A. No. You know, they -- I'm a 12 Q. I apologize. I think I 12 big believer in antitrust. And, you started to talk over you. You said you 13 know, we -- you know, I never -- as a 13 had nothing to do with the brand. The 14 14 matter of fact I saw some yesterday when brand there, are you referring to Opana? I was there. And I haven't seen them in, 15 15 A. Well, just brands in 16 you know, 12 years, whatever it's been 16 general. Brands -- Endo had the brand --17 17 since I left. So, no, other than I would 18 Endo's brand division or group, which 18 wave to them at a convention or 19 was, you know, 95 percent of the company, 19 something, you know, we didn't have any 20 maybe more, had, you know, opioids and 20 conversations. 21 non-opioids. But they were the brand. 21 Q. You didn't have any ongoing 22 And I didn't have anything to do with 22 personal relationship with anybody? that activity. So the brands were the 23 23 A. No. 2.4 brands. And they did their things. 2.4 And you said that you saw Q. Page 31 Page 33 Completely different business in some folks yesterday. So in the course 1 1 2 generics. It's completely different 2 of going for preparation for the 3 models, completely different everything. 3 deposition, you saw other folks from 4 Q. Okay. We'll look a few -- a 4 Endo? 5 5 few documents later, because I think A. As I was leaving. You know, 6 we've seen some involvement that you had 6 as I was leaving, I got to spend five or 10 minutes with former colleagues that 7 with some of the branded products. We'll 7 8 were in the -- whatever department 8 look at that a little bit later. 9 9 they're in now, at the time they were in In terms of preparing for 10 the deposition, did you yourself go back 10 the finance department. "Hi, how are and look at any documents on your own you? You know, how are you doing? You 11 11 outside of what Ms. Vanni or counsel may 12 look great." That kind of stuff. 12 Q. Got it. Who were those 13 have shown to you? 13 14 A. I don't have any documents 14 folks that you said hi to? 15 15 of my own. So there was nothing to A. They would have been Mary Jo 16 16 review. Magrone and it was -- the other one was 17 17 Q. Okay. You don't keep any Jody Travis. 18 diaries or journals that you would have 18 Q. And you said you recall them gone back to look at, or did you go back 19 from your time at Endo; is that right? 19 A. Yeah, they were there when I 20 to look at? 20 21 A. I don't -- I didn't -- no, I 21 left. don't have any of those journals or 22 O. And they're -- were they in 22

the finance department when you were

23

24

there?

diaries. Notebooks I left at Endo. When

I left, I left. You know, I had boxes of

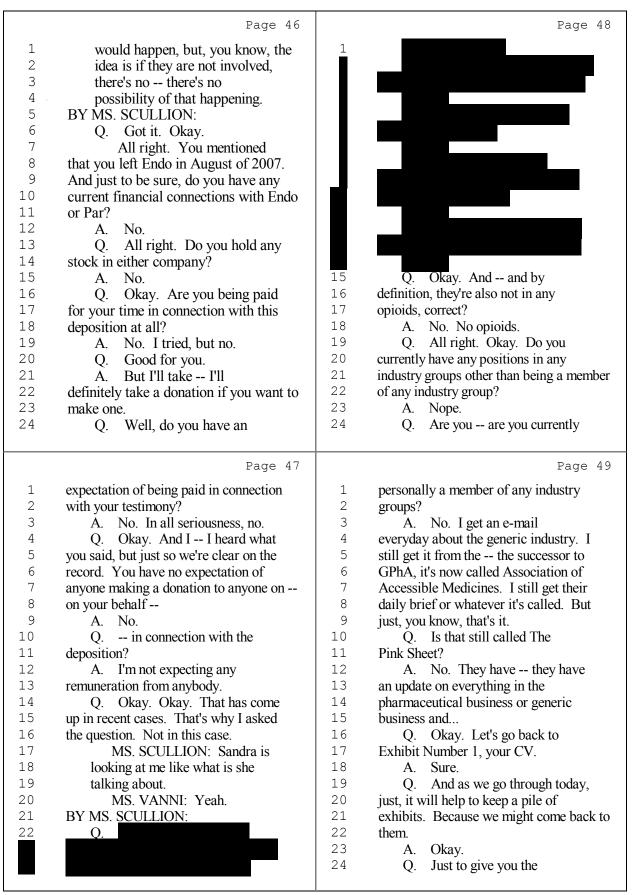

2.3

24

_			
	Page 34		Page 36
1	A. Yeah, they were in the	1	MS. VANNI: Object to form.
2	finance department.	2	THE WITNESS: I understand
3	Q. Okay. Got it. Anyone else	3	based on based on our meeting
4 .	that you that you said hello to at	4	with counsel, yes.
5	Endo?	5	MS. VANNI: I just want
6	A. Guy Donatiello, but he's	6	to I just want to remind you.
7	part of their legal counsel team. He was	7	Don't disclose anything that we
8	the he was the IP lawyer then. He's	8	personally discussed.
9	still the IP lawyer.	9	THE WITNESS: Yeah, yeah,
10	Q. Got it.	10	yeah, yeah.
11	A. Not that that's a bad thing.	11	BY MS. SCULLION:
12	Q. It's not a bad thing at all.	12	Q. Okay. Outside of this
13	Okay. At some point, I	13	litigation, are you generally familiar
14	assume you were contacted to inform you	14	with the fact that there's an opioid
15	that you were going to be deposed in this	15	epidemic in the country?
16		16	
17	case. Before you were contacted about the deposition, had you heard about this	17	MS. VANNI: Object to form. THE WITNESS: Only what I've
18		18	
19	case?	19	heard on TV that there's a problem
	A. Vaguely, whatever I heard in		with opioids.
20	the press, that you know to be honest,	20 21	MS. SCULLION: Okay. Can I
21	not very much.	l	have the subpoena, please.
22	Q. Okay. What do you recall	22	BY MS. SCULLION:
23	hearing about it?	23	Q. Mr. Stevenson, were you
24	MS. VANNI: Object to form.	24	provided a copy of the subpoena that was
	Page 35		Page 37
1	THE WITNESS: Just the	1	served in this case for your deposition
2	various the various government	2	and documents?
3	entities were pursuing, you know,	3	A. I yes, I was I was
4	different pharmaceutical	4	shown a copy, yes. Mm-hmm.
5	companies. More or less, that's	5	Q. Okay.
6	just it, you know.	6	(Document marked for
7	BY MS. SCULLION:	7	identification as Exhibit
8	Q. Okay. And what's your	8	Endo-Stevenson-2.)
9	understanding of what the governmental	9	BY MS. SCULLION:
10	entities are pursuing the companies for?	10	Q. Let me hand you what's been
11	A. I didn't really pay that	11	marked as Exhibit Number 2. Exhibit
12	much attention to it. I'm not involved	12	Number 2, Mr. Stevenson, is a copy of the
13	with opioids. You know, when I was	13	subpoena to testify at deposition in a
14	Kremers Urban, I wasn't involved in	14	civil action. It's addressed to you,
15	opioids. Controlled drugs, yes, but not	15	care of Arnold & Porter Kaye Scholer. Do
16	opioid.	16	you understand that Arnold & Porter Kaye
17	So, you know, I didn't I	17	Scholer is also counsel for Endo in this
18	don't believe most of the stuff that I	18	case?
19	read in the press anyway. So I didn't	19	A. Yes.
20		20	
21	really I didn't really focus on it.	21	Q. Okay. Terrific. And is
22	Q. Do you have do you have	21	the did you see the subpoena before
23	an understanding that the case at its	23	today's deposition?
23	core involves allegations concerning the		A. Yes.
1 / 4	opioid epidemic in this country?	24	Q. All right. And you

	Page 38		Page 40
1	understand that in addition to asking for	1	materials or educational materials from
2	your testimony, it asks for documents?	2	Endo at home?
3	A. What kind of documents?	3	A. No.
4 .	Q. Sure. Sorry. Let's go	4	Q. Okay.
5	to on the very first page of	5	A. Because first of all, in
6	Exhibit 2, you see where it says in	6	generics, we don't do promotion.
7	italics on the left-hand side	7	Generics is a different business.
8	"production"?	8	That's the brand business does
9	A. Yes.	9	promotion.
10	Q. And it says, "You or your	10	And we didn't have any
11	representative must produce the	11	educational that's what the brand
12	documents, electronically-stored	12	does. They had educational material when
13	information, or objects identified in	13	they called on physicians or whatever
14	Attachment A prior to the date of the	14	they have in their you know, in their
15	deposition but no later than February 10,	15	arsenal when they visited physicians.
16	2019."	16	But in generics we didn't have that. You
17	Do you see that?	17	know, it's generics. It's more of a
18	A. Yes.	18	shoestring operation from a cost
19	Q. Okay. And if you turn back	19	standpoint, pricing standpoint. So all
20	in Exhibit 2 to what's labeled at the top	20	those things which are very expensive
21	Attachment A.	21	would not be in the generics business.
22	A. Yes.	22	Q. And again, do you recall
23	Q. And then you'll see that	23	though that with respect to the generic
24	page, and then really the next page under	24	OxyContin product that Endo did sell for
	Page 39		Page 41

And they have it all.	2 3 4 5 6 7 8 9 10	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter
2 3 4 5 6 7 8 9 10 11	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very	2 3 4 5 6 7 8 9 10 11 12	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any
2 3 4 5 6 7 8 9 10 11 12 13	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very reason. I didn't want to have documents	2 3 4 5 6 7 8 9 10 11 12 13	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any commercial people in that. You want it
2 3 4 5 6 7 8 9 10 11 12 13 14	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very reason. I didn't want to have documents at home.	2 3 4 5 6 7 8 9 10 11 12 13 14	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any commercial people in that. You want it all to be on scientific basis. That's
2 3 4 5 6 7 8 9 10 11 12 13 14	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very reason. I didn't want to have documents at home.  Q. Okay.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any commercial people in that. You want it all to be on scientific basis. That's the way most Pharma companies, and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very reason. I didn't want to have documents at home.  Q. Okay.  A. I don't have any documents	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any commercial people in that. You want it all to be on scientific basis. That's the way most Pharma companies, and companies set it up.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very reason. I didn't want to have documents at home.  Q. Okay.  A. I don't have any documents to search for.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any commercial people in that. You want it all to be on scientific basis. That's the way most Pharma companies, and companies set it up.  So the commercial people,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. You want it all to be on scientific basis. That's the way most Pharma companies, and companies set it up.  So the commercial people, which I was considered more on the commercial side, aren't involved in in any of that. So there could have been educational things developed at the time. It's a long time ago. Yes, I was involved in oxycodone ER, which is the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Roman Numeral II, documents requested, there's five categories of documents.  The question is just, did you search for documents that might be responsive to the subpoena?  A. I never had a personal e-mail. I only got one when I stopped working at Kremers Urban as the president and CEO. I never had one before that. So whatever was on my e-mail was at Endo. I left it there. And they have it all. So I never stored for that very reason. I didn't want to have documents at home.  Q. Okay.  A. I don't have any documents to search for.  Q. Terrific. And then at the bottom of that same page, it asks for tangible things, Roman Numeral III, tangible things.  A. Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	a period of time, there were certain educational materials that were created and distributed?  A. There there, you know, my recollection is there was or there could have been. But I wouldn't have been involved in that. That was you know, and Endo was very segregated by function. So pharmacovigilance and the operational people and the medical people, they all did that kind of stuff. And as a matter of fact by rule, you don't want any commercial people in that. You want it all to be on scientific basis. That's the way most Pharma companies, and companies set it up.  So the commercial people, which I was considered more on the commercial side, aren't involved in in any of that. So there could have been educational things developed at the time. It's a long time ago. Yes, I was

	Page 42		Page 44
1	not, you know, draft any of that. That	1	Q. Okay. And just to make sure
2	was all done, if it was done, was done by	2	we are on the same page, when you talk
3	other people in the company that had	3	about educational materials, would that
4	it was based on their scientific	4	include unbranded educational materials?
5	expertise, MDs, et cetera, that were	5	MS. VANNI: Object to form.
6	involved in that.	6	THE WITNESS: That's why I
7	Q. So you referred to a rule to	7	don't recall that it would have
8	separate out the commercial and	8	been normally on if they did
9	educational aspects	9	it, it might have been for what's
10	A. There yeah.	10	called a CE program, you know, or
11	Q. Sorry. Can you explain	11	something like that.
12	what what rule you are referring to?	12	It's also done again, the
13	MS. VANNI: Object to form.	13	CE program and who writes that is
14	THE WITNESS: Well, you	14	separate from commercial because
15	know, it's not so much of a rule.	15	it's based on the science of the
16	Let's say it was a policy where,	16	product. We may have done some of
17	you know, they wanted the	17	that, I just don't recall.
18	company wanted, and most companies	18	BY MS. SCULLION:
19	want this, they want the	19	Q. Okay. And what's your
20	commercial people to stay away	20	understanding of why there was the policy
21	from scientific endeavors. Okay.	21	to separate the commercial from the
22	So whether it's a risk management	22	educational and science aspects as you
23	program or whether it's	23	were just discussing?
24	educational materials, it's very	24	A. It's normally done in order
2 1	eddeational materials, it's very		71. It's normany done in order
	Page 43		Page 45
1	specific and it's based on the	1	that the information presented is based
2	label of the product, it's a	2	on the science without influence from the
3	this is FDA is a very	3	commercial people. So if you not that
4	complicated, you know, process.	4	I would have influenced them. But just
5	And and the FDA, when they	5	as a policy or an approach, most
6	approve your product, your product	6	companies don't want to have any
7	is approved based and a label	7	association where commercial is involved
8	is approved. Effectively when you	8	in in, you know, that kind of
9	get the product approved, the	9	activity. Because, you know, the feeling
10	label for use is approved.	10	is that somehow it taints the product and
11	And based on that,	11	makes it more of a commercial slant.
12	educational materials are	12	So most, most companies, and
13	developed based on that label.	13	Endo was no exception, have, and I've
14	And they wanted and Endo was	14	seen it described as a firewall between
15	not an exception. Other companies	15	the commercial people and the scientific
16	have done it as well. That	16	people with respect to what you are
17	information, they wanted the	17	discussing.
18	scientific people, MDs,	18	Q. And again, your
	pharmacovigilance people, to work	19	understanding is that firewall is because
19		20	you don't want to taint the educational
19 20	on those kinds of products. And		
	on those kinds of products. And if there was educational materials	21	materials with a commercial slant?
20		1	
20 21	if there was educational materials	21	materials with a commercial slant?
20 21 22	if there was educational materials developed, that's who would have	21 22	materials with a commercial slant?  A. Right.

	Page 50		Page 52
1	heads-up there.	1	products, right?
2	So just just starting	2	A. No opioids, no.
3	back on the last page of Exhibit 1,	3	Q. Okay. And then you went to
4 .	you you, it looks like, were born and	4	United Research Laboratories, right?
5	raised in Philly?	5	A. Correct.
6	A. No. Actually I was born in	6	Q. It says you were group
7	Haddington, Scotland, but	7	manager for contracts, marketing, and
8	Q. Okay.	8	pricing. Did did that position have
9	A I was six weeks old when	9	anything to do with any opioid products?
10	I came over. My parents came over.	10	A. We may have had a C-V or
11	Q. Terrific. And then you were	11	C-IV drug. But, you know, it's a long
12	raised here?	12	time ago. I don't remember.
13	A. Yeah, I grew up in Northeast	13	Q. Okay.
14	Philadelphia.	14	A. It was we didn't have
15	Q. Okay. And you then you	15	C-II.
16	went to St. Joe's?	16	Q. And just so we're all clear,
17	A. Yes.	17	C-II, C-IV, C-V, these are references to
18	Q. And on to Drexel, right?	18	the schedules under the federal
19	A. Yeah.	19	Controlled Substances Act, correct?
20		20	
21	Q. All right. I also see that	21	A. Right, yes.
22	you, for a period good period of time,	1	Q. And C-II, that is a fairly
	you were an associate professor at Drexel	22	restricted category that's scheduled,
23	for economics and marketing; is that	23	correct?
24	right?	24	A. Very restricted.
	Page 51		Page 53
1	A. 15 years, yeah.	1	Q. Okay. And we're going to
2	Q. Terrific. And did you	2	talk about them more, but some of the
3	include teaching there on pharmaceutical	3	products that you were involved with at
4	marketing?	4	Endo were were C-II products, correct?
5	A. No, no, no. I taught	5	A. Correct.
6	economics. I taught undergraduate	6	Q. So Endocet was a C-II
7	well, the marketing was related into a	7	product, correct?
8	couple economics courses. It wasn't a	8	A. Correct.
9	direct marketing course.	9	Q. Sorry. Morphine sulfate
10	Q. Okay.	10	extended-release was a C-II, correct?
11	A. It was mostly microeconomics	11	A. Correct.
12	and macroeconomics, and then some	12	Q. Generic oxycodone ER was a
13	international business courses which were	13	C-II, correct?
14	more marketing oriented so that's why I	14	A. Correct.
15	wrote that.	15	
16		16	
17	Q. Terrific. Okay. And then	17	said Endocet, Endo was also selling
	just looking back at your employment		Percocet at the time you were working
18	history, you start off at ASTM, right,	18	with them?
19	for a period?	19	A. That was the brand.
20	A. Correct.	20	Q. Right.
21	Q. You went onto SUN Company?	21	A. Okay.
22	A. Right.	22	Q. That was a brand. That was
23	Q. Neither of those positions	23	a C-II, correct?
24	obviously involved any any opioid	24	A. Yes.

	Page 54		Page 56
1	Q. All right. And that was the	1	Q. Okay. And but you recall
2	brand equivalent of Endocet, right?	2	that Opana and Opana ER were also C-II
3	A. Well, actually Endocet was	3	products?
4 .	the generic equivalent of Percocet.	4	A. Yes.
	That's	5	
5		1	Q. Okay. Okay. So sorry.
6	Q. Well put. Okay.	6	So after your position at
7	And and each of those,	7	United Research Labs, you then joined
8	they were an oxycodone APAP combo	8	Apothecon, which was a division of
9	product; is that right?	9	Bristol-Myers Squibb, correct?
10	<ul> <li>A. Oxycodone IR was</li> </ul>	10	A. Yeah. Mm-hmm.
11	acetaminophen, or APAP combo product,	11	Q. All right. And you were
12	yeah.	12	there from 1996 to 2000, correct?
13	Q. Right. Thank you.	13	A. Correct.
14	A. For with respect to	14	Q. And your time there did not
15	Endocet.	15	involve any controlled substances,
16	Q. Understood.	16	correct?
		I	
17	A. And Percocet.	17	A. No controlled substances.
18	Q. Right.	18	Q. Okay. And then moving ahead
19	A. Percocet was was the	19	to Page 2 of your CV.
20	brand name for the generic chemical	20	A. Excuse me. Can I go back?
21	entity.	21	Q. Yes, go ahead. Absolutely.
22	Q. Right. And then I mentioned	22	A. You controlled substances
23	earlier Opana. You recall that while you	23	or opioids?
24	were employed with Endo, it sold two	24	Q. Let's just start with
			•
	Page 55		Page 57
1	products, one called Opana, and another	1	let's talk about opioids. Any opioids
2	one called Opana ER?	2	at at Apothecon?
3	A. I had nothing yeah, I	3	A. No. For the record, they
		1	
4	they were selling it, but I had nothing	4	did have a controlled substance which was
5	to do with that.	5	methylplenidate which is a C-II, but it's
6	Q. Okay. And I'm just if	6	for attention deficit.
7	you can just answer the questions as I	7	Q. Thank you very much. I
8	ask them. I if you don't have	8	appreciate that.
9	anything to do with it, you'll let me	9	And then you joined, after
10	know. But I'm just making sure you	10	Apothecon, you joined Sandoz, correct?
11	recall that they sold those products.	11	A. Yes.
12	A. Yes. Yeah.	12	Q. All right. And at Sandoz
13	Q. Okay.	13	did you have responsibility for any
14	A. So the the answer, to be	14	opioid products?
15	clear, they sold the products	15	A. No. I have to think about
16		16	
17	Q. Right.	17	it. Excuse me, I have to think about it
	A that was the brand	1	for one moment.
18	people.	18	Q. Sure.
19	Q. Right.	19	A. I would say no.
20	A. I didn't have anything to do	20	Q. Okay. If at any if at
21	with generics.	21	some point today, it occurs to you, will
22	Q. Okay.	22	you just let me know?
23	A. So it wasn't a generic	23	A. Be glad to.
	$\sim$	1	
24	product.	24	Q. Okay. Thanks a lot.
24	product.	24	Q. Okay. Thanks a lot.

	Page 58		Page 60
1	And then and then after	1	let's say, November or somewhere in that
2	Sandoz, you joined Endo Pharmaceuticals.	2	time frame of '06 until the time I left,
3	And that was in 2003, correct?	3	I then had trade affairs.
4 .	A. That's correct.	4	Q. Okay. And you've used the
5	Q. All right. And you stayed	5	terms trade and retail. Those refer to
6	with Endo, you said, August 2007, right?	6	the same thing, and that is the chains?
7	A. Correct.	7	A. Chains and wholesalers,
8	Q. And were you vice president	8	yeah.
9	generics business and trade affairs for	9	Q. Okay.
10	that entire period?	10	A. They're commonly called the
11	A. No. I was the vice I was	11	trade.
12	vice president of generics for the entire	12	Q. Okay. And so you so I
13	period. The trade affairs was the last,	13	just want to make sure I understand. So
14	I would say, nine months or so, ten	14	the trade/retail would include, as you
15	months. They had, like, a little	15	said, wholesalers like AmerisourceBergen,
16	reorganization at the time. At the time	16	correct?
17	when I arrived at Endo and this is	17	A. Correct.
18	just for the record, but, you know, when	18	
19		19	
20	I arrived at Endo, they had a director of	20	
	corporate accounts. And they under		Q. Cardinal Health?
21	corporate accounts, they had managed care	21	A. Cardinal Health.
22	accounts, which, you know, for people who	22	Q. All right. Would it also
23	don't know who they are, they're the	23	include the national chains such as Rite
24	Aetnas, CIGNAs and United Healthcares and	24	Aid?
	Page 59		Page 61
1	Blue Cross Blue Shields kind of accounts.	1	A. Yes.
2	They're called managed care.	2	Q. Walgreens?
3	And then they had what's	3	A. Yes.
4	called the trade accounts, which are the	4	Q. Walmart?
5	wholesalers, AmerisourceBergen, McKesson,	5	A. Yes.
6	those kind of accounts, plus the chains,	6	Q. Okay. So now I think I have
7	the CVS, Walgreens, Rite Aids of the	7	an understanding of what we are talking
8	world. And they had that all under	8	about.
9	corporate accounts.	9	A. And all that's commonly
10	When the director of	10	called, for ease of for those of us in
11	corporate accounts left, which I believe,	11	the business, the trade.
12	from my recollection, is sometime in late	12	Q. Fantastic. Okay.
13	2006, to pursue another opportunity, the	13	
14	feeling at the time was to segregate the	14	And before taking on the
15	retail accounts from the managed care	15	responsibilities for formally as
16			for trade affairs, had you had experience
17	accounts because they wanted to have more	16	working with the trade in the past, I
	of a focus on managed care. And they	17	think you said?
18	thought the retail accounts were a	18	A. Yes.
19	distraction to managed care for the	19	Q. Okay. All right. How did
20	individuals involved. So because of my	20	you come to join Endo in 2003?
21	knowledge and experience in retail	21	A. I was recruited.
22	accounts, they asked me to have those	22	Q. Who recruited you?
23	three people report to me.	23	A. Oh, I don't remember. It
24	So for the last from,	24	was a recruiting firm in Philadelphia.
İ

1	Q. Okay. It wasn't anyone	1	strategies, yeah.
2	specific at Endo that recruited you?	2	BY MS. SCULLION:
3	A. No.	3	Q. And you said you left Endo
4 .	Q. Did you know anyone at Endo	4	in August of 2007. Why did you leave
5	before you joined?	5	Endo?
6		6	
	A. I might have known them from		A. The opportunity to become
7	being in the business. You know, I	7	the president and CEO of Kremers Urban
8	may oh, yeah, they are at Endo. No, I	8	Pharmaceuticals.
9	didn't have any personal relationship	9	Q. Were you asked to leave
10	with anybody.	10	Endo?
11	Q. Okay. When you when you	11	A. No.
12	did join Endo, did was there anyone	12	Q. Did anyone suggest that you
13	specific within Endo who hired you?	13	leave Endo?
14	A. The decision was made by	14	A. No. Came, I think, as a
15	Peter Lankau, who was the CEO of the	15	complete shock that I left.
16	company.	16	Q. And as you said, then you
17	Q. Okay. When you joined Endo,	17	went straight from Endo to Kremers Urban,
18	was Carol Ammon still with the company?	18	correct?
19	A. Yes, actually, I misspoke.	19	A. Right. They were a
20	Carol Ammon was the president and CEO,	20	subsidiary of UCB, which is a
		1	· · · · · · · · · · · · · · · · · · ·
21	and Peter was the VP of business	21	Brussels-based biotech. We were the
22	operations. But Carol was phasing out,	22	generic division of the United States.
23	and Peter was going to become the new	23	Q. And you stayed with Kremers
24	CEO. So I said he was the CEO of the	24	Urban for about 11 years, through 2016.

        Squibb, in Sandoz -- Geneva Sandoz was
                                                         2
                                                                that where, you know, under a CDA, a
 3
        part of Novartis, at Endo, wherever it
                                                         3
                                                                large account, we would tell them this is
        was, the brand company went to great
                                                         4
                                                                what we're working on in the pipeline, to
 4
                                                         5
 5
        lengths and spent tremendous amounts of
                                                                get their reaction, is that something
                                                         6
 6
        money to make sure that the sales reps
                                                                they'd be interested in. And also to let
 7
        promoted according to the label.
                                                         7
                                                                them know it was coming, you know, so
 8
                And anybody who went off
                                                         8
                                                                that they -- that's the kind of
 9
        that script was -- was severely punished.
                                                         9
                                                                marketing.
10
        including -- up to and including
                                                       10
                                                                        We did some reminder ads in
        termination.
                                                       11
11
                                                               journals which were, you know, they were
                                                                very expensive. In the case of Endo, I
12
             O. Okav.
                                                       12
13
             A. And actually went to great
                                                       13
                                                                remember they -- you know, they called
14
        lengths, I know at Endo, in monitoring
                                                       14
                                                                them three-piece, three-piece entities
        that kind of activity to make sure that
                                                                because of all the different things that
15
                                                       15
16
        did not occur. Because Endo, in the big
                                                       16
                                                                had to go into the ads because they
                                                       17
17
        scheme of things, was not that big a
                                                                were -- it was -- it was an opioid, which
                                                       18
18
        company and they couldn't -- they didn't
                                                                was standard. So we didn't run that many
                                                       19
19
        want to have any issues along the lines
                                                                of them, because it was -- it was
20
                                                       20
                                                                expensive. You know, 30-, 40,000. In
        vou described.
21
                So most pharmaceutical
                                                       21
                                                                the generics business that's -- that's a
22
        companies take the same approach. They
                                                       22
                                                                lot of money. The ad budget is not
                                                       23
23
        go to great lengths to ensure that that
                                                                that -- normally not that high.
2.4
        off-label promotion does not happen.
                                                       2.4
                                                                        So, yeah, that's the kind
                                        Page 75
                                                                                               Page 77
 1
            Q. Okay. Now, as you said,
                                                         1
                                                               of, you know, pricing, you know, we
        when you were at Endo, you were not
                                                         2
 2
                                                               talked about pricing and how we can, you
 3
        personally professionally involved in the
                                                         3
                                                               know, work something involving getting --
        sales and promotion of the branded
                                                         4
                                                               with our product to make sure that if we
 4
                                                         5
                                                               were challenged by our competition, you
 5
        products, correct?
            A. Correct.
                                                         6
 6
                                                               know, how we could retain the business
 7
                                                         7
            Q. Okay. So then, that was
                                                               and -- and customer relations, customer
 8
        describing the marketing for branded.
                                                         8
                                                               interaction. That was -- in generic,
                                                         9
 9
        Then you were explaining to me what
                                                               more or less, that's what marketing is.
10
        marketing means on the generic side.
                                                       10
                                                                    O. Okay. And I'm sorry, you
11
                To make sure I understand,
                                                       11
                                                               mentioned a CDA. Is that like a
12
        that involves marketing to the trade
                                                       12
                                                               confidentiality agreement?
13
        accounts in order to, to what, to be
                                                       13
                                                                    A. Confidentiality, yeah.
14
        stocked by them, to placed by them? What
                                                       14
                                                                    O. Great, thanks. And I think
15
        are you marketing them for?
                                                       15
                                                               you were explaining to me that in terms
16
            A. Yeah. You know, we -- yeah,
                                                       16
                                                               of getting and retaining the trade
17
        that they know we have the product,
                                                       17
                                                               business, that one of the important
18
        that -- that we're always searching for
                                                       18
                                                               things you were focused on was the
19
        opportunities to get product, you know,
                                                       19
                                                               relationship with that trade customer,
20
        does somebody need product, do they not
                                                       20
                                                               correct?
21
        like their current supplier. You know,
                                                       21
                                                                       MS. VANNI: Object to form.
22
        under CDA we would tell them about future
                                                       22
                                                                       THE WITNESS: Yes.
23
        products. I don't know if we did that at
                                                       23
                                                               BY MS. SCULLION:
24
        Endo, but, you know, I'd done that
                                                       24
                                                                    Q. And that -- that was true
```

```
Page 78
                                                                                             Page 80
                                                       1
 1
                                                                  product is stocked.
        while you were at Endo?
 2
            A. It's been true before Endo
                                                       2
                                                             BY MS. SCULLION:
 3
        and after Endo and at Endo.
                                                       3
                                                                  Q. And -- I'm sorry.
                                                       4
                                                                  A. So there was no promotional
 4
            Q. Okay. And is -- was part of
                                                       5
 5
        the relationship providing educational
                                                             activity by the national account
                                                       6
                                                              executives to anybody.
 6
        materials that could be used for example,
                                                                  Q. But you -- but you had
 7
                                                       7
        at pharmacies?
 8
                                                       8
                                                              responsibility for the national account
            A. No.
                                                       9
                                                              executives getting Opana, and Opana ER to
 9
            Q. Okay. Did --
                                                      10
                                                             be clear, stocked in the trade accounts,
10
                MS. SCULLION: I thought the

2.3
            account executives do on the brand
                                                      23
                                                                  Q. Mr. Stevenson, I've handed
                                                      24
24
            side, is they make sure the
                                                              you Exhibit 4. And for the record, the
```

	Page 82		Page 84
1	Bates number is ENDO-OPIOID_MDL-00860303.	1	
2	And just so you know, I'm	1 2	And looking in the left-hand column,
3	just reading the small numbers in the	3	lists a number of objectives for the year. And let's go down to the third
4	bottom right corner for the record, so		
5	people on the phone can follow.	4	row. Do you see it says successfully
6	Mr. Stevenson, do you	5	launched products?
7	recognize Exhibit Number 4?	6	A. Yes.
	e e e e e e e e e e e e e e e e e e e	7	Q. And it identifies this as a
8 9	A. Well, it's my 2006	8	corporate objective. And the corporate
10	performance appraisal.	9	objective there was "achieve
11	Q. Right. And it's this is	10	\$17.5 million in Opana and Opana ER net
12	an e-mail from you to David Kerr	11	factory sales in 2006," correct?
13	attaching your 2006 performance	12	A. Correct.
	appraisal, correct?	13	Q. All right. And then you've
14	A. Yes.	14	indicated on the right-hand side that
15	Q. Okay. And who was Mr. Kerr	15	that was achieved. And, in fact, it was
16	when you sent this e-mail, what was his	16	about, approximately \$18.8 million in net
17	position?	17	factory sales, correct?
18	A. He was the vice president of	18	A. Yes. What's that's
19	business operations I believe.	19	what's there, that's correct.
20	Q. He was your boss	20	Q. Okay. And then the next row
21	effectively?	21	down, successfully launched products,
22	A. Yes, he was my boss.	22	Corporate Objective 1.
23	Q. And let's turn to the actual	23	Now here it says, "Manage
24	performance appraisal itself, which	24	Project Pizza to achieve documented
	Page 83		Page 85
1	begins in the attachment at 860304. I	1	stocking of Opana and Opana ER in
2	just want to page back through this. If	2	12,000" it looks like it's supposed to
3	you turn back through the document. If	3	say pharmacies. Do you see that?
4	you go to Page 6, in the lower right-hand	4	A. Yes. Yes.
5	corner?	5	Q. And then on the
6	A. Page 6. Yes.	6	right-hand oh sorry. Go over to the
7	Q. And before I ask you about	7	right on that same row, do you see in
8	the particulars on this page, am I	8	terms of describing fulfillment of the
9	correct in understanding, this is	9	objective it says, "Managed Project Pizza
10	something you would have you would	10	team and documented Opana and Opana ER
11	have filled out in terms of saying to	11	stocked in 12,100 pharmacies as of
12	Mr. Kerr, here was my objective and here	12	12/31/06."
13	is how I explain how I have or haven't	13	Do you see that?
14	achieved that particular objective this	14	A. Yes.
15	year; is that right?	15	Q. Do you recall Project Pizza?
16	A. Yes, that's yeah. You	16	A. Not really. I mean it
17	know, for clarity normally the employee,	17	was not really.
18	at my level, would complete what I	18	Q. Okay. Do you recall though
19	thought. And he would, you know, have a	19	that there was a project that you oversaw
20	meeting and we would see if there was	20	to document stocking of Opana and Opana
	•	21	ER in about 12,000 pharmacies as of as
21	Some agreement with what he thought with		
	some agreement with what he thought with what I wrote, et cetera, and then it'd be	22	of 2006?
21	what I wrote, et cetera, and then it'd be		of 2006?  MS. VANNI: Object to form.
21 22		22	of 2006?  MS. VANNI: Object to form.  THE WITNESS: To be honest,

	Page 86		Page 88
1	I didn't. No, I saw some	1	A. It's an industry group for
2	documentation in the last day or	2	the chains. And they have two meetings
3	so. But I I really don't	3	per year, which suppliers, which you
4 .	recall any details about it, you	4	know, whoever the pharmaceutical company
5	know.	5	is, attends. And it can be both for the
6	BY MS. SCULLION:	6	pharmacy end and for the non-pharmacy
7	Q. Fair enough. You have no	7	end. It's a pretty big they're pretty
8	reason to doubt the accuracy of what you	8	big meetings every twice a year.
9	wrote here in this performance appraisal,	9	Once one in the spring, one is coming
10	correct?	10	up in April/May, and one in the summer.
11	A. No, I don't. There's no	11	Q. Got it. And that was listed
12	reason to doubt it, no.	12	here, the "Actively participate in
13	<ul><li>Q. And this description of an</li></ul>	13	NACDS," was listed as increasing Endo
14	effort to document stocking of Opana and	14	penetration and entrenchment in key
15	Opana ER in 12,000 pharmacies, that's	15	strategic accounts. How would actively
16	consistent with what you just explained	16	participating in NACDS serve that goal?
17	to me about one of the roles of that	17	A. By attending those meetings
18	you had at Endo, correct?	18	and meeting with customers, and, you
19	MS. VANNI: Object to form.	19	know, showing the flag. We used to take
20	THE WITNESS: It was a role	20	a booth and have a booth. And most
21	I had in the last ten months or so	21	companies take a booth, and then the
22	before I left, yes. It was	22	customers come to your booth. And you
23	overseeing the stocking portion of	23	have a discussion. You show the flag.
24	the brand business that the	24	You are actively participating.
	Page 87		Page 89
1	national account executives were	1	It's expensive. There was
2	responsible for.	2	always somebody that would say, you know,
3	BY MS. SCULLION:	3	was it really worth it and that kind of
4	Q. Okay. Now, let's just stay	4	stuff. So when I you know, that was a
5	in the document same document for a	5	goal when we established objective that,
6	moment. If you'll go up to Page 5.	6	you know, my belief was, from a generic
7	Looking at the top of Page yeah, Page	7	perspective, if you're not there, if your
8	5 excuse me the first row.	8	absence is missed, you'll be that will
9	It says, "The objective is	9	be noticed. If everybody in the business
10	increase Endo penetration and	10	is there, and you're not there, that's a
11	entrenchment in key strategic accounts."	11	problem.
12	Do you see that?	12	So when I wrote this, you
13	A. Yes.	13	know, to go back, generics in Endo
14	Q. And then under that it says,	14	Pharmaceuticals was a very small portion
15	"Actively participate in NACDS, HDMA and	15	of their business compared to their brand
16	GPhA in leadership position."	16	business.
17	Did I read that correctly?	17	So to go to have a booth at
18	A. Yes.	18	NACDS, it's expensive. To have people to
1 ^	Q. And then let's stick on	19 20	go to NACDS is expensive. There's always
19	4 16 . 4 224 . 374 0200	1 70	someone questioning, you know, since
20	that for a minute. What is NACDS?		
20 21	A. National Association of	21	generics was a small part of the
20 21 22	A. National Association of chain drug stores.	21 22	generics was a small part of the business, was it worth it.
20 21	A. National Association of	21	generics was a small part of the

	Page 90		Page 92
1	want to be have a player in generics	1	marketing in generics, the overall, you
2	and entrench yourself as a generic	2	know, your image, the overall ability to
3	player, then you have to participate in	3	service the account. That's more of the
4 .	these groups.	4	marketing approach.
5	Q. So for someone who's not as	5	So by going to an NACDS, if
6	familiar with the generic industry as	6	you're not there, you're going to be
7	obviously you are, why would being at a	7	missed, because they're going to know you
8	meeting like NACDS be important to the	8	are not there. Just you notice who's not
9	generic business as opposed to simply	9	there. If somebody is not there, you
10	competing based on price? Why would that	10	will notice it if you're in the business.
11	be important?	11	So it was important to go to
12	A. Well, first of all, you	12	NACDS. It was important to go to HDMA.
13	don't just compete based on price.	13	And it was obviously important to go to
14	That's not what you want. When you	14	GPhA.
15	compete, you know, you compete based on	15	Q. Okay. And we'll come to
16	how well you supply the product, how	16	those
17	responsible your customer service is.	17	A. Yeah, I understand.
18	These big accounts are busy.	18	Q organizations in a in
19	You know, they don't sit around all day	19	a minute. But so if I understand you
20	saying, gee whiz, it's 9:30 and Endo	20	correctly, in terms of not just competing
21	hasn't called me yet. That's not what	21	on price, but competing, you said, based
22	happens. They're extremely busy.	22	on your ability to service the accounts?
23	Supply is a big issue for	23	A. Multiple factors.
24	them, especially on big products,	24	Q. Okay. And so would speed of
	Page 91		Page 93
			rage 55

2 3 4 5 6 7 8 9 10 11 12 13 14 15	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a	2 3 4 5 6 7 8 9 10 11 12 13	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a	2 3 4 5 6 7 8 9 10 11 12 13 14 15	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form. THE WITNESS: Correct. Most
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form. THE WITNESS: Correct. Most customers, I don't remember or
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of competition. And if you can't supply,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form.  THE WITNESS: Correct. Most customers, I don't remember or don't recall what it was at that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of competition. And if you can't supply, that's going to get you're going to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form. THE WITNESS: Correct. Most customers, I don't remember or don't recall what it was at that time. But today, it's a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of competition. And if you can't supply, that's going to get you're going to get noticed. So we don't just compete on	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form. THE WITNESS: Correct. Most customers, I don't remember or don't recall what it was at that time. But today, it's a requirement that you service
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of competition. And if you can't supply, that's going to get you're going to get noticed. So we don't just compete on price. You don't want to just compete on	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form. THE WITNESS: Correct. Most customers, I don't remember or don't recall what it was at that time. But today, it's a requirement that you service 98 percent of their purchase
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of competition. And if you can't supply, that's going to get you're going to get noticed. So we don't just compete on price. You want to compete on other	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form.  THE WITNESS: Correct. Most customers, I don't remember or don't recall what it was at that time. But today, it's a requirement that you service 98 percent of their purchase orders.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	non-opiate, doesn't make any difference.  If they have a fast-moving product or a big product and someone can't supply it, it's a very big problem.  I use the example in  Seymour, Indiana, was where when I was at KU, where our manufacturing headquarters was located.  Q. Sorry, and KU is Kremers  Urban?  A. Kremers Urban.  Q. Thank you.  A. A town of 50,000. On one corner is a CVS, and right across is a Walgreens. So there's a lot of competition. And if you can't supply, that's going to get you're going to get noticed. So we don't just compete on price. You don't want to just compete on price. You want to compete on other things.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	customer service of processing orders be an important factor?  A. Yes. Q. And an ability to just be responsive to orders as they come in, that would be an important factor? A. Yes. Yes. Q. Okay. A. That's yeah. Q. Fair to say customers really don't want to hear that when they place an order, there's a problem with you processing their order, right?  MS. VANNI: Object to form.  THE WITNESS: Correct. Most customers, I don't remember or don't recall what it was at that time. But today, it's a requirement that you service 98 percent of their purchase orders.  BY MS. SCULLION:

Page 94 Page 96 1 1 A. Number of lines in a PO, a O. Okay. And I think you said, do you recall whether the 95 percent 2 purchase order -- I'm sorry I used -- a 2 3 purchase order comes in with a number of 3 level was in place when you were at Endo? 4 lines. So the definition of a backorder 4 A. I don't recall. percentage, 98 percent is based on number 5 5 O. Okav. of lines ordered based on number of lines 6 A. But it's possible. 6 7 filled 7 O. Okay. But putting aside the 8 Q. And if you don't meet that 8 95, 98 percent, do you recall though when 9 you were at Endo and in part working with 9 98 percent, what happens? 10 A. They'll send you a bill. 10 the trade accounts, that there still was You have to pay the difference. Today --11 a focus in the trade accounts on the 11 again, I don't remember what it is back 12 12 level of customer service that was being 13 in that time. But some accounts, I 13 provided? 14 think, had already started -- it was a 14 A. Yes. 15 big issue, supply. It was one thing to 15 Q. Okay. That was -- and again, regardless of whether there's a 16 differentiate. 16 But to finish my sentence, 17 95 percent threshold or not, still at 17 if you don't supply, then they will send that time when you were with Endo, the 18 18 19 you a bill for your price versus the next 19 trade accounts didn't want to have 20 lowest price generic. That's usually 20 hassles, for lack of a better word, with 21 what happens. 21 their orders, right? 22 And it's an order for you to 22 A. Correct. 23 23 O. They wanted their orders to be open and honest about how soon you can 24 supply, because if you want to pay them, 2.4 be taken and processed, right? Page 95 Page 97 great. They'll keep the spot for you 1 A. Correct. 1 open until you can supply again. 2 2 Q. No questions asked? 3 3

So it's designed that they're not out of product, because they have a lot of pharmacies, a lot of stocking, a lot of issues and they don't want to have an issue with being out of stock. Being out of stock is the worst thing you can do.

So part of how we differentiate ourselves wherever I have worked is we've been able to supply 95, 98 percent. Okay.

Now, over time, it used to be 95, if I recall correctly, and, you know, they have become more aggressive now, and it moved more to 98 percent. So they give you very little leeway for error.

Q. No questions asked?
MS. VANNI: Object to form.
THE WITNESS: Well, that's what their expectation was.

BY MS. SCULLION:

Q. Right.

A. Endo, as most companies do, we had it at Kremers Urban even though we were not involved in C-IIs, we monitored their orders. At Kremers, we monitored orders to make sure they were in line with what historical demand has been.

And that's pretty common in companies to do that. It has nothing to do with opioids necessarily. Opioids is more important because of the nature of opioid products. But even if it's not an opioid, it's going to be monitored. So that somebody doesn't buy more product than -- than the historical demand. It will raise a flag so you can go back and inquire what happened.

Q. Now --

25 (Pages 94 to 97)

	Page 98		Page 100
1	A. And opioids, it's even more	1	So rather than having two
2	important. So Endo had what the accounts	2	people doing the same thing only
3	expected was no hassles. But if Endo had	3	one for brand and one for
4 .	order monitoring, suspicious order	4	generics, it was all put into one
5	monitoring, just the nature of the beast	5	department. And they did both
6	of opioids, they had that they had	6	brand and generics.
7	that process in place, as companies do,	7	So it could have happened,
8	for all for products.	8	and I wouldn't have necessarily
9	Q. Are you aware if Endo, in	9	heard about it.
10	the time that you were there, ever	10	BY MS. SCULLION:
11	turning turning back any orders from	11	Q. Okay. To the best of your
12	the trade on any of its opioid	12	understanding, though, who was handling
13	accounts	13	
14	A. I	14	any suspicious order monitoring for
15		I	opioids when you were at Endo, which
	Q. Sorry.	15	department?
16 17	for suspicious orders?	16	A. I don't remember the exact
	MS. VANNI: Object to form.	17	department. It was probably, I'm going
18	THE WITNESS: I don't recall	18	to say, supply chain. But I don't
19	any of that. You know, I don't	19	remember exactly.
20	recall that happening.	20	Q. Okay. Do you remember a
21	BY MS. SCULLION:	21	woman named Lisa Walker?
22	Q. Okay.	22	A. Yes.
23	A. If that had happened, I	23	Q. Was Lisa Walker handling
24	wouldn't have objected to it.	24	suspicious order monitoring?
			- 101
	Page 99		Page 101
1	Q. But you don't recall it ever	1	A. I don't know what she was
2	happening?	2	handling specifically. But it wouldn't
3	A. No.	3	surprise me that she was involved in
4	MS. VANNI: Object to form.	4	that. I don't know if she was the
5	THE WITNESS: Could have	5	person. She had a department. So it was
6	happened. They had that was a	6	more than just Lisa Walker in her
7	separate branch. The way Endo was	7	department.
8	set up was they were segregated.	8	Q. But fair to say, the
9	So the people in customer service	9	suspicious order monitoring, whatever it
10	serviced the brand and generics.	10	was, and whoever was doing it, was not
11	The people in supply chain handled	11	your area of expertise, correct?
12	generic brand and generics.	12	A. I wasn't involved in
13	People in manufacturing and	13	suspicious order monitoring.
14	operations handled brands and	14	Q. Okay. All right. Going
15	generics.	15	back to Exhibit 4, same page. We were
16	It was segregated into	16	just talking about the NACDS and some
17	levels of expertise.	17	aspects of that. It also mentions in
18	And so, just like we talked	18	this first row, "Actively participate in
19	about earlier on scientific people	19	HDMA."
20	looking at promotional material,	20	What was HDMA?
21	it was very segregated as to what	21	A. HDMA was I forget what
22	people's experience and the way it	22	the H stands for, but distributors. It
		I	
23	was set up at Endo was that to	1 23	was hasically the trade association for
23 24	was set up at Endo was that to	23 24	was basically the trade association for the wholesalers
23 24	was set up at Endo was that to avoid duplication of efforts.	23	was basically the trade association for the wholesalers.

	Page 102		Page 104
1	Q. Okay. So NACDS was for the	1	talking about how Wall Street perceives
2	retail chains, and HDMA was for the	2	the generic business.
3	wholesalers?	3	They had people from IMS
4 .	A. Yes.	4	that would go through IMS data of you
5	Q. Okay. And was the	5	know, talking about the industry from an
6	importance of having active participation	6	IMS standpoint. IMS is you know, they
7	at HDMA similar to what you described for	7	have all the data for sales and revenue
8	NACDS?	8	and stuff like that. And, you know, it
9	A. Yes, it it declined over	9	was an informational meeting. And the
10	time because everybody went to the NACDS	10	organization itself represented the
11	meeting. So the HDMA meeting was nice to	11	generic industry in to the outside
12	go there, but it wasn't as crucial. It	12	world, you know.
13	was we had to go to support the	13	Q. Okay. And just, if we
14	whole our wholesale customers. It was	14	could, it says here that "the goal was
15	a different type of meeting than NACDS.	15	actively participate in these three
16	So we did meet with the wholesalers while	16	organizations."
17	we were there. And obviously but it	17	It says, "In leadership
18	wasn't as big or large as NACDS.	18	position." Do you see that?
19	Q. Okay. And similar to what	19	A. Yep.
20	you described in terms of the	20	Q. Did Endo, while you were
21	relationship with the retail chains, was	21	there, take any leadership positions in
22	it also important to have that good	22	any of those organizations?
23	customer service relationship with the	23	A. In NACDS, in you have
24	wholesalers?	24	to take a leadership position, you have
			to take a readership position, you have
	Page 103		Page 105
1	Page 103 A. Yes.	1	<del>-</del>
1 2	_	1 2	to be a chain, so we weren't a chain.
	A. Yes.	1	to be a chain, so we weren't a chain. Q. Okay.
2	<ul><li>A. Yes.</li><li>Q. And then the same row in</li></ul>	2	to be a chain, so we weren't a chain. Q. Okay. A. In HDMA you have to be a
2 3	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is	2 3	to be a chain, so we weren't a chain. Q. Okay.
2 3 4	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical	2 3 4	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.
2 3 4 5	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association?	2 3 4 5	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't
2 3 4 5 6	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as	2 3 4 5 6	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.
2 3 4 5 6 7	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines,	2 3 4 5 6 7	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the
2 3 4 5 6 7 8	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM.	2 3 4 5 6 7 8	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join
2 3 4 5 6 7 8	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you	2 3 4 5 6 7 8	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I
2 3 4 5 6 7 8 9	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively	2 3 4 5 6 7 8 9	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.
2 3 4 5 6 7 8 9 10	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association?	2 3 4 5 6 7 8 9 10	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go
2 3 4 5 6 7 8 9 10 11	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was	2 3 4 5 6 7 8 9 10 11 12	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to
2 3 4 5 6 7 8 9 10 11 12 13	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing	2 3 4 5 6 7 8 9 10 11 12 13	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same
2 3 4 5 6 7 8 9 10 11 12 13 14	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings.	2 3 4 5 6 7 8 9 10 11 12 13 14	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you
2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a	2 3 4 5 6 7 8 9 10 11 12 13 14 15	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would have different speakers come in. One	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer through competitive offers, 100 percent
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would have different speakers come in. One year they had the secretary of the the health and human service secretary come.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer through competitive offers, 100 percent supply, and industry knowledge."
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would have different speakers come in. One year they had the secretary of the the health and human service secretary come. They've had people from normally they	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer through competitive offers, 100 percent supply, and industry knowledge."  Do you see that?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would have different speakers come in. One year they had the secretary of the the health and human service secretary come. They've had people from normally they have the FDA commissioner would come. So	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer through competitive offers, 100 percent supply, and industry knowledge."  Do you see that?  A. Yeah.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would have different speakers come in. One year they had the secretary of the the health and human service secretary come. They've had people from normally they have the FDA commissioner would come. So it was it was an informative meeting.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer through competitive offers, 100 percent supply, and industry knowledge."  Do you see that?  A. Yeah.  Q. And that was an accurate
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Yes. Q. And then the same row in Exhibit 4 then refers to the GPhA. Is that the Generic Pharmaceutical Association? A. Yes. Now they are known as Association For Accessible Medicines, AAM, or AM. Q. Okay. And why did you why was it important that Endo actively participate in that association? A. Well, that association was on the cutting edge of of representing the generic industry in various meetings. And, you know but if for they had a meeting, two meetings a year, they would have different speakers come in. One year they had the secretary of the the health and human service secretary come. They've had people from normally they have the FDA commissioner would come. So	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to be a chain, so we weren't a chain.  Q. Okay.  A. In HDMA you have to be a wholesaler distributor, and we weren't a wholesaler distributor.  In GPhA, I don't I didn't take a leadership position. That was the goal, but if I had a chance I did join the board of directors later on after I left Endo, but not when I was at Endo.  Q. Okay. And then if we can go over to the right-hand side of that same row where you then describe the extent to which you've met this goal. It says, you wrote, "Endo firmly entrenched as important niche generic specialty Pharma company that brings value to customer through competitive offers, 100 percent supply, and industry knowledge."  Do you see that?  A. Yeah.

	Page 110		Page 112
1	at that time she reported to me. She was	1	a vault, we not every not
2	one of the national account executives,	2	every chain we sold to had a
3	who I testified earlier to was	3	vault. Like, for example, CVS
4 .	responsible for stocking.	4	didn't have a vault. Rite Aid
5	Q. Okay. And let's go then up	5	didn't have a vault. So they
6	to the top of the first page, which is	6	relied on the wholesaler.
7	your response e-mail. You say this is	7	So in order to get the
8	to David Kerr, your boss, correct?	8	stocking adequate to meet demand,
9	A. Yes.	9	we had to make sure that it
10	Q. And you say to Mr. Kerr,	10	wasn't it wasn't just important
11	"FYI, Kayla is keeping up the pressure to	11	to be in the case of McKesson, as
12	increase stocking at forward DCs."	12	an example, in their depot, it
13	Do you see that?	13	also had to be in their forward
14	A. Yes.	14	DCs across the country.
15	Q. And does that refer to	15	So what this appears to
16	increasing stocking of Opana at	16	be what this appears to be
17	McKesson's distribution centers?	17	referring to is how do we ensure
18	A. Yes.	18	that the product is not only in
19	MR. HYKAN: Object to form.	19	the Depot, but also out in the
20	BY MS. SCULLION:	20	in the forward DCs in order to
21	Q. And you then go on to say,	21	service the pharmacies that will
22	"This will be a topic for her at next	22	be receiving prescriptions from a
23	week's HDMA meeting."	23	doctor for Opana.
24	Do you see that?	24	Again, national account
	20 904 500 1140.		rigani, national account
	Page 111		Page 113
1	A. Yes.	1	executives are focused on
2	Q. And by that, did you mean	2	stocking. So that's what this is
3	that this is an area she was going to be	3	referring to.
4	prepared to discuss with McKesson at the	4	BY MS. SCULLION:
5	HDMA meeting?	5	Q. And just to make sure I
6	A. It appears that way, yes.	6	understand, forward DCs are distribution
7	Q. Okay. Do you have any	7	centers that are were McKesson had
8	understanding of why you were looking to	8	around the country that its hub sent
9	keep up the pressure to increase stocking	9	materials out to, right?
10	at McKesson's forward DCs as of	10	A. Correct.
11	March 2007, stocking of Opana?	11	Q. Okay. Terrific. Okay. And
12	MS. VANNI: Object to form.	12	then
13	THE WITNESS: I don't have	13	MS. SCULLION: Can I have
13	THE WITHLESS. I don't have		
14	any specific knowledge. McKesson	14	Tab 60, please.
14	any specific knowledge. McKesson	14	Tab 60, please.

	D 110		D 100
	Page 118		Page 120
1	Q. Okay.	1	point here says, "Our industry is among
2	A. It's a it's a brand.	2	the most heavily regulated in the U.S.,
3	It's the brand trade association for	3	and what happens in Washington matters a
4 .	the brand PhRMA industry.	4	lot."
5	Q. Okay. Then do you recall	5	Do you see that?
6	any discussions at Endo about whether	6	A. Yes.
7	Endo should be a member of PhRMA when you	7	Q. And then the next bullet
8	were there?	8	point under that says, "Having access to
9	A. Yes, I do.	9	the knowledge and influence of PhRMA can
10	Q. So let's look at that. If	10	support us to sustaining and growing the
11	you'll turn to page 12 of	11	business."
12	A. Can I just offer one	12	Did I read that correctly?
13	additional comment?	13	A. Yes.
14	Q. Sure.	14	Q. And was that, what's written
15	A. I sat in meetings where	15	there, was that generally a topic that
16	PhRMA was discussed. I wasn't involved	16	was discussed at Endo when you were
17	in the decision or any representation of	17	there?
18	whether Endo should join PhRMA or not. I	18	MS. VANNI: Object to form.
19	just want to be clear about that.	19	THE WITNESS: This PhRMA is
20	Q. You were in the meetings	20	the brand business.
21	though, where it was discussed?	21	BY MS. SCULLION:
22	A. Well, this meeting it was	22	Q. Right.
23	discussed. That's the point of this	23	A. Okay. So I'm not I
24	meeting obviously.	24	wasn't involved with PhRMA. So you can
	moving coviously.		wasiit iiivoivea wiiii i iiidvii i. So you ean
	Page 119		Page 121
1	Q. All right. And you think	1	ask me all the questions you want about
2	this was a meeting you would have	2	PhRMA, but, you know, I this is not my
3	attended?	3	area. This was directed from the brand
4	A. Well, it had GPhA, so I	4	people to the leadership of the company,
5	would have been there. If I remember	5	whether Endo should belong to PhRMA.
6	this meeting correctly, it was discussing	6	Q. Understood.
7	the the benefits belonging to a	7	A. Okay.
8	member. Endo had two businesses, the	8	Q. But just to just to make
9	brand business, generics business. Do I	9	sure though, do you recall discussions
10	belong should the brand business Endo	10	about Endo being interested in
11	belong to PhRMA to support its brand	11	potentially being a member of PhRMA,
12		12	because having access to the knowledge
⊥ <i>Z</i> .	Dusiness, and should it belong to GPDA TO		
	business, and should it belong to GPhA to support its generics business. So that's	l .	
13	support its generics business. So that's	13	and influence of PhRMA can support Endo
13 14	support its generics business. So that's what this is about.	13 14	and influence of PhRMA can support Endo in sustaining and growing the business?
13 14 15	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So	13 14 15	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it
13 14 15 16	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint.	13 14 15 16	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So
13 14 15 16 17	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand	13 14 15 16 17	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is
13 14 15 16 17 18	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.	13 14 15 16 17 18	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA
13 14 15 16 17 18 19	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.  A. Yep. Okay.	13 14 15 16 17 18 19	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA industry and their members in PhRMA.
13 14 15 16 17 18 19 20	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.  A. Yep. Okay.  Q. Make sure we are literally	13 14 15 16 17 18 19 20	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA industry and their members in PhRMA. That's what they do.
13 14 15 16 17 18 19 20 21	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.  A. Yep. Okay.  Q. Make sure we are literally on the same page. The top of the page	13 14 15 16 17 18 19 20 21	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA industry and their members in PhRMA. That's what they do.  Q. And and it does that, as
13 14 15 16 17 18 19 20 21 22	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.  A. Yep. Okay.  Q. Make sure we are literally on the same page. The top of the page says critical issues, right?	13 14 15 16 17 18 19 20 21 22	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA industry and their members in PhRMA. That's what they do.  Q. And and it does that, as this document indicates, in part, by
13 14 15 16 17 18 19 20 21 22 23	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.  A. Yep. Okay.  Q. Make sure we are literally on the same page. The top of the page says critical issues, right?  A. Yes.	13 14 15 16 17 18 19 20 21 22 23	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA industry and their members in PhRMA. That's what they do.  Q. And and it does that, as this document indicates, in part, by access to knowledge, correct?
13 14 15 16 17 18 19 20 21 22	support its generics business. So that's what this is about.  Q. Okay. Fair enough. So let's go to page 12 of the PowerPoint. If you look in the lower right-hand corner you'll see the page numbers.  A. Yep. Okay.  Q. Make sure we are literally on the same page. The top of the page says critical issues, right?	13 14 15 16 17 18 19 20 21 22	and influence of PhRMA can support Endo in sustaining and growing the business?  A. Well, I would have heard it at this meeting if it came up, yeah. So I mean it came up. PhRMA is is designed to support the brand PhRMA industry and their members in PhRMA. That's what they do.  Q. And and it does that, as this document indicates, in part, by

	Page 122		Page 124
1	I assume that's right.	1	They are involved in that's
2	Q. Okay.	2	what their members want from them.
3	A. Again, I'm not focused on	3	They are the trade association for
4 .	PhRMA. I don't know what they did or	4	the PhRMA brand business.
5	didn't do	5	BY MS. SCULLION:
6	Q. Sure.	6	Q. Okay. And and so as you
7	A directly because I	7	said, there could have been multiple
8	wouldn't have been involved in PhRMA.	8	reasons Endo was interested in
9	Q. And just to the extent that	9	potentially joining PhRMA, but one of
10	you do know, is it accurate that one of	10	those would have been PhRMA's work
11	the things that would be that Endo is	11	helping to turn around negative
12	interested in was the influence of PhRMA	12	perceptions of the industry, right?
13	supporting Endo in sustaining and growing	13	MS. VANNI: Object to form.
14	its business?	14	THE WITNESS: To the extent
15	MS. VANNI: Object to form.	15	they existed. I have no idea what
16	THE WITNESS: If they had	16	existed at the time, so
17	joined, if they had joined, yes.	17	BY MS. SCULLION:
18	BY MS. SCULLION:	18	Q. In terms of negative
19	Q. Okay. And then, on the	19	perceptions?
20	staying on the same page, next bullet	20	A. Yes.
21	point it says, "The industry is under	21	Q. Thank you. Got it.
22	fire by politicians and the press."	22	If you look then to Page 14
23	Did I read that correctly?	23	
24	A. Yes.	24	of the presentation. It's entitled at
24	A. 16s.	24	the top, What PhRMA Can Do For Endo.
	Page 123		Page 125
1	Q. And then it discusses in	1	
2	terms of PhRMA, "PhRMA is working on a	2	Do you see that? A. Yes.
3	series of initiatives to help turn around	3	
4	negative perceptions of the industry."	4	Q. As you were just
5	Do you see that?	1	referencing, the very first bullet point
	<u> </u>	5	here is, "Lobby important bills in
6 7	A. Yes.	6	Congress and state legislatures,"
•	Q. And and again,	7	correct?
8	understanding that it wasn't your	8	A. Yes. That's what they do.
9	particular focus, but were you aware that	9	Q. Okay. And then the next is,
10	Endo had an interest in potentially	10	"Present industry view to FDA" that's
11	joining PhRMA because of PhRMA's	11	the Food and Drug Administration,
12	initiatives to help turn around negative	12	correct?
13	perceptions of the industry?	13	A. Correct.
14	MS. VANNI: Object to form.	14	Q. "NIH" National Institute
15	THE WITNESS: If Endo was	15	of Health, correct?
16	going to join PhRMA, I don't think	16	A. Correct.
17	that was the sole reason. There	17	Q. CMS is?
18	would have been multiple reasons	18	A. Center for Medicare, I think
19	to have belong to PhRMA, as	19	Services. I think it's Center For I
20	PhRMA is effectively the lobbying	20	get lost in the alphabet.
21	organization for the brand PhRMA	21	Q. Okay.
22	industry. So any negative or	22	A. But I think that's what it
23	positive perceptions, whatever	23	is, Center For Medicare Services.
24	exist, PhRMA would be involved.	24	Q. Okay. And that's another
23	positive perceptions, whatever	23	is, Center For Medicare Services.

	Page 126		Page 128
1	again, to the extent of your	1	Q. So again on Page 17, we're
2	understanding, that's another thing that	2	talking about the Generic Pharmaceutical
3	PhRMA could do for a brand company like	3	Association. Do you see that?
4 .	Endo, right?	4	A. Yes. Yes.
5	MS. VANNI: Object to form.	5	Q. All right. And you said you
6	THE WITNESS: Well, it's not	6	are familiar with Generic Pharmaceutical
7	just for Endo. For any brand	7	Association, right?
8	pharmaceutical company.	8	A. Yes.
9	BY MS. SCULLION:	9	
10		10	Q. All right. And I apologize,
11	•	11	we may have I might have asked this
	A. Who was a member.		before, have you ever held any office,
12	Q. Okay.	12	official position within G Pharma?
13	A. Should they decide to join.	13	A. Yes, but not while at Endo.
14	Q. Understood.	14	Q. What position did you hold?
15	And the third bullet says,	15	A. I was on the board of
16	"Interact with professional associations	16	directors.
17	on key issues."	17	Q. And when was that? Is it
18	Do you see that?	18	is it in your probably on your CV?
19	A. Yes.	19	A. No, it's not on not on
20	Q. What are professional	20	there. I don't believe.
21	associations referred to here? What does	21	Q. Okay.
22	that mean?	22	A. I I'm going to say 2010
23	MS. VANNI: Object to form.	23	to 2012 or '13 some I don't know.
24	THE WITNESS: I don't I	24	It was two, two two, two-year terms if
	Page 127		Page 129
1	don't know what all the	1	I remember right.
2	don't know what all the professional associations would	2	I remember right. Q. And that was while you were
	don't know what all the	1	I remember right.
2	don't know what all the professional associations would	2	I remember right. Q. And that was while you were
2	don't know what all the professional associations would be. American Medical Association.	2 3 4 5	I remember right. Q. And that was while you were with with Kremers Urban?
2 3 4	don't know what all the professional associations would be. American Medical Association. People American whatever, okay.	2 3 4	I remember right. Q. And that was while you were with with Kremers Urban? A. Correct.
2 3 4 5	don't know what all the professional associations would be. American Medical Association. People American whatever, okay. So that that's what a that's	2 3 4 5	I remember right.  Q. And that was while you were with with Kremers Urban?  A. Correct.  Q. So you are pretty familiar
2 3 4 5 6	don't know what all the professional associations would be. American Medical Association. People American whatever, okay. So that that's what a that's whatever professional association is, that is involved in the	2 3 4 5 6	I remember right.  Q. And that was while you were with with Kremers Urban?  A. Correct.  Q. So you are pretty familiar with with the organization?  A. Yes.
2 3 4 5 6 7	don't know what all the professional associations would be. American Medical Association. People American whatever, okay. So that that's what a that's whatever professional association	2 3 4 5 6 7	I remember right.  Q. And that was while you were with with Kremers Urban?  A. Correct.  Q. So you are pretty familiar with with the organization?
2 3 4 5 6 7 8	don't know what all the professional associations would be. American Medical Association. People American whatever, okay. So that that's what a that's whatever professional association is, that is involved in the pharmaceutical healthcare	2 3 4 5 6 7 8	I remember right.  Q. And that was while you were with with Kremers Urban?  A. Correct. Q. So you are pretty familiar with with the organization?  A. Yes. Q. All right. And so the first bullet point here, it the first bullet
2 3 4 5 6 7 8 9	don't know what all the professional associations would be. American Medical Association. People American whatever, okay. So that that's what a that's whatever professional association is, that is involved in the pharmaceutical healthcare business.  BY MS. SCULLION:	2 3 4 5 6 7 8 9	I remember right.  Q. So you are pretty familiar with with the organization?  A. Yes. Q. All right. And so the first bullet point here, it the first bullet point here says, in terms of the mission of the Generic Pharmaceutical Association, "Promote the common interests of its members and the general welfare of the pharmaceutical industry."  Is that an accurate statement of one part of the Generic Pharmaceutical Association's mission?  MS. VANNI: Object to form.  THE WITNESS: Yes.  BY MS. SCULLION: Q. And when it says common interests of its members, that refers to

	Page 130		Page 132
1	would have?	1	Q. You did join? Okay. Thank
2	MS. VANNI: Object to form.	2	you.
3	THE WITNESS: It refers to	3	A. But not PhRMA, just for the
4 .	the common interests of making	4	record.
5	sure that the generic industry	5	Q. And then bulk supplier, that
6	voice was heard. The PhRMA voice	6	would be the suppliers of the API?
7	was much stronger because they had	7	A. That would be the supplier
8	more money. Their lobbying	8	of the API suppliers, yes.
9	efforts were much stronger. The	9	Q. Okay. And then on the
10	brand PhRMA companies were trying	10	associates that we have generic
11	to prevent brands from going	11	distributor. Is a generic distributor
12	generic.	12	just a distributor of generics?
13	So they were there was a	13	A. Yeah. That would be that
14	lot of lobbying with respect to	14	would be like an ANDA, there's a company
15	that, how to find loopholes in	15	that all they do is distribute you
16	Hatch-Waxman, which is the law	16	know, they don't they're a generic
17	that governs the generic	17	distributor. There may be others. I
18	pharmaceutical business in the	18	don't know. I'm not familiar with all of
19	United States.	19	them.
20	It had to do with FDA rules	20	Q. Is there a distinction
21	that were coming up to make sure	21	between a generic distributor and and
22	they're you know, understand	22	distributors in general. So for example,
23	them. These were all common	23	you mentioned ANDA. Is there a
24	interests that were, you know,	24	difference between ANDA and McKesson?
	Page 131		Page 133
1	every company shared on a broad	1	A. Yes.
2	basis. So and how do we get	2	Q. Okay. Can you explain what
3	our maggage out to the politicions		
	our message out to the politicians	3	that is?
4	who, you had a lot of a lot of	3 4	that is?  A. Well, the central difference
4 5			
	who, you had a lot of a lot of	4	A. Well, the central difference
5	who, you had a lot of a lot of money from lobbying by PhRMA. And	4 5	A. Well, the central difference is that a sole distributor cannot do
5 6 7 8	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business,	4 5 6	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there
5 6 7 8 9	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the	4 5 6 7 8 9	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you
5 6 7 8 9	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much	4 5 6 7 8 9	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I
5 6 7 8 9 10 11	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the	4 5 6 7 8 9 10 11	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I
5 6 7 8 9 10 11 12	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we	4 5 6 7 8 9 10 11 12	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.
5 6 7 8 9 10 11 12 13	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of	4 5 6 7 8 9 10 11 12 13	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand
5 6 7 8 9 10 11 12 13	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.	4 5 6 7 8 9 10 11 12 13 14	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic
5 6 7 8 9 10 11 12 13 14 15	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:	4 5 6 7 8 9 10 11 12 13 14 15	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic distributors, that refers to what you're
5 6 7 8 9 10 11 12 13 14 15 16	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:  Q. Got it. Let's go to the	4 5 6 7 8 9 10 11 12 13 14 15	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic distributors, that refers to what you're calling a sole distributor?
5 6 7 8 9 10 11 12 13 14 15 16 17	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:  Q. Got it. Let's go to the next page where it discusses the members.	4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic distributors, that refers to what you're calling a sole distributor?  A. Correct.
5 6 7 8 9 10 11 12 13 14 15 16 17	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:  Q. Got it. Let's go to the next page where it discusses the members.  A. Yep.	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic distributors, that refers to what you're calling a sole distributor?  A. Correct.  Q. And ANDA is one such example
5 6 7 8 9 10 11 12 13 14 15 16 17 18	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:  Q. Got it. Let's go to the next page where it discusses the members.  A. Yep.  Q. And it says the three types	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic distributors, that refers to what you're calling a sole distributor?  A. Correct.  Q. And ANDA is one such example of a sole distributor?
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:  Q. Got it. Let's go to the next page where it discusses the members.  A. Yep.  Q. And it says the three types of membership, the first being	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. So that's the effect I mean, that's the way I describe it. So, you know, there could be other differences, but, you know, that's the way I think of it. I could be wrong, but that's the way I think of it.  Q. And so if I understand correctly, when it says generic distributors, that refers to what you're calling a sole distributor?  A. Correct.  Q. And ANDA is one such example of a sole distributor?  A. At the time, yes.
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	who, you had a lot of a lot of money from lobbying by PhRMA. And because of their their size and their the money available compared to the generic business, which was much smaller, the generic association was much smaller, you know, what is the common interest of how we communicate the benefits of generics to the public.  BY MS. SCULLION:  Q. Got it. Let's go to the next page where it discusses the members.  A. Yep.  Q. And it says the three types of membership, the first being manufacturer. That would be a	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Well, the central difference is that a sole distributor cannot do chargebacks, and the wholesaler can. And so if I understand correctly, when it says generic distributors, that refers to what you're calling a sole distributor?  A. Correct.  Q. And ANDA is one such example of a sole distributor?  A. At the time, yes.  Q. All right. You also mentioned chargebacks. You have some

			1
	Page 134		Page 136
1	Q. All right. We'll talk about	1	key industry committees?
2	that a little bit later. I just want to	2	A. No.
3	make sure I understood that.	3	Q. And I think you explained
4 .	The next bullet point here	4	Endo did not become a member of the board
5	is CRO. What's a CRO?	5	of GPhArma (sic) while you were there?
6	A. Contract research	6	A. No.
7	organization.	7	Q. Okay. If you'll go to Page
8	Q. And what is that?	8	21 of the presentation. And that's
9	A. Somebody that would do	9	entitled, "Why is membership in both
10	pivotal pilot and pivotal biostudies.	10	organizations important?"
11	You know, I don't know I don't	11	Are we on the same page?
12	remember if they all exist anymore. But	12	A. Yep.
13	if you want to do a pilot biostudy or	13	Q. Terrific. And it says,
14	pivotal biostudy you have to go to	14	"Endo has both significant brand and
15	somebody who can do that work. And you	15	generic business."
16	would you would they are called	16	And that was true, correct?
17	contract research organizations.	17	A. Yes.
18	Q. Okay. Consultants I think	18	Q. It says, "Strategic vision
19	is self-explanatory. Pharm brokers is	19	is to expand both brands and generics,"
20	the last one. What is that?	20	correct?
21	A. Pharm broker would be	21	A. Correct.
22	somebody that tries to put two companies	22	Q. And as of April of 2004 when
23	together that has a need for you know,	23	this presentation was put together, that
24	you have a product of in a particular	24	was true, correct?
	Page 135		Page 137
1	therapeutic area, and I have a need for	1	A. Yes.
2	that product. They hear. They try to	2	Q. And why was membership in
3	put us together. So these were associate	3	GPhArma (sic), how did that many relate
4	members that they allowed to participate.	4	to this strategic vision to expand
5	Q. Okay. And then let's just	5	let's just take the generics business for
6	go to the next page, 19, which discusses	6	Endo?
7	privileges of full membership. You said	7	A. Who is GPhArma (sic)?
8	Endo did become a member of GPhArma	8	Q. I'm sorry, Generic
9	(sic). Did it become a full member?	9	Pharmaceutical Association?
10	A. Yes.	10	A. Okay. I'm sorry. Can you
11	Q. Okay. And so endo enjoyed	11	repeat the question?
12	the privileges listed here?	12	Q. Why was membership in the
13	MS. VANNI: Object to form.	13	Generic Pharmaceutical Association
14	THE WITNESS: Yes, if we	14	important, as it says here, to the
15	choose to take advantage.	15	strategic vision to expand the generic
16	Basically, my membership was going	16	business for Endo?
17	to the meetings, period, at that	17	A. In order to make sure that
18	point in time.	18	we were aware of all the different
19	BY MS. SCULLION:	19	activities affecting the generic industry
20	Q. Okay. First bullet point	20	as a whole. Not just in Endo, but, you
21	discusses participation in key industry	21	know, normally at a GPhA meeting, as I
22	committees affecting areas such as	22	said before, you had the FDA commissioner
23	regulatory and logistics.	23	come. You had the head of OGD, which is
24	Did Endo participate in any	24	the Office of Generic Drugs, come. You

	Page 138		Page 140
1	have had the secretary of HHS come. You	1	BY MS. SCULLION:
2	know, you had a lot of people that came	2	Q. Got it. Now, but as an
3	with information and made presentations.	3	organization, the Generic Pharmaceutical
4	So it was an informational	4	Association, was it also the idea that
5	kind of meeting. And that information,	5	the organization could effectively lobby
6	it was important to hear that firsthand.	6	the FDA and other government officials
7	And that's why you know, that's why it	7	with respect to the interests of the
8	was important to belong.	8	generic industry, some of which you just
9	Q. Did those meetings also give	9	described?
10	members the opportunity to interact with	10	MS. VANNI: Object to form.
11	some of the officials that you just	11	THE WITNESS: I disagree
12	described?	12	I disagree with the word
13	MS. VANNI: Object to form.	13	"lobbying." You don't
14	BY MS. SCULLION:	14	BY MS. SCULLION:
15	Q. To speak to them?	15	Q. How would you describe
16	A. Yeah. I mean, we could	16	A lobby the FDA.
17	shake their hand and talk to them if we	17	Q. Sure. How would you
18	wanted to.	18	A. You can
19	Q. Okay. Was that important to	19	Q describe it then?
20	helping Endo's strategic vision to expand	20	A. You can interact with the
21	the generic business?	21	FDA and ask them give them your point
22	MS. VANNI: Object to form.	22	of view. And they can either agree with
23	THE WITNESS: It was it	23	your point of view or say I completely,
24	wasn't that significant. You're	24	totally disagree. And then they tell you
	Page 139		D 1 41
	,		Page 141
1	not going to talk to the FDA	1	what to do. And basically you either do
2	not going to talk to the FDA commissioner for very long other	2	
2	not going to talk to the FDA commissioner for very long other than, "Hi, how are you." So, no,		what to do. And basically you either do it or you don't get your product approved.
2 3 4	not going to talk to the FDA commissioner for very long other than, "Hi, how are you." So, no, that was it was more to hear	2 3 4	what to do. And basically you either do it or you don't get your product approved.  Q. Okay. I wasn't speaking of
2 3 4 5	not going to talk to the FDA commissioner for very long other than, "Hi, how are you." So, no, that was it was more to hear what they had to say, what their	2 3 4 5	what to do. And basically you either do it or you don't get your product approved.  Q. Okay. I wasn't speaking of any particular product though. But was
2 3 4 5 6	not going to talk to the FDA commissioner for very long other than, "Hi, how are you." So, no, that was it was more to hear what they had to say, what their vision was about where the FDA was	2 3 4 5 6	what to do. And basically you either do it or you don't get your product approved.  Q. Okay. I wasn't speaking of any particular product though. But was one of the roles of the Generic
2 3 4 5 6 7	not going to talk to the FDA commissioner for very long other than, "Hi, how are you." So, no, that was it was more to hear what they had to say, what their	2 3 4 5 6 7	what to do. And basically you either do it or you don't get your product approved.  Q. Okay. I wasn't speaking of any particular product though. But was one of the roles of the Generic Pharmaceutical Association to interact
2 3 4 5 6 7 8	not going to talk to the FDA commissioner for very long other than, "Hi, how are you." So, no, that was it was more to hear what they had to say, what their vision was about where the FDA was going with respect to inspections and different things that they	2 3 4 5 6 7 8	what to do. And basically you either do it or you don't get your product approved.  Q. Okay. I wasn't speaking of any particular product though. I just want to focus in on the prescription opioids. Lidoderm was not an opioid, correct?

	Page 146		Page 148
1	opioid, we said, right?	1	They don't know if a generic
2	A. It was a brand opioid, yes.	2	exists or not. And they some
3	Q. Right. And there was also	3	patients say, hey, I don't want
4 .	Endocet, right?	4	the generic. So they don't know
5	A. Yes.	5	if exists or not, they write
6	Q. Was Endo already selling	6	"dispense as written," or "brand
7	Endocet when you joined?	7	medically necessary." You go into
8	A. Yes.	8	the pharmacy, and if a generic's
9	Q. Okay. And I just want to	9	available, unless that's written
10	make sure I understand, Endocet was a	10	at the bottom of the script by the
11	generic equivalent to the branded product	11	physician, you will automatically
12	Percocet, correct?	12	
13	A. Yes.	13	get, by law, in 47, 48 states, I
14		14	forget the exact number, you will
	Q. Were there other generic	15	get the generic.
15	equivalents to Percocet on the market at	1	So the Percocet brand
16	the same time as Endocet, that were sold	16 17	business was going to decline and
17	by other companies other than Endo?	1	it was going to be replaced, the
18	A. Yes.	18	volume of Percocet was going to
19	Q. Why did Endo have both	19	convert, if you look at it as a
20	Percocet and Endocet, why was it selling	20	flavor of a pie, the Percocet
21	a generic version of its own product?	21	flavor was going to convert to the
22	MS. VANNI: Object to form.	22	generic flavor. Okay. So the pie
23	THE WITNESS: Well, the	23	stays the same, but the flavor
24	reason is that there was a generic	24	changes.
	Page 147		Page 149
			3
1	competitor. And they had a	1	So rather than see their
1 2	competitor. And they had a generic business. So you can	1 2	_
2	generic business. So you can		So rather than see their brand business reduced and
2 3	generic business. So you can either let the money all go to	2 3	So rather than see their brand business reduced and declined before my time, they
2 3 4	generic business. So you can either let the money all go to your competitor and or you can	2 3 4	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic,
2 3 4 5	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.	2 3 4 5	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand
2 3 4	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it	2 3 4	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated.
2 3 4 5 6 7	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be	2 3 4 5 6 7	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were
2 3 4 5 6 7 8	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand	2 3 4 5 6 7 8	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic
2 3 4 5 6 7 8	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you	2 3 4 5 6 7 8 9	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial
2 3 4 5 6 7 8 9	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So	2 3 4 5 6 7 8 9	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for
2 3 4 5 6 7 8 9 10	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a	2 3 4 5 6 7 8 9 10	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.
2 3 4 5 6 7 8 9 10 11 12	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet,	2 3 4 5 6 7 8 9 10 11 12	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:
2 3 4 5 6 7 8 9 10 11 12 13	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to	2 3 4 5 6 7 8 9 10 11 12 13	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to
2 3 4 5 6 7 8 9 10 11 12 13 14	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.	2 3 4 5 6 7 8 9 10 11 12 13 14	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically
2 3 4 5 6 7 8 9 10 11 12 13 14 15	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion	2 3 4 5 6 7 8 9 10 11 12 13 14 15	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent.  Q. Thank you.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional rules. So when you walk into a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent.  Q. Thank you.  And so if I understand
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional rules. So when you walk into a pharmacy, unless the doctor writes	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent. Q. Thank you.  And so if I understand correctly, by having both Endocet and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional rules. So when you walk into a pharmacy, unless the doctor writes "dispense as written" or "brand	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent. Q. Thank you.  And so if I understand correctly, by having both Endocet and Percocet available, Endo was hedging
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional rules. So when you walk into a pharmacy, unless the doctor writes "dispense as written" or "brand medically necessary," if the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent.  Q. Thank you.  And so if I understand correctly, by having both Endocet and Percocet available, Endo was hedging against the decline in its branded
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional rules. So when you walk into a pharmacy, unless the doctor writes "dispense as written" or "brand medically necessary," if the generic is available, you are	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	So rather than see their brand business reduced and declined before my time, they they launched the Endocet generic, which was the same as the brand Percocet by it was AB-rated. And as a result of that, they were able to participate in the generic market and minimize the financial impact of the loss of revenue for brand Percocet.  BY MS. SCULLION:  Q. Okay. And AB-rated, just to make it clear, means pharmaceutically equivalent batch?  A. Yes. Bioequivalent.  Q. Thank you.  And so if I understand correctly, by having both Endocet and Percocet available, Endo was hedging against the decline in its branded Percocet share of the market and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	generic business. So you can either let the money all go to your competitor and or you can participate in the generic market.  The brand business, once it goes generic, is going to be converted. So the brand doesn't there's not two you know, I call it a pie. Okay. So once there's once there is a generic competitor to Percocet, Percocet sales are going to decline.  And normally the erosion factor 47, 48 states have automatic generic substitutional rules. So when you walk into a pharmacy, unless the doctor writes "dispense as written" or "brand medically necessary," if the generic is available, you are going to get the generic.         BY MS. SCULLION:
                                                                   A. They have nothing to do with
                                                               price. They have nothing to do with
 7
            O. Fair enough. Okay. So it
                                                        7
 8
        wouldn't -- it wouldn't have as much of a
                                                        8
                                                               anything but stocking, period. That's
                                                        9
 9
                                                               why 9 -- maybe that's 5, 8 percent of
        decline in its overall sales of an
        oxycodone APAP product, because some
                                                       10
                                                               their time is involved with the brand on
10
        would now be Endocet instead of Percocet?
                                                       11
                                                               stocking.
11
                                                       12
12
            A. Right.
                                                                       Once the brand is stocked.
13
            Q. Okay. And you explained
                                                       13
                                                               basically it's just maintenance. Okay.
14
        that there were other generic versions of
                                                       14
                                                               On the generic side it's more
        Percocet on the market at the same time
                                                       15
                                                               complicated. So I think to answer your
15
                                                               question, how we competed was we had to
        as Endocet. Was there any advantage to
                                                       16
16
        Endo in having the trademarked name
                                                       17
                                                               have a competitive price. We had to
17
        Endocet for its generic version?
                                                               supply, do all the -- you know, the -- do
18
                                                       18
19
            A. No, none at all. That was
                                                       19
                                                               all the necessary customer service things
20
        done before I got there.
                                                       20
                                                               from supply, interaction with the
21
            Q. Okay. And so in terms of
                                                       21
                                                               account. And that's what the national
22
        competing with the other generic versions
                                                       22
                                                               account executives would do.
23
        of Percocet that were on the market, how
                                                       23
                                                                       Normally in the big

                MS. VANNI: Object to the
                                                               And so Endo was perceived when I got
                                                        8
                                                               there as a smaller generic company,
 8
            form.
                                                        9
                                                               basically a little niche player focused
 9
                THE WITNESS: What do you
10
            mean by how -- compete? How do
                                                       10
                                                               in at that time in -- mostly in control
            you mean? I'm sorry, I don't
                                                       11
                                                               drugs. Over time we tried to change that
11
            understand.
                                                       12
                                                               before I left where we tried to expand
12
                                                       13
                                                               the vision for Endo and get involved in
13
        BY MS. SCULLION:
14
            Q. Sure. That's okay. I think
                                                       14
                                                               other non-opioid drugs. But at the time,
                                                       15
                                                               that was how Endo was perceived, and we
15
        you explained earlier that there -- the
                                                       16
                                                               were able to compete because we supplied
16
        national account executives interacted
        with the wholesalers or the trade to get
                                                       17
                                                               product. We had good customer service.
17
                                                               We interacted well with -- with the
18
        the product stocked. Did Endo -- did
                                                       18
                                                       19
                                                               customer. We were responsive. All those
19
        Endo's national account executives
                                                       20
                                                               things that you need to do to get

                                                                   wherever -- it could be an
        generic version of Percocet or it would
                                                        9
                                                                   independent pharmacy.
 9
                                                       10
                                                               BY MS. SCULLION:
10
        just choose one?
            A. Well, McKesson -- any
                                                                   O. Let's start with one of the
11
                                                       11
        wholesaler is going to carry multiple
12
                                                      12
                                                               chains.
13
        labels. What's in -- what they are
                                                      13
                                                                   A. Okay. So --
                                                                   Q. CVS.
14
        carrying in -- in their DCs is normally
                                                       14
        in response to the contracts that are
                                                      15
                                                                   A. CVS. Takes it to a CVS.
15
16
        loaded for that product for a respective
                                                      16
                                                               CVS fills that product. Okay. They --
                                                      17
17
                                                               normally in the pharmacies they have a
        account.
18
                So there's -- you know,
                                                      18
                                                               safe or a secure drawer for controlled
        we -- on the opioid market, you had -- we
                                                               drugs, whether it's opioid -- if it's a
19
                                                      19
        had customers who we shipped to,
                                                       20
                                                               C-II -- not all C-II are opioids. They
20
21
        DA-approved facilities --
                                                       21
                                                               have it in what's called a safe or a C-II
22
            Q. DEA?
                                                       22
                                                               drawer that's under lock and key.
23
            A. Yeah, they're all -- you
                                                      23
                                                                       And if you ripple that
2.4
                                                       2.4
                                                               effect, then because they don't have a
        can't --
                                      Page 155
                                                                                             Page 157
            Q. I just --
                                                        1
                                                               vault, they then have a designated,
 1
            A. I'm sorry, DEA-approved
 2
                                                        2
                                                               what's called -- the official name is
 3
        facilities, licensed facilities. And
                                                        3
                                                               prime vendor or wholesaler that they have
                                                        4
                                                               a contract loaded with to supply that
 4
        then we also went to the customer's
                                                        5
                                                               particular pharmacy.
 5
        customer, which were the chains and
                                                                       So, then that wholesaler has
 6
        customers that did not have a vault.
                                                        6
                                                        7
 7
                So in the case -- in the
                                                               those products in the DC, and they ship
                                                        8
                                                               the product to the chain or to the
 8
        case of McKesson, they -- I have no idea
 9
        how many labels they carried of the same
                                                        9
                                                               pharmacy direct.
10
                                                      10
                                                                   Q. Can we -- let's -- let's
        product, but we were not the only label
        they carried in the warehouse. Might
                                                      11
                                                               stick with CVS, okay. So if CVS, if a
11
12
        have been great if they had been, but
                                                      12
                                                               CVS pharmacy was going to fill a
                                                      13
                                                               prescription with a generic version of
13
        that's not the way they work. Not -- or
14
        in fairness, for the record, neither does
                                                      14
                                                               Percocet.
                                                      15
                                                                   A. Yes.
15
        Cardinal or AmerisourceBergen.
                                                      16
                                                                   Q. Would that -- would the CVS
16
            Q. Okay. What determined
                                                      17
17
        ultimately whether a prescription for
                                                               pharmacy have only one generic version of
        oxycodone APAP got filled with -- if it
                                                      18
                                                               Percocet on hand to -- to fill that
18
                                                      19
        got filled with a generic, whether it got
                                                               prescription?
19
                                                      20
20
        filled with Endocet versus another
                                                                      MS. VANNI: Object to form.
21
        generic version? That's what I'm trying
                                                      21
                                                                       THE WITNESS: Yes.
                                                      22
                                                               BY MS. SCULLION:

Yes. Q. The next page is Page 10. A. Yes. Q. And looking at the top of

		1	
	Page 162		Page 164
1	Do you see that?	1	of the list, you see oxycodone ER and you
2	A. Yes.	2	see in terms of active ingredients there
3	Q. And I thought this would be	3	it lists oxycodone?
4 .	a useful place to remind us of what Endo	4	A. Yes.
5	was selling. Now, this is as of fiscal	5	Q. And again, at the time of
6	year 2004, granted. But we see second	6	this 10-K, it lists as being approved
7	from the top, Percocet, right?	7	subject to ongoing litigation.
8	A. Yes.	8	Do you see that?
9	Q. And again, that's it says	9	A. Yes.
10	oxycodone/acetaminophen, right?	10	Q. And that refers to Endo's,
11	A. Yes.	11	at this time, proposed sorry at
12	Q. Next one is Percodan, and	12	this time approved but not yet launched
13	that's oxycodone/aspirin, right?	13	generic version of OxyContin, right?
14	A. Yes.	14	A. Yes.
15		15	
16	` ; ;	16	Q. And I just want to draw your attention to the active ingredients for
17	more, we see Endocet, and there we see oxycodone/acetaminophen again, right?	17	Percocet and for the oxycodone ER. They
18		18	
	A. Yes.	1	both contain oxycodone, correct?
19	Q. Next one is morphine sulfate	19	A. Yes.
20	ER?	20	Q. But the oxycodone ER is pure
21	A. Yes.	21	oxycodone, not a mixture with
22	Q. You see that? And that's	22	acetaminophen or aspirin, right?
23	morphine sulfate, right?	23	MS. VANNI: Object to form.
24	A. Yes.	24	THE WITNESS: It's not a
-	_		
1	Q. And that's an	1	combination drug.
2	extended-release version?	2	BY MS. SCULLION:
3	A. Yes.	3	Q. Okay. If you will go to the
4	Q. Do you recall that's the	4	next page of Exhibit is it 7? Is that
5	generic equivalent to Purdue's MS Contin?	5	right? Sorry, I didn't write down
6	A. Yes.	6	numbers.
7	Q. All right. Next is we	7	If you go to the next page
8	see oxymorphone ER. Do you see and it	8	of Exhibit 7, you see at the top, a
9	says oxymorphone hydrochloride. Now, as	9	discussion of Percocet. And Endo states
10	of the date of this 10-K, it says it only	10	here, "We consider Percocet to be a gold
11	had an approvable letter.	11	standard of pain management."
12	Do you see that?	12	Do you see that?
13	A. Yes.	13	A. Yes.
14	Q. And the next one is	14	Q. And that was true, right?
15	oxymorphone IR. And again, only has an	15	That was a true statement?
16	approvable letter at this time.	16	MS. VANNI: Object to form.
17	Do you see that?	17	THE WITNESS: I can only
18	A. Yes.	18	testify to that Percocet was
19	Q. Do you recall those are the	19	widely used, even by dentists. If
20	products that became Opana ER and Opana?	20	you have a toothache and they give
21	MS. VANNI: Object to form.	21	you a Percocet, it's probably
22	THE WITNESS: Yes.	22	5/325. So does that mean it's a
23	BY MS. SCULLION:	23	gold standard? I don't know how
24	Q. Okay. Going down to the end	24	they define gold standard.
24	Q. Okay. Going down to the cha	4	they define gold standard.

	Page 166		Page 168
1	I wasn't there when they	1	may be substituted with a generic version
2	wrote this, or if I was, I wasn't	2	at the pharmacy, right?
3	involved in it.	3	A. By law, it has to be
4 .	BY MS. SCULLION:	4	substituted.
5	Q. Okay. No dispute. That's	5	Q. In the states that you
6	how Endo described Percocet in its 10-K	6	referred to?
7	filed with the SEC?	7	A. Well, 47 or 48 out of 50,
8	A. That's how Endo described	8	unless the brand writes "brand
9	it, yeah.	9	medically necessary" or "dispense is
10	· ·	10	written."
11	Q. Right. And it goes on, just to remind ourselves of the history,	11	Q. Okay. And the reference
12	explains that Endocet I'm sorry	12	here to IMS national prescription audit,
13		13	you also referred to IMS earlier today.
14	Percocet was launched in 1976, correct?	14	
15	A. That's what it says.	15	Can you explain what IMS was?  A. IMS was I don't know what
16	Q. And that was approved for the treatment of moderate to moderately	16	
17		17	the letters stand for anymore. But basically they were they gathered data
18	severe pain, right? A. Yes.	18	from stores, prescription data, and
19		19	
20	Q. And then it explains that	20	which was units, they could break it down
21	Percocet has faced generic competition	21	into down to extended-release, or they
22	for nearly 20 years. Do you see and	22	could break it down into tablets and
	that was right? That was accurate,		capsules, you know, if you have to.
23	correct?	23	Q. I think you've lost your
24	MS. VANNI: Object to form.	24	microphone. There you go.

Did I read that correctly?	2 3 4 5 6 7 8	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when
2 3 4 5 6 7 8 9	THE WITNESS: I assume. BY MS. SCULLION: Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet."	2 3 4 5 6 7 8 9	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?
2 3 4 5 6 7 8 9	THE WITNESS: I assume.  BY MS. SCULLION: Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet." Did I read that correctly?	2 3 4 5 6 7 8 9	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy
2 3 4 5 6 7 8 9 10	THE WITNESS: I assume.  BY MS. SCULLION: Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet." Did I read that correctly? A. Yes.	2 3 4 5 6 7 8 9 10	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical
2 3 4 5 6 7 8 9 10 11 12	THE WITNESS: I assume.  BY MS. SCULLION:  Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet."  Did I read that correctly?  A. Yes. Q. Okay. So what Endo is	2 3 4 5 6 7 8 9 10 11 12	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical companies buy the data.
2 3 4 5 6 7 8 9 10 11 12 13	THE WITNESS: I assume.  BY MS. SCULLION:  Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet."  Did I read that correctly?  A. Yes.  Q. Okay. So what Endo is saying is that nearly 20 years into	2 3 4 5 6 7 8 9 10 11 12 13	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical companies buy the data.  Q. I'm sorry. I think you said
2 3 4 5 6 7 8 9 10 11 12 13 14	THE WITNESS: I assume.  BY MS. SCULLION:  Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet."  Did I read that correctly?  A. Yes.  Q. Okay. So what Endo is saying is that nearly 20 years into generic competition, doctors are still	2 3 4 5 6 7 8 9 10 11 12 13 14	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical companies buy the data.  Q. I'm sorry. I think you said IMS. You meant to say Endo contracted to
2 3 4 5 6 7 8 9 10 11 12 13 14 15	THE WITNESS: I assume.  BY MS. SCULLION: Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet." Did I read that correctly? A. Yes. Q. Okay. So what Endo is saying is that nearly 20 years into generic competition, doctors are still writing it as Percocet brand name in	2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical companies buy the data.  Q. I'm sorry. I think you said IMS. You meant to say Endo contracted to buy
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	THE WITNESS: I assume. BY MS. SCULLION: Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet." Did I read that correctly? A. Yes. Q. Okay. So what Endo is saying is that nearly 20 years into generic competition, doctors are still writing it as Percocet brand name in large part, right?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical companies buy the data.  Q. I'm sorry. I think you said IMS. You meant to say Endo contracted to buy  A. Well, contracted is maybe
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	THE WITNESS: I assume. BY MS. SCULLION: Q. Okay. Then it says, "In 2004, according to the IMS national prescription audit, approximately 17.9 million new prescriptions for this combination of oxycodone HCl and acetaminophen were written for the brand name Percocet." Did I read that correctly? A. Yes. Q. Okay. So what Endo is saying is that nearly 20 years into generic competition, doctors are still writing it as Percocet brand name in large part, right? MS. VANNI: Object to form.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. They can break it down into tablets and capsules if they had to. And that data became, you know, widely used by both the brand and the pharmaceutical industry to understand how their product was doing with respect to sales and demand.  Q. Did you use IMS data when you were with Endo?  A. IMS (sic) contracted to buy IMS data. You buy the pharmaceutical companies buy the data.  Q. I'm sorry. I think you said IMS. You meant to say Endo contracted to buy  A. Well, contracted is maybe not the right Endo purchased IMS data.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	THE WITNESS: I assume. BY MS. SCULLION: Q. Okay. 8	· · ·		presentation from Endo in April 2004,
8	of that market was \$5.6 billion, right?	8	presentation from Endo in April 2004, what is identified on this page as large
9	of that market was \$5.6 billion, right? A. Yes. For the U.S.	8 9	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this
	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that	8	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription
9 10 11	of that market was \$5.6 billion, right? A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an	8 9 10	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?
9 10	of that market was \$5.6 billion, right? A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?	8 9 10 11	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about
9 10 11 12 13	of that market was \$5.6 billion, right?  A. Yes. For the U.S.  Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.	8 9 10 11 12 13	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about
9 10 11 12 13 14	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form. THE WITNESS: Yeah. It	8 9 10 11 12 13 14	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so
9 10 11 12 13 14 15	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.  THE WITNESS: Yeah. It could be, yeah.	8 9 10 11 12 13 14 15	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so  Q. Fair enough.
9 10 11 12 13 14	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.  THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION:	8 9 10 11 12 13 14	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so  Q. Fair enough. A. The way I think of
9 10 11 12 13 14 15 16 17	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.  THE WITNESS: Yeah. It could be, yeah.  BY MS. SCULLION: Q. Yeah. And it says right	8 9 10 11 12 13 14 15 16 17	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so Q. Fair enough. A. The way I think of attractiveness is profitability, not
9 10 11 12 13 14 15 16 17 18	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form. THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION: Q. Yeah. And it says right above the pie chart, do you see	8 9 10 11 12 13 14 15 16 17 18	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so  Q. Fair enough.  A. The way I think of attractiveness is profitability, not not what the overall size of the market
9 10 11 12 13 14 15 16 17 18	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.  THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION: Q. Yeah. And it says right above the pie chart, do you see five-year the five-year CAGR?	8 9 10 11 12 13 14 15 16 17 18	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so  Q. Fair enough.  A. The way I think of attractiveness is profitability, not not what the overall size of the market is.
9 10 11 12 13 14 15 16 17 18 19 20	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.  THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION: Q. Yeah. And it says right above the pie chart, do you see five-year the five-year CAGR? A. Yes.	8 9 10 11 12 13 14 15 16 17 18 19 20	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so  Q. Fair enough.  A. The way I think of attractiveness is profitability, not not what the overall size of the market is.  Q. Okay. So but Endo
9 10 11 12 13 14 15 16 17 18 19 20 21	of that market was \$5.6 billion, right?  A. Yes. For the U.S.  Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form.  THE WITNESS: Yeah. It could be, yeah.  BY MS. SCULLION:  Q. Yeah. And it says right above the pie chart, do you see five-year the five-year CAGR?  A. Yes.  Q. And that's compounded annual	8 9 10 11 12 13 14 15 16 17 18 19 20 21	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so Q. Fair enough. A. The way I think of attractiveness is profitability, not not what the overall size of the market is.  Q. Okay. So but Endo identified the overall size of the market
9 10 11 12 13 14 15 16 17 18 19 20 21 22	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form. THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION: Q. Yeah. And it says right above the pie chart, do you see five-year the five-year CAGR? A. Yes. Q. And that's compounded annual growth rate, CAGR, right?	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so Q. Fair enough. A. The way I think of attractiveness is profitability, not not what the overall size of the market is.  Q. Okay. So but Endo identified the overall size of the market as one aspect of what made the pain
9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form. THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION: Q. Yeah. And it says right above the pie chart, do you see five-year the five-year CAGR? A. Yes. Q. And that's compounded annual growth rate, CAGR, right? A. Yes.	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so  Q. Fair enough.  A. The way I think of attractiveness is profitability, not not what the overall size of the market is.  Q. Okay. So but Endo identified the overall size of the market as one aspect of what made the pain market a large and attractive
9 10 11 12 13 14 15 16 17 18 19 20 21 22	of that market was \$5.6 billion, right?  A. Yes. For the U.S. Q. Right. So that was that was also an attractive that made an attractive opportunity, correct?  MS. VANNI: Object to form. THE WITNESS: Yeah. It could be, yeah. BY MS. SCULLION: Q. Yeah. And it says right above the pie chart, do you see five-year the five-year CAGR? A. Yes. Q. And that's compounded annual growth rate, CAGR, right?	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	presentation from Endo in April 2004, what is identified on this page as large and attractive opportunity is this \$16.5 billion U.S. pain prescription pain market, right?  A. Well, this talks about revenue. It doesn't talk about profitability, so Q. Fair enough. A. The way I think of attractiveness is profitability, not not what the overall size of the market is.  Q. Okay. So but Endo identified the overall size of the market as one aspect of what made the pain

	Page 182		Page 184
1	A. According to what I see	1	sitting in meetings. It had nothing to
2	here	2	do with the generic business.
3	Q. Yeah.	3	Q. Okay. But you were but
4 .	A Endo took data that was	4	you were familiar with the lifecycle
5	published at the time in 11/03 at the	5	management strategy from meetings, right?
6	bottom of the slide, it says, "Data is	6	A. Yes.
7	through MAT 11/03," and the source is	7	Q. Okay. And can you just
8	IMS. But IM this is IMS data that	8	explain just generally what a lifecycle
9	they showed. It doesn't talk about	9	management strategy means?
10	profitability.	10	A. In general terms it's how
11	Q. Right. So regardless of	11	it has nothing to do with opioids or
12	profitability, what's identified here on	12	non-opioids. It has to do with extending
13	the page entitled a large and attractive	13	the life of the brand.
14	opportunity, is just the overall revenue	14	Q. And with respect to
15	and the CAGRs, right?	15	Percocet, on Page 19, let's go to
16	A. I think it's a large	16	Page 19. Just on the left-hand side, it
17		17	starts off with the column for fourth
18	potential opportunity, but I don't know	18	
	if it's attractive or not. It would	19	quarter 1999, showing I'm not sure if
19	depend on the profitability of the	1	they are TRx's well, the the column
20	product.	20	refers to Percocet 5-milligram, correct?
21	Q. Okay. Let's go to Page 18.	21	In the do you see the key at the
22	The same exhibit. And you see it's	22	bottom of the chart?
23	discussing the Percocet franchise?	23	A. Yes. The dark blue is
24	A. Yep.	24	Percocet 5-milligram, right.
	Page 183		Page 185

13
                                                     13
                                                                  side that would mean promotion.
        clear to me.
14
            Q. Yeah. Let me -- let me see
                                                     14
                                                                  But there didn't seem to be much
15
        if I can walk you through it then.
                                                     15
                                                                  of a demand for it because it.
                So we have the variants
16
                                                     16
                                                                  didn't provide much relief.
17
        being launched, right, in, it looks like
                                                     17
                                                              BY MS. SCULLION:
18
        O2 2000, correct?
                                                     18
                                                                  O. Okav.
19
            A. I don't know when they were
                                                     19
                                                                       But that's just my
                                                                  A.
20
                                                     20
        launched. I started in May of 2003.
                                                              recollection. I know it was not there --
21
            Q. Please look at -- if you
                                                     21
                                                              I don't recall it being there when I
2.2
        look on the chart in the circle it says
                                                     22
                                                              started. Somehow I recall it coming
23
        the 7.5/500, 10/650, and 2.5/325 launch,
                                                     23
                                                              after I started.
24
        and it points to Q2 2000, right?
                                                     24
                                                                  Q. Okay.
                                     Page 187
                                                                                           Page 189
                                                                  A. That's why I said I don't --
 1
            A. I don't know if that -- just
                                                       1
 2
        because the circle is there, I don't -- I
                                                       2
                                                              I can't testify to what's in that circle
 3
        don't take that necessarily as fact of
                                                       3
                                                              is accurate, because it's not my
 4
        launch. Because my recollection is
                                                       4
                                                              recollection.
                                                       5
 5
        seeing this, the 2.5 launch later when I
                                                                  Q. Okay. And I think as you
 6
        was there. So I don't know that I can
                                                       6
                                                              explained though, when you -- when you
                                                              joined, Endo was also selling Endocet,
 7
        testify that it launched when it shows
                                                       7
                                                       8
 8
                                                              correct?
        here.
 9
                                                       9
            Q. Okay. But then, as you
                                                                  A. Yes.
        were -- I think you were explaining
                                                     10
                                                                  Q. Was there -- was there
10
        though, Percocet, as new variants were
                                                              any -- any competition between -- in your

                                                        1
 1
        strategy. Do you see that?
                                                                  Q. -- as having a high barrier
 2
                                                        2
            A. Yes.
                                                              to entry?
 3
            Q. It explains there was a
                                                        3
                                                                  A. And it's also more cost --
        selective focus. The first area of focus
 4
                                                        4
                                                              it's more costly to manufacture, and that
        was niche therapeutic areas, correct?
                                                        5
 5
                                                              was the reason that I mentioned earlier
 6
            A. Yes.
                                                        6
                                                              about the profitability is important,
 7
            Q. Next it says, "Difficult to
                                                        7
                                                              what makes the product significant, as
 8
        develop generics."
                                                       8
                                                              the manufacture of C-II is much more
 9
                                                        9
                Do you see that?
                                                              difficult than manufacturing a
                                                      10
10
            A. Yes.
                                                              noncontrolled drug.
                                                                      So opioids are a controlled
11
            Q. And was that accurate that
                                                      11
                                                              drug. So it's much more difficult.
12
        Endo was focused on difficult to develop
                                                      12
                                                      13
                                                              There are certain -- DEA has very, very,
13
        generics?
14
                MS. VANNI: Object to form.
                                                      14
                                                              very strict rules involving opioid
                THE WITNESS: That was part
                                                      15
15
                                                              products.
            of what I recommended as a

                                                                       THE WITNESS: Other
 2
        also recommending that Endo focus on
                                                        2
                                                                   manufacturers, mostly foreign
 3
        generics where there were certain
                                                        3
                                                                   manufacturers, specifically from
 4
        barriers to entry?
                                                        4
                                                                   India or in the immediate release
                                                                   product, the prices are depressed
 5
                MS. VANNI: Object to form.
                                                        5
 6
                THE WITNESS: Well,
                                                        6
                                                                   because there may be eight, nine,
 7
            difficult to do generics, that is
                                                        7
                                                                   ten players for a particular
            the barrier. They're
 8
                                                        8
                                                                   product. So the product doesn't
            scientifically more difficult to
                                                        9
 9
                                                                   have much value.
10
            do and, therefore, they have
                                                      10
                                                                       Plus the companies in India
            greater financial viability.
                                                                   are vertically integrated. So
11
                                                      11
        BY MS. SCULLION:

A. Or controlled drugs.	1	(Document marked for
		identification as Exhibit
		Endo-Stevenson-9.)
		BY MS. SCULLION:
		Q. I'm going to hand you what's
		been marked as Exhibit Number 9.
		MS. VANNI: Thank you.
C		MS. SCULLION: Sure.
		BY MS. SCULLION:
		Q. And Exhibit Number 9 is
		Bates-stamped ENDO-OPIOID_MDL-03571186.
		Do you recognize Exhibit Number 9,
		Mr. Stevenson?
•		A. How do you define recognize?
		Q. Let's try this. Do you see
		that at the top of Exhibit Number 9 is an
		e-mail from yourself to David Kerr again?
		A. Yes.
		Q. Okay. And this is in
		January of 2007, right?
•		A. Yes.
		Q. And by this point, I think
•		you explained, you had taken on the
		additional responsibilities with respect
controlled substances, the	24	additional responsibilities with respect
Page 199		Page 201
extended-release products were harder to	1	to the trade group; is that right?
	2	A. Yes.
A. They are more variable.	3	Q. Okay. And this e-mail
	4	concerns Percocet price increase
	5	effective February 1st, 2007; is that
	6	right?
the opportunity for a greater profit	7	A. Apparently, yes.
margin than a commodity opioid, for	8	Q. Okay. If we can put that
example?	9	aside for the moment.
MS. VANNI: Object to form.	10	MS. SCULLION: Tab 61.
THE WITNESS: Well, assuming	11	BY MS. SCULLION:
you can attain your share target	12	Q. Mr. Stevenson I'm sorry.
in the large accounts and	13	Were you reading something?
there's no guarantee of that	14	A. No, not really.
BY MS. SCULLION:	15	Q. Okay. If you are reading
Q. Right.	16	anything, I'm going to need to ask you
A. Then it was it was a	17	what you're reading
higher it would be a higher	18	A. Okay. No, I wasn't reading
profitability on average than a commodity	19	anything.
product.	20	Q because I need to know
Q. Okay. I want to come back	21	what you're looking at while we're in
Q. Okay. I want to come outer		
to Percocet.	22	
	22 23	looking while we're in the deposition.  A. I wasn't reading anything.
	Q. Okay. They wanted to limit the number of A. That was the feeling. I don't know if they ever had a stated, you know, policy or anything like that. But that was kind of the feeling. Q. Okay. And what was your understanding about why why that feeling is just A. I that was just the way it was. I don't know that I had a feeling. Q. Okay. Did you understand why the DEA maybe would have wanted to restrict the number of manufacturers of controlled substances? MS. VANNI: Object to form. THE WITNESS: I don't know why. I don't know why. I don't know why. BY MS. SCULLION: Q. But in terms of the barriers to entry. You also said just within controlled substances, the  Page 199  extended-release products were harder to make, right? A. They are more variable. Q. Okay. And you said that that those entail greater costs. Did they also, though, provide, in your view, the opportunity for a greater profit margin than a commodity opioid, for example?  MS. VANNI: Object to form. THE WITNESS: Well, assuming you can attain your share target in the large accounts and there's no guarantee of that BY MS. SCULLION: Q. Right. A. Then it was it was a higher it would be a higher profitability on average than a commodity	Q. Okay. They wanted to limit the number of A. That was the feeling. I don't know if they ever had a stated, you know, policy or anything like that. But that was kind of the feeling. Q. Okay. And what was your understanding about why why that feeling is just A. I that was just the way it was. I don't know that I had a feeling. Q. Okay. Did you understand why the DEA maybe would have wanted to restrict the number of manufacturers of controlled substances? MS. VANNI: Object to form. THE WITNESS: I don't know why. I don't know why. BY MS. SCULLION: Q. But in terms of the barriers to entry. You also said just within controlled substances, the  Page 199  extended-release products were harder to make, right? A. They are more variable. Q. Okay. And you said that that those entail greater costs. Did they also, though, provide, in your view, the opportunity for a greater profit margin than a commodity opioid, for example?  MS. VANNI: Object to form. THE WITNESS: Well, assuming you can attain your share target in the large accounts and there's no guarantee of that BY MS. SCULLION: Q. Right. A. Then it was it was a higher it would be a higher profitability on average than a commodity

1	As I said earlier there's a	1	know, it again, it's up to the
2	pie there's a brand flavor that	2	physician. It all starts with the
3	converts. Part of that pie converts over	3	DEA-licensed physician.
4 .	time to the well, converts immediately	4	Q. Right. Now, but safe to
5	to the generic flavor. The amount it	5	say, though, that Endo thought it was
6	converts increases over time.	6	worth its while to invest money in hiring
7	Q. So the as you say, the	7	sales reps, right?
8	brand, and the brand promotion, creates	8	MS. VANNI: Object to form.
9	the pie, correct?	9	THE WITNESS: Yes.
10	MS. VANNI: Object to form.	10	BY MS. SCULLION:
11	Misstates his testimony.	11	Q. Endo hired sales reps,
12	THE WITNESS: The brand	12	right?
13	promotion creates the pie based on	13	A. Yes, they hired sales reps.
14	the doctor writing the	14	Q. And hundreds of them, right?
15	prescription.	15	A. I don't know how many they
16	BY MS. SCULLION:	16	had exactly.
17	Q. Right.	17	Q. Okay. They had sales reps
18	A. It all starts with the	18	around the country, right?
19	doctor.	19	A. Correct.
20	Q. Well, if the if Endo is	20	Q. And it paid those sales reps
21	not promoting the product though, would	21	to go and visit the doctors, right?
22	doctors be writing as as many	22	A. Yes. They got their message
23	prescriptions as they were?	23	out that they had the product to meet
24	MS. VANNI: Object to form.	24	pain management requirements. That's
			F
	Page 215		Page 217
1	THE WITNESS: I have no	1	correct.
2	idea.	2	Q. Right. And again, safe to
3	BY MS. SCULLION:	3	say Endo thought it was worth its while
4	Q. Okay. In your experience,	4	in creating promotional materials for its
5	when a when a brand stops promoting a	5	branded products, right?
6	product, do your prescription levels	6	MS. VANNI: Object to form.
7	change?	7	THE WITNESS: Based on the
8	A. They can, yeah.	8	label that the FDA approved, yes.
9	Q. What's what's been your	9	BY MS. SCULLION:
10	experience with that?	10	Q. But it spent money creating
11	A. Mixed. Sometimes the	11	materials beyond just the label, right?
12	product I've seen products like	12	It didn't just hand the doctors the
13	Prilosec, which is for GERD, even though	13	labels. It created brochures, right?
14	promotion has stopped a long time ago, it	14	A. Yes, they did, yeah.
15	rises for a variety of factors. Doctors	15	Q. Right.
16	recommend that over other more newer	16	A. They had marketing brochures
17	medicines. It's hard to quantify what	17	that was based on
18	happens on every product in the United	18	Q. Okay.
19	States.	19	A the FDA-approved label,
20	I've seen as I said, I've	20	yes.
21 22	seen products that have long since	21 22	Q. And fair to say Endo thought
23	stopped promotion increase because	22	it was worth it's while creating speaker
24	doctors, many in some cases prefer older products to newer products. You	24	programs using doctors, right?  MS. VANNI: Object to form.
	Oraci products to hewer products. Tou		IVID. VAININI. OUJOU IU IUIII.

1 2 3 4 5 6 7 8 9 10 11 B	THE WITNESS: Well, I don't know all the again, that was the brand business. I don't know all the programs that they had at the time, because that was not my focus. I couldn't I couldn't resuscitate or I'm sorry, reconstruct all of the programs that they might have had doing brand marketing.	1 2 3 4 5 6 7 8	BY MS. SCULLION:  Q. And then I think as you were explaining then, when the product is genericized because of loss of patent exclusivity, the generic can come in and, I think you said, change some of the flavor or parts of the pie to generic?
2 3 4 5 6 7 8 9 10 11 B	know all the again, that was the brand business. I don't know all the programs that they had at the time, because that was not my focus. 10 11 B		1 4	in layman's terms
11 B	Diand marketing.	9	Q. Yes.
	Y MS. SCULLION:	11	A how it works.
12		12	
	Q. But safe to say Endo Endo	13	Q. Right.
	pent money on sales and promotion of		A. We don't double the pie.
	's branded product, correct?	14	Okay. The pie stays the same. As a
15	MS. VANNI: Object to form.	15	matter of fact, the DEA controls the size
16	THE WITNESS: Yes, they did.	16	of the pie. Endo doesn't control the
	Y MS. SCULLION:	17	size of the pie. It all depends, on a
18	Q. Okay. And in doing so,	18	control drug it has to deal with quota.
	enerated, as you say, the prescriptions	19	Whatever the DEA awards on quota is what
	ritten by doctors, right?	20	you can sell. And you can't sell one
21	MS. VANNI: Object to form.	21	milligram more than whatever the DEA's
22	THE WITNESS: Based on their	22	quota allows you to sell. So that's why
23	promotional material, the doctors	23	you have to be very careful of what you
24	felt that the product that Endo	24	ship and make sure that it's within
	Page 219		Page 221
1	was selling was meeting a pain	1	demand, because if for some reason
2	management need of the patient.	2	somebody bought your quota would be
3	That's what doctors do. They	3	exhausted. And once your quota is
4	write prescription that meets the	4	exhausted for the year, unless somebody
5	need, the medical need of the	5	loses business, unless you can justify to
6	patient. If they're in pain,	6	the DEA why you need more quota, they
7	they pain management product is	7	won't give it to you.
8	what's required for pain. That's	8	They are not going to say,
9	up to the doctor what they write.	9	"Oh, gee whiz, Endo. Yeah, we feel sorry
	BY MS. SCULLION:	10	for you. We're going to give you more
11	Q. And I'm sorry.	11	quota." This is your quota for the year.
12	A. So that's up to the	12	This is what you can sell for that year.
	hysician. They write the prescription.	13	Every year, you have to go back and ask
14 P	Q. And the results of that are	14	for more quota.
	neasured, as you said, by looking at the	15	Q. Understood. Were you
	umber of the prescription levels,	16	involved in Endo efforts to secure DEA
	ight?	17	quota for its controlled products?
18	A. That's yes, you can look	18	A. How do you define
	t TRx's and new Rx's, yes.	19	"involved"?
19 a		20	Q. At all?
		21	
F	romotion results in a pie that consists	22	
22 0	f a level of TRx's, right?	23	going to the FDA. I was involved in the
23	A. Correct.  MS. VANINI: Object to form	23	discussions about quota, when we could

        just said -- I didn't want to over -- we
                                                       2
                                                              ingredient, the active pharmaceutical
 3
        didn't want to take on business for
                                                       3
                                                              ingredient, right?
 4
                                                       4
        whatever reason. And so we're talking
                                                                  A. Yes.
                                                       5
 5
        about the generic side. If somebody
                                                                  O. That can be used. And that
 6
                                                       6
        couldn't supply -- and let's suppose an
                                                              is the actual opioid molecule, right?
 7
        account we didn't have, a large account
                                                       7
                                                                  A. Yes.
 8
        came to us, their volumes are fairly
                                                       8
                                                                  Q. And then all throughout the
 9
                                                       9
        large, depends what -- that kind of
                                                              chain from manufacturer to distribution
10
        product would not be, for lack of a
                                                     10
                                                              through -- all the way out to delivery to
11
        better phrase, just hanging around, you
                                                     11
                                                              the pharmacy, it's strictly controlled,
12
        know, doing nothing.
                                                     12
                                                              right?
13
                                                     13
                So at the end of the day, we
                                                                      MS. VANNI: Object to form.
14
        would have to, we have to stay within the
                                                     14
                                                                      THE WITNESS: Yes.
15
        quota. So if somebody said we want to
                                                     15
                                                              BY MS. SCULLION:
        switch to you and we were taking it from
                                                     16
16
                                                                  Q. And that's for good reason,
                                                     17
17
        competitor A, at that point in time we
                                                              right? Because these are opioids that
18
        would have to go to the DEA and say,
                                                     18
                                                              are inherently risky products, right?
        "Competitor A is losing its business.
                                                                      MS. VANNI: Object to form.
19
                                                     19
        It's coming to us." And then we would
20
                                                     20
                                                                      THE WITNESS: All control
21
        have to ask for an increase in quota.
                                                     21
                                                                  drugs are inherently risky
2.2
                Until we got an increase in
                                                     22
                                                                  products, yes.
23
        quota, we could not take that business
                                                     23
                                                              BY MS. SCULLION:
24
        on, because it would drain our quota
                                                     24
                                                                  Q. Okay. And opioids in
                                     Page 223
                                                                                           Page 225
        down, and then our existing customers, we
 1
                                                       1
                                                              particular, you're aware had inherent
 2
        would be out of product.
                                                       2
                                                              risks of addiction, right?
 3
                So it would negatively
                                                       3
                                                                     MS. VANNI: Object to form.
        impact our entire business if we were to
 4
                                                       4
                                                                     THE WITNESS: I don't know
 5
                                                       5
        do that.
                                                                  how you define inherent risks. So
 6
                This was -- the quota issue
                                                       6
                                                                  I -- that --
        was something -- you can't -- if you --
 7
                                                       7
                                                              BY MS. SCULLION:
 8
        if you violate the DEA regulations they
                                                       8
                                                                  Q. What was your understanding
 9
        can shut you down. So we were very, as
                                                       9
                                                              of what the risks were for opioids that
10
        anybody selling control drugs -- and post
                                                     10
                                                              led them to be categorized as Schedule II
        my -- post my Endo experience, we sold
11
                                                     11
                                                              drugs?
12
        control drugs. You make sure that you
                                                     12
                                                                  A. If somebody chose to misuse
        are in absolute compliance with the DEA.
13
                                                     13
                                                              them and not follow direction on that
14
        because they can shut your whole
                                                     14
                                                              they were given by their physician or the
15
        operation down in a matter of minutes if
                                                     15
                                                              direction that was indicated on a -- on a
16
        they have to.
                                                     16
                                                              bottle received at the pharmacy, then if
17
            Q. And that's particularly
                                                     17
                                                              they chose to abuse that product, then
18
        important for the opioid category of
                                                     18
                                                              that could be -- or any control drug
        controlled substances, right?
19
                                                     19
                                                              that's abused. Could be methylplenidate
                                                     20
            A. It's important in any
                                                              extended-release, which is used for
20
21
                                                              attention deficit. You can misuse that,
        category involving controlled substances.
                                                     21
22
            O. And the point of the
                                                     22
                                                              iust like vou can misuse acetaminophen
2.3
        controlled substance is that it's a
                                                     23
                                                              today. If you take too much
24
        closed system, as you say, right? The
                                                     24
                                                              acetaminophen, you can have liver

2 3 4 5 6 7 8 9 10	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs,	2 3 4 5 6 7 8 9 10	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you
2 3 4 5 6 7 8 9 10 11 12	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs, opioids, he would have been	2 3 4 5 6 7 8 9 10 11 12	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance.
2 3 4 5 6 7 8 9 10 11 12 13	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs,	2 3 4 5 6 7 8 9 10 11 12 13	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance. If you misuse that chemical substance,
2 3 4 5 6 7 8 9 10 11 12 13 14	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs, opioids, he would have been screaming in pain for the last two weeks.	2 3 4 5 6 7 8 9 10 11 12 13 14	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance. If you misuse that chemical substance, whether it's an opioid or non-opioid, you
2 3 4 5 6 7 8 9 10 11 12 13 14 15	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs, opioids, he would have been screaming in pain for the last two weeks.  So it's not correct to imply	2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance. If you misuse that chemical substance, whether it's an opioid or non-opioid, you can have an adverse event that will not
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs, opioids, he would have been screaming in pain for the last two weeks.  So it's not correct to imply that everybody that sold opioid	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance. If you misuse that chemical substance, whether it's an opioid or non-opioid, you can have an adverse event that will not result in a good outcome.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs, opioids, he would have been screaming in pain for the last two weeks.  So it's not correct to imply that everybody that sold opioid drugs was somehow selling them to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance. If you misuse that chemical substance, whether it's an opioid or non-opioid, you can have an adverse event that will not result in a good outcome.  Q. All right. Understood.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. If he'd have had that pain 51 years ago, he'd have been screaming in pain for two weeks.  Those kind of people like my dad who was on morphine for two weeks because he had incurable cancer, without those C-IIs, opioids, he would have been screaming in pain for the last two weeks.  So it's not correct to imply that everybody that sold opioid drugs was somehow selling them to addicts. We sold them to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. Yeah. And my my point is and you know, I don't mean to be argumentive. So please forgive me if it comes across. There's a risk of every drug sold in the United States of America. If you watch any consumer ad, you see all the caveats at the end. That's for a reason.  And some of them actually say, including death.  Q. Right.  A. So there's a risk. If you misuse a drug is a chemical substance. If you misuse that chemical substance, whether it's an opioid or non-opioid, you can have an adverse event that will not result in a good outcome.  Q. All right. Understood.  MS. VANNI: Whenever you are
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	implication is. There are many people in this country that need pain management.  My dad died for two weeks with cancer pain. He took morphine. VANNI: Whenever you are at a logical stopping place, I think lunch is here. We've been

	Page 234		Page 236
1	place to stop.	1	which is again easier to find if you see
2	MS. VANNI: Yeah? You're	2	the left hand page, it'd be Page 12, and
3	sure?	3	the next one is 13.
4 .	MS. SCULLION: Yeah.	4	A. Yes. Mm-hmm.
5	THE VIDEOGRAPHER: Off the	5	Q. And at the top, it says,
6	record, 12:15.	6	"Table of contents." In the middle of
7		7	the page, do you see it says "oxycodone"
8	(Lunch break.)	8	in italics?
9		9	A. Yes.
10	THE VIDEOGRAPHER: We are	10	Q. Oxycodone ER, I should say.
11	back on the record at 1 o'clock.	11	A. Yes.
12		12	Q. Okay. And in here it says,
13	EXAMINATION	13	"We've also developed an extended-release
14		14	oxycodone, an AB-rated generic version of
15	BY MS. SCULLION:	15	OxyContin, a product of the Purdue
16	Q. Welcome back, Mr. Stevenson.	16	Frederick company, according to IMS
17	You understand that you're still under	17	retail provider prospective data,
18	oath?	18	OxyContin generated U.S. sales of
19	A. I do.	19	approximately \$1.8 billion in 2004."
20	Q. Good. Thank you. I want to	20	Did I read that correctly?
21	focus now on the generic oxycodone	21	A. Yes. \$1.8 billion in 2004.
22	extended-release product, generic	22	Yes.
23 24	OxyContin.	23 24	Q. Okay. And Purdue claimed
24	A. Okay.	24	that it had patents that covered the
	Page 235		Page 237
1	Q. Do you recall that product?	1	covered OxyContin, right?
1 2	<ul><li>Q. Do you recall that product?</li><li>A. Yes.</li></ul>	1 2	covered OxyContin, right? A. Yeah.
		I	A. Yeah.
2	A. Yes.	2	<ul><li>A. Yeah.</li><li>Q. And as part of its generic</li></ul>
2 3	<ul><li>A. Yes.</li><li>Q. Okay. And that was a</li></ul>	2 3	A. Yeah.
2 3 4	A. Yes. Q. Okay. And that was a product that you had responsibility for,	2 3 4	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form.
2 3 4 5	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a	2 3 4 5	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right?
2 3 4 5 6 7 8	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had	2 3 4 5 6 7 8	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic
2 3 4 5 6 7 8	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. 2 3 4 5 6 7 8 9 10 11 12 13 14	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone	2 3 4 5 6 7 8 9 10 11 12 13 14	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact,
2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about	2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific a number from almost 15 years ago, no.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to actually challenge Purdue's patents,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific a number from almost 15 years ago, no. Q. Okay. I actually should say	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to actually challenge Purdue's patents, right?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific a number from almost 15 years ago, no. Q. Okay. I actually should say at 1.8 billion. If you look quickly back	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to actually challenge Purdue's patents, right? A. Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific a number from almost 15 years ago, no. Q. Okay. I actually should say at 1.8 billion. If you look quickly back at Exhibit 7.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to actually challenge Purdue's patents, right? A. Yes. Q. It had to submit what's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific a number from almost 15 years ago, no. Q. Okay. I actually should say at 1.8 billion. If you look quickly back at Exhibit 7. A. Okay.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes.  BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to actually challenge Purdue's patents, right?  A. Yes. Q. It had to submit what's called a Paragraph IV challenge to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Yes. Q. Okay. And that was a product that you had responsibility for, correct? A. Yes. Q. Okay. And OxyContin was a product that Purdue originally had developed and sold, correct? A. It was yeah, it was a brand product that was marketed by Purdue Pharma. Q. Okay. Do you recall that in 2004, the market for the oxycodone extended-release product was about \$1.9 billion? A. I don't recall that specific a number from almost 15 years ago, no. Q. Okay. I actually should say at 1.8 billion. If you look quickly back at Exhibit 7. A. Okay. Q. Exhibit 7, again this is the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Yeah. Q. And as part of its generic strategy, Endo decided to try to get a part of the OxyContin market, right? MS. VANNI: Object to form. THE WITNESS: It tried it it wanted to have a generic version of OxyContin to participate in that market by converting the brand to the generic, yes. BY MS. SCULLION: Q. Okay. And and, in fact, in order to do so, Endo had to do more than just develop its own oxycodone extended-release product. It had to actually challenge Purdue's patents, right? A. Yes. Q. It had to submit what's called a Paragraph IV challenge to produce patents, right?

1	at expanding our business beyond the	1	MS. VANNI: Object to form.
2	the C-II products or controlled drugs	2	THE WITNESS: Not
3	products that we had, the opioid products	3	necessarily.
4 .	we had.	4	You know, they my
5	So it it reinforced the	5	experience has been that those
6	image or story that generic that Endo	6	people that are expecting approval
7	was was there for the long-term.	7	start agitating pretty quickly
8	Because we would be able to have a	8	after the exclusivity period
9	significant product get through the FDA	9	begins to make sure that people
10	approval process, and get through the	10	know they are coming in a couple
11	legal gauntlet, only enhanced Endo's	11	months.
12	image with the trade that, you know,	12	Number 2, you can't possibly
13	they they are a longer term player.	13	supply everybody when you have
14	Q. Okay. You mentioned that	14	more competition, because all
15	one of the potential values for	15	you're going to do is destroy your
16	exclusivity would be the opportunity to	16	profitability. They have nowhere
17	charge a higher price than if there were	17	to go but just to take the price
18	multiple generic competitors, correct?	18	down. So at that point in time it
19	A. Yes.	19	becomes a market share game, how
20		20	much market share do you want. Or
21	Q. Okay. Did the possibility of not having multiple generic	21	more how much how much do
22	0 1 0	22	
	competitors, was that also an advantage	1	you want, and then how much do you
23	in terms of getting the exclusive	23	actually get. It may not be the
24	arrangements with the retail pharmacies	24	same thing.
70	Page 243		Page 245
1	we talked about earlier.	1	So there's it doesn't
2	MS. VANNI: Object to form.	2	follow that because you were
3	THE WITNESS: I'm not sure I	3	exclusive for some period of time,

1 Er	ndo was challenging Purdue's patents and	1	Okay? Thank you.
	oking to participate in the oxycodone	2	(Document marked for
	tended-release market, there was	3	identification as Exhibit
	bstantial information concerning abuse	4	Endo-Stevenson-12.)
	OxyContin, correct?	5	BY MS. SCULLION:
6	MS. VANNI: Object to form.	6	Q. Let me show you what's been
7	THE WITNESS: I think I	7	marked as Exhibit 12.
8	would categorize it as abuse of	8	A. Are we done with the 10-K?
9	the use of a particular drug.	9	Q. For the moment, yeah.
10	Perhaps, you know, there was stuff	10	A. Okay.
11	in the press about abuse of the	11	•
12	use of the drug.	12	
	Y MS. SCULLION:	13	record, is Bates-stamped
13 <b>B</b>			ENDO-OPIOID_MDL-03256655.
	Q. Okay. Well, putting aside	14	Mr. Stevenson, do you see
	e press and there were a number of	15	that Exhibit 12 states on its cover
	ports, correct, around abuse of	16	that's a December 2003 GAO report and
	xyContin?	17	entitled Prescription Drugs, OxyContin
18	A. Abuse of the use of it, yes.	18	Abuse and Diversion and Efforts to
19	Q. Abuse of the use, right,	19	Address the Problem?
	cluding in Pennsylvania and the	20	A. Yes.
	iladelphia area, right?	21	Q. If you could just skim over
22	MS. VANNI: Object to form.	22	it just to tell me if you have any
23	THE WITNESS: I have no idea	23	recollection of ever having read the
24	where they are.	24	report or any part of it?
	Page 247		Page 249
1 BY	MS. SCULLION:	1	A. No, I've never seen it
2	Q. Okay.	2	before.
3	A. I mean it wasn't something	3	Q. Did you ever hear anyone
	t I followed, to be honest. It was	4	discuss the GAO report?
	mething, you might have read about it,	5	A. No.
	s, okay, heard about in the news or	6	Q. Let's let's go to Page 9
	atever. But it wasn't something that I	7	of the report. If you'll look on the
****	lly focused on to be honest.	8	bottom of the page, you'll see the page
9	Q. So then in addition to the	9	numbers.
	dia reports that you say you weren't	10	A. Oh, 9. Okay.
	king at, you are aware though that the	11	Q. Yeah.
	AO, the United States General Accounting	12	A. I thought you were going to
	fice, did issue a report in	13	test my Roman numeral skills.
	cember 2003 concerning OxyContin abuse	14	•
	diversion?	15	Q. I'm sure you would do better
15 and		16	than me. We already saw my math skills
	MS. VANNI: Object to form.		are not great.
17 18	THE WITNESS: No, I'm not	17	A. Okay. Page 9.
1 10	aware of that.	18	Q. You got it. And, again, to
	MS. SCULLION: Q. You are not familiar at all	19	make sure we're on the same page, in the
19 BY	U You are not tamiliar at all	20	middle of that page is a paragraph that
19 BY	= -		
19 BY 20 21 wit	th the GAO issuing this report?	21	begins "OxyContin sales and prescriptions
19 BY 20 21 wit 22	th the GAO issuing this report?  A. No.	21 22	begins "OxyContin sales and prescriptions grew rapidly."
19 BY 20 21 wit 22 23	th the GAO issuing this report?  A. No.  MS. SCULLION: Let me just	21 22 23	begins "OxyContin sales and prescriptions grew rapidly."  Are we on the same page?
19 BY 20 21 wit 22	th the GAO issuing this report?  A. No.	21 22	begins "OxyContin sales and prescriptions grew rapidly."

	Page 250		Page 252
1	Q. Okay. So the sentence there	1	you recall in terms of what you were
2	says, "OxyContin sales and prescriptions	2	referring to as media reports of abuse of
3	grew rapidly following its market	3	the use of OxyContin?
4 .	introduction in 1996."	4	A. I don't remember the year.
5	And a little further down in	5	But, you know, I just remember media
6	the paragraph states, "In both 2001 and	6	reports. When it occurred, I don't know
7	2002, oxy sales exceeded \$1 billion and	7	when I first picked up on it.
8	prescriptions were over 7 million."	8	
9	Do you see that?	9	Q. Okay. And it goes onto explain that, "These media" "These
10	A. I see that's what it says,	10	reports first appeared in rural areas of
11		11	some states, generally in the Appalachian
12	yes. Q. Is that consistent with	12	region." Do you see that?
13	your your general understanding of the	13	A. Yes.
14	growth of OxyContin during that time	14	Q. Do you recall that
15	period?	15	Appalachia in particular had a lot of
16	MS. VANNI: Object to form.	16	reports of OxyContin abuse abuse and
17	THE WITNESS: I I	17	diversion?
18	wouldn't have followed it that	18	MS. VANNI: Object to form.
19	way. We would have followed it	19	THE WITNESS: No, I don't
20	based on we would have modeled	20	recall that.
21	things off of tablets and capsules	21	BY MS. SCULLION:
22	and, you know, what the this is	22	Q. Okay. And then it says in
23	not first of all, I wasn't here	23	the next sentence, "Rural communities in
24	at the time. I was still at	24	Maine, Kentucky, Ohio, Pennsylvania,
24	at the time. I was still at	24	Manie, Kentucky, Onio, I emisyrvama,

You know, there was

	Page 258		Page 260
1	BY MS. SCULLION:	1	meeting agreed to, I remember, sometime
2	Q. Okay. Let's go down then to	2	in 2003 in order to for the DEA to
3	the next paragraph. Looking at the very	3	better understand what our intention was
4 .	last sentence of the next paragraph,	4	with oxycodone ER.
5	which states, "The most recent data	5	They didn't really
6	available from DEA show that as of	6	understand generics. Most people don't.
7	February 2002, the agency had verified	7	They don't understand how generic
8	146 deaths nationally involving OxyContin	8	conversion works. So it was a mutually
9	in 2000 and 2001."	9	agreed-upon meeting that we were thrilled
10		10	to have, and they were thrilled to have
11	Do you see that? A. Yes.	11	with us as well.
12		12	MS. SCULLION: Can I have
13	Q. And you have no reason to	13	Tab 1 and Tab 54, please.
	doubt the accuracy, again, of what GAO is	14	(Document marked for
14	reporting there, right?	15	`
15	A. No.	1	identification as Exhibit
16	MS. VANNI: Object to form.	16	Endo-Stevenson-13.)
17	THE WITNESS: No doubt. No	17	BY MS. SCULLION:
18	reason to doubt.	18	Q. Mr. Stevenson, I'm going to
19	BY MS. SCULLION:	19	hand you what's been marked as
20	Q. Before you joined Endo, had	20	Exhibit 13.
21	you ever had any of the products that	21	A. Okay.
22	you've been involved in, any of the	22	Q. And Exhibit 13 is
23	pharmaceutical products you had been	23	Bates-stamped ENDO-OPIOID_MDL-03002818.
24	involved in, had death rates of that	24	And, Mr. Stevenson, do you
	Page 259		Page 261
1	level, 146 deaths in two years?	1	recognize Exhibit 13 as a series of
2	MS. VANNI: Object to form.	2	e-mails in September of 2003 that
3	THE WITNESS: I have no	3	involved you as well as others at Endo?
4	idea.	4	A. Yes.
5	BY MS. SCULLION:	5	Q. Okay. Let's go to the last
6	Q. The same year that the GAO	6	page of Exhibit 13.
7	issued the report that we were just	7	A. Is that the back page?
8	looking at, Exhibit 12.	8	Q. It is. And this is the page
9	The DEA came to Endo and	9	at the very top, has an e-mail from Dan
10	expressed some concerns it had about	10	Carbery, dated September 5th, 2003,
11	Endo's potential launch of generic	11	6:35 p.m.
12	OxyContin, correct?	12	A. Yes.
13	MS. VANNI: Object to form.	13	Q. Okay. And it's addressed to
	<i>3</i>		yourself and to MaryAlice Raudenbush,
14	THE WITNESS: When? I'm	14	yourself and to main without that the
		1	
14	THE WITNESS: When? I'm sorry. When was this? BY MS. SCULLION:	15	correct?
14 15 16	sorry. When was this? BY MS. SCULLION:	15 16	correct? A. Yes.
14 15 16 17	sorry. When was this? BY MS. SCULLION: Q. The same year, 2003.	15 16 17	correct? A. Yes. Q. And who was Dan Carbery at
14 15 16 17 18	sorry. When was this? BY MS. SCULLION: Q. The same year, 2003. A. I'm not sure if the DEA came	15 16 17 18	correct? A. Yes. Q. And who was Dan Carbery at that time? What was his position?
14 15 16 17 18	sorry. When was this? BY MS. SCULLION: Q. The same year, 2003. A. I'm not sure if the DEA came to Endo. We weren't summoned or anything	15 16 17 18 19	correct? A. Yes. Q. And who was Dan Carbery at that time? What was his position? A. I think he was VP of
14 15 16 17 18 19 20	sorry. When was this? BY MS. SCULLION: Q. The same year, 2003. A. I'm not sure if the DEA came to Endo. We weren't summoned or anything like that. I think there was a what I	15 16 17 18 19 20	correct? A. Yes. Q. And who was Dan Carbery at that time? What was his position? A. I think he was VP of operations.
14 15 16 17 18 19 20 21	sorry. When was this? BY MS. SCULLION: Q. The same year, 2003. A. I'm not sure if the DEA came to Endo. We weren't summoned or anything like that.                                                         5
                                                              can testify, my understanding is that we
 5
        doing that. Jill Connell. Do you recall
        Ms. Connell's position?
                                                        6
 6
                                                              were not -- we were not summoned by the
            A. She worked for Dan Carbery.
 7
                                                        7
                                                              FDA.
 8
        I don't remember her exact title.
                                                        8
                                                                   Q.
                                                                      The DEA?
                                                        9
 9
            Q. Okay. And Sue Tolen, do you
                                                                   A. We were -- we were not
        remember who she was?
                                                      10
                                                              summoned by the FDA. My understanding
10
            A. No.
                                                      11
                                                              there was a conference call. During that
11
12
            Q. And the subject is "EN3218
                                                      12
                                                              conference call, they may have said, "Hey
                                                      13
                                                              can you guys -- you know, would you" --
13
        quota request and risk management
14
        questions."
                                                      14
                                                              you know, we wanted -- we were seeking
                                                      15
                                                              the opportunity to have a direct dialogue
15
                Do you see that?
            A. Yes.
                                                      16
                                                              with them.
16
                                                      17
17
            Q. And EN3218, that's -- that
                                                                      So his -- I can't speak for
        was Endo internal code number at the time
18
                                                      18
                                                              his choice of words. But I just want to
        for generic OxyContin, correct?
                                                      19
                                                              make clear for the record, we were not
19
20
                                                              summoned to go there.
            A. For oxycodone ER, yes.
                                                      20
21
            Q. Okay. And then in his
                                                      21
                                                                   Q. I'm not suggesting you were
22
        e-mail, the first sentence, Mr. Carbery
                                                      22
                                                              summoned.
        states, "Endo has been asked by the DEA
23

 2
        our 'marketing and risk management plan'
                                                        2
                                                              to meet. And as you said, in the next
 3
        for oxy ER."
                                                        3
                                                              sentence, he says -- it refers to a
                Do you see that?
                                                        4
                                                              teleconference that was held to clarify
 4
                                                        5
                                                              what the general questions are.
 5
            A. Yes.
 6
            Q. So as Mr. Carbery -- you
                                                        6
                                                                      So if I understand what he's
                                                        7
 7
        have no reason to doubt the accuracy of
                                                              saying, DEA asked for a meeting, and then
                                                        8
                                                              there was a teleconference to say, "Yeah,
 8
        what Mr. Carbery was stating in his
                                                        9
                                                              what would you like to talk about?"
 9
        e-mail, right?
                MS. VANNI: Object to form.
                                                      10
10
                                                              Right?
                THE WITNESS: Well, I
                                                                      MS. VANNI: Object to form.
11
                                                      11
            have -- I have no reason to doubt.
                                                      12
                                                                      THE WITNESS: My
12
                                                                   understanding is we were both
13
            But I need to point out that
                                                      13
            "marketing" is in quotation.
                                                      14
                                                                   seeking a meeting. I can't speak
14
                                                                   for how he phrased it. But we
15
            "Marketing and risk management
                                                      15
                                                                   were thrilled to have a meeting
16
            plan" is in quotations. So again,
                                                      16
            marketing for oxycodone ER is not
                                                                   with them. I mean, that's my
17
                                                      17
            traditional marketing used for the
18
                                                      18
                                                                   understanding.
                                                      19
            brand, just so -- for the record.
                                                                      MS. SCULLION: Counsel, if

It's the next paragraph, first sentence.  "However, they said we won't get quota approval until we meet with them."	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Well, whenever a generic comes into the marketplace, because 47 or 48 states have automatic substitution of the generic for the brand, it's referring to the rate of conversion from the brand product to generic product. So the brand product declines. The generic product, you know, takes some of that pie, as we talked about earlier. But the pie remains the same.  Q. Okay. And that rate at which the pie changes could be very quick, could be a little slower, right?  A. Normally on opioids is slower.  Q. And why is that?  A. You know, the anecdotal
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	any concerns or issues that they might have. To make sure their understanding was correct and not subject to somebody else's, you know, interpretation.  Q. Understood. So regardless of how the meeting came about A. Okay. Q Mr. Carbery goes on in his next sentence, if you'll take a look, to say that "they said we won't get quota approval until we meet with them."  Do you see that? It's the next paragraph, first sentence.  "However, they said we won't get quota approval until we meet with them."  A. Yeah, I see that.	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A.  1
        have pain is a fear factor, that if I go
                                                                    You don't just get quota.
 2
                                                         2
        to generic it won't work as well and then
                                                                         As I said earlier, you don't
 3
        I'm going to be in pain and I have to go
                                                         3
                                                                    walk into the FDA and say, oh, by
        through -- I have to get the physician to
 4
                                                         4
                                                                    the way. I'm launching a -- you
 5
        write a new script for the generic. And
                                                         5
                                                                    know, an opioid product -- or any
 6
        then, you know, it becomes more -- well,
                                                         6
                                                                    controlled drug for that matter.
 7
        some people used to call it the hassle
                                                         7
                                                                    Because they -- DEA regulates --
 8
                                                         8
                                                                    actually they regulate all
        factor.
                                                         9
 9
                You know, so the generic --
                                                                    pharmaceuticals, but quotas are
10
        like on Prozac, the conversion rate from
                                                       10
                                                                    established with control drugs.
        the brand Prozac to the generic
11
                                                       11
                                                                         So whether it's an opioid or
        fluoxetine? Very fast.
12
                                                       12
                                                                    another control drug, you have to
13
                                                       13
                                                                    get quota from the FDA in order to
            Q. Okay.
14
            A. And on MS Contin and other
                                                       14
                                                                    manufacture the product. If you
        opioids, it was a slower decline.
                                                       15
15
                                                                    exceed that quota in any calendar
        Eventually it erodes. But the rate of
                                                       16
                                                                    year, okay you're done, unless you
16
                                                       17
17
        erosion can be slower for opioids than
                                                                    can show that you gained business
18
        for non-opioids.
                                                       18
                                                                    from your competition. They lost
19
            Q. Okay. And so if I
                                                       19
                                                                    the business, you gained the
20
        understand this correctly, Endo at least
                                                       20
                                                                    business, they'll give you more
21
        initially was presenting to DEA Prozac as
                                                       21
                                                                    quota. But reluctantly. And
22
        a model of a conversion rate that might
                                                       22
                                                                    normally not as much as you want.
23
        apply to generic OxyContin, that's what
                                                       23
                                                                BY MS. SCULLION:
2.4
        this e-mail is indicating, right?
                                                       24
                                                                    Q. Okay. And so in -- in
                                      Page 271
                                                                                              Page 273
                                                               discussing the -- the quota for generic
 1
            A. It was showing them -- it
 2
        was implying that that could be the case,
                                                        2
                                                               oxycodone ER for Endo, DEA was
 3
                                                        3
                                                               questioning whether, in fact, the model
                                                        4
                                                               of a Prozac rapid conversion was maybe
 4
            Q. Right. And so that would
                                                        5
 5
        then be, as you said, a fairly rapid
                                                               overestimating the amount of demand you
                                                        6
 6
        conversion rate, correct?
                                                               might need, right?
                                                        7
 7
            A. Right. So the brand would
                                                                      MS. VANNI: Object to form.
                                                        8
                                                                      THE WITNESS: They were --
 8
        go away and be replaced by the generic.
            O. Right. And if it was a
                                                        9
                                                                   yeah, they -- they had looked at,
 9
10
        rapid conversion rate, that -- that would
                                                       10
                                                                   I think, at an MS Contin
        mean that the anticipated volume of sales
                                                       11
                                                                   conversion rate. It was -- it was
11
12
        for the generic version would be higher
                                                       12
                                                                   shorter, but the technology -- the
        than if there were a slower conversion
                                                       13
13
                                                                   technology today is light years
14
        rate?
                                                       14
                                                                   what it was then. And that was
1.5
            A. Yes.
                                                       15
                                                                   light years from what it was when
16
            Q. Okay. And -- okay.
                                                       16
                                                                   Oxy -- when MS ER was launched, MS
                                                       17
                                                                   Contin. The technology was
17
                And I think, as you said
        earlier, if the anticipated demand for an
                                                       18
                                                                   increasing all the time to convert
18
        opioid were -- the anticipated demand
                                                       19
                                                                   the brand to generic, so yes.
19
                                                       20
                                                               BY MS. SCULLION:
20
        impacts the -- the DEA quota.
21
                MS. VANNI: Object to form.
                                                       21
                                                                   Q. Okay. Understand. But
                THE WITNESS: In order to
                                                       22
                                                              that's -- that's what DEA was saying, was
22
2.3
            get quota you have to demonstrate
                                                       23
                                                               we're not sure that it will convert as
                                                       24
24
            to the DEA that you have business.
                                                               quickly as Prozac. And -- and then you

1	had a discussion, correct?	1	Pharmaceuticals' meeting with Drug
2	MS. VANNI: Object to form.	2	Enforcement Administration, September 30,
3	THE WITNESS: Yes.	3	2003, correct?
4	BY MS. SCULLION:	4	A. Yes.
5	Q. Okay.	5	Q. And then the next page, the
6	MS. SCULLION: Do we have	6	meeting overview?
7	Tab 54? Thank you.	7	A. Yes.
8	BY MS. SCULLION:	8	Q. As you indicated, it lists
9	Q. And you were part of those	9	yourself as well as Mr. Carbery,
10	discussions with the DEA, correct, not	10	Miss Connell, Mr. Barto, and Miss Tolen
11	the teleconference, but the subsequent	11	in the meeting overview, correct?
12	discussion?	12	A. Correct.
13	A. I was at the I was at the	13	Q. To the best of your
14	meeting with the DEA, yes.	14	recollection they all attended, right?
15	Q. Okay. Let me hand you	15	A. Yes.
16	are you okay?	16	Q. Okay. And then the next
17	A. Yeah, I'm fine.	17	page of the presentation begins with
18		18	slides. It looks like it indicated that
19	(Document marked for identification as Exhibit	19	you would present with respect to the
20		20	EN3218 marketing plan; is that right?
21	Endo-Stevenson-14.)	21	A. Yes.
	BY MS. SCULLION:	22	
22	Q. Let me hand you what's been	1	Q. Okay. And the first slide,
23	marked as Exhibit 14.	23 24	background generics versus brand. This
24	A. Having bifocals are not	24	generally talks about the concept of
	Page 275		Page 277
1	they're not everything that they're	1	of AB-rating that we discussed earlier,
2	cracked up to be.	2	correct?
3	Q. I have tried them, they did	3	A. Yes.
4	not work for me.	4	Q. All right. And going to the
5	So Exhibit 14 is	5	next slide. Again, discusses the concept
6	Bates-stamped ENDO-OPIOID_MDL-03005612.	6	you talked about before about
7	And, Mr. Stevenson, do you	7	substitution of an AB-rated product for
8	see that Exhibit 14 starts with an e-mail	8	the brand, correct?
9	from Sue Tolen to Dan Carbery, yourself,	9	A. Yes.
10	Bob Barto, and Jill Connell?	10	Q. And then the next the
11	A. Yes.	11	second bullet point says, "Endo customers
12	Q. Okay. And the subject	12	for generics are retailers and
13	matter here is final DEA presentation,	13	wholesalers and not physicians," correct?
1 4	right?	1 1 2	
14 15	right? A Yes	14	A. Yes, yes.
15	A. Yes.	15	Q. Okay. And that's the
15 16	<ul><li>A. Yes.</li><li>Q. And Miss Tolen indicates</li></ul>	15 16	Q. Okay. And that's the concept we talked about earlier, right,
15 16 17	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the	15 16 17	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to
15 16 17 18	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating	15 16 17 18	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales
15 16 17 18 19	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating corrections, correct?	15 16 17 18 19	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales effort directed by the national account
15 16 17 18 19 20	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating corrections, correct? A. Yes.	15 16 17 18 19 20	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales effort directed by the national account executives to the retailers and
15 16 17 18 19 20 21	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating corrections, correct? A. Yes. Q. All right. So then let's	15 16 17 18 19 20 21	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales effort directed by the national account executives to the retailers and wholesalers, correct?
15 16 17 18 19 20 21 22	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating corrections, correct? A. Yes. Q. All right. So then let's turn to the document itself, which is	15 16 17 18 19 20 21 22	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales effort directed by the national account executives to the retailers and wholesalers, correct?  MS. VANNI: Object to form.
15 16 17 18 19 20 21 22 23	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating corrections, correct? A. Yes. Q. All right. So then let's turn to the document itself, which is another PowerPoint presentation. You see	15 16 17 18 19 20 21 22 23	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales effort directed by the national account executives to the retailers and wholesalers, correct?  MS. VANNI: Object to form. THE WITNESS: Yes.
15 16 17 18 19 20 21 22	A. Yes. Q. And Miss Tolen indicates that she's passing on to the group the final DEA presentation incorporating corrections, correct? A. Yes. Q. All right. So then let's turn to the document itself, which is	15 16 17 18 19 20 21 22	Q. Okay. And that's the concept we talked about earlier, right, that the generic does not get marketed to physicians, but there is some sales effort directed by the national account executives to the retailers and wholesalers, correct?  MS. VANNI: Object to form.

	Page 278		Page 280
1	Q. All right. Okay. Going to	1	product.
2	Page 6 of the presentation which	2	And there was a concern that
3	discusses generic conversion of brands.	3	if you if the market converts
4 .	This is discussing the concept again of	4	the way we think it would convert,
5	the pie that was created by the brand,	5	which would be closer to the
6	then being converted over time in part to	6	Prozac model because of, even
7	generic?	7	then, more advanced technology, if
8	A. Yes.	8	the DEA didn't give enough quota,
9	Q. Okay. And if you'll go to	9	that we wouldn't have enough
10	the third bullet point down which	10	product we would run out of
11	discusses recent ABA AB, sorry,	11	product, and now we would have
12	AB-rated generic conversion of equivalent	12	customer obligations that we
13	brand approaching 90 percent within	13	couldn't fulfill. We'd have to go
14	30 days, correct?	14	through the quota process with the
15	A. Yes.	15	DEA, which is not something that
16	Q. And you discuss the Prozac	16	happens overnight.
17	example. And one of the things that you	17	So we were showing them an
18	note here is "market efficiency over"	18	example of how generics can
19	"overcame expected brand loyalty." Did I	19	convert
20	read that correctly?	20	BY MS. SCULLION:
21	A. Yes.	21	Q. Right.
22	Q. What did you mean there by	22	A. And how quickly they can
23	brand loyalty?	23	convert so they would be aware of that.
24	A. I launched generic name or	24	Q. And do you recall, was the
	The Traditioned generic marks of		Q. Thid do you reedil, was the
	Page 279		Page 281
1	the generic name fluoxetine for another	1	DEA persuaded by your presentation that

SCULLION:  Q. And do you was that adequate quota based on something more like the Prozac conversion rate or the MS Contin conversion rate?  A. You know, I don't recall.  Basically, we went down there. We had a meeting with the FDA. It went into whatever deliberations they engaged in.  They come back and tell you here it is.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	company. And at the time, we were exclusive on the 10-milligram capsules, and at the time there was a lot of buzz in the industry that Prozac would remain the patients would remain more loyal to the brand Prozac than than have than take a generic. And that's proved not to be the case.  Q. Okay. And you were presenting your viewpoint to the DEA that a Prozac model was more applicable for, in your view, for generic oxycodone than, as you said, the older MS Contin conversion model, right?  MS. VANNI: Object to form.  THE WITNESS: We were presenting the Prozac model as a basis for my recollection is for our quota request that we would not run out of quota in order to convert as I said,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the a faster model of generic conversion should be used to support the quota for generic oxycodone?  MS. VANNI: Object to form.  THE WITNESS: I don't know how you define persuaded. I would say that I would say that we received adequate quota to meet our share our share attainment goal.  BY MS. SCULLION:  Q. And do you was that adequate quota based on something more like the Prozac conversion rate or the MS Contin conversion rate?  A. You know, I don't recall.  Basically, we went down there. We had a meeting with the FDA. It went into whatever deliberations they engaged in. They come back and tell you here it is. Here's your answer.

 2
        risk management plan for the moment. I
                                                        2
                                                                   Q. Let's take this -- going to
 3
        want to go back and now just talk about
                                                        3
                                                               take it one step at a time.
        generic oxycodone and Endo's plans around
                                                        4
 4
                                                                      MS. SCULLION: Can I have
                                                        5
 5
        that product.
                                                                   Tab 47
 6
                We looked at the GAO report.
                                                        6
                                                                      (Document marked for
 7
        You don't recall seeing it, right?
                                                        7
                                                                   identification as Exhibit
 8
                                                        8
            A. Correct.
                                                                   Endo-Stevenson-17.)
 9
            Q. Okay. But fair to say that
                                                        9
                                                               BY MS. SCULLION:
                                                                   Q. So let me hand you what's
10
        despite the GAO report and despite some
                                                      10
        of the media reports that you generally
                                                               been marked as Exhibit 17. And
11
                                                      11
12
        referenced that discussed problems
                                                      12
                                                               Exhibit 17 is a press release from Endo
13
        associated with OxyContin, that Endo did
                                                      13
                                                               dated February 6, 2006. And it's
14
        go ahead and eventually launch its
                                                      14
                                                               entitled Endo Pharmaceuticals to continue
        generic oxycodone ER product, right?
                                                      15
15
                                                               to market its bioequivalent version of
               MS. VANNI: Object to form.

1	_	1	
1	We were given my	1	the litigation between Endo and Purdue
2	recollection is, when this came	2	concerning the patents, right?
3	out, the feeling was we would,	3	A. Yes.
4 .	what I was told at the highest	4	Q. Now, this 10-K states,
5	levels of the company is that we	5	second sentence from the bottom of that
6	could they were engaged in	6	same paragraph, "On August 28, 2006, we
7	discussions with Purdue Pharma.	7	executed a settlement agreement with
8	If those discussions had not gone	8	Purdue pursuant to which we continued to
9	well, would we have exited, I	9	selling" sorry. "Continued selling
10	don't know. That is a what-if,	10	our oxycodone extended-release products
11	it's speculation.	11	until December 31, 2006."
12	What I do know is that we	12	Did I read that correctly?
13	didn't have to the feeling was	13	A. Yes.
14	there was a risk to the company by	14	Q. So, now and, again, this
15	pulling the market, the product	15	is the 10-K filed with with the SEC,
16	off the market right away. And	16	right?
17	that wasn't desirable to do that.	17	A. Yes.
18	At the same time we also knew we	18	Q. One would expect Endo to be
19	had this issue to deal with. And	19	completely accurate in its discussion of
20	so, my recollection is that that	20	when it actually entered into a
21	led to discussions with Purdue	21	settlement agreement with Purdue, right?
22	Pharma that led to us being able	22	A. Yeah. I'm I can tell you
23	to continue to market the product	23	that it's on or about that time that's
24	until December 31, 2006.	24	when it I remember it was during NACDS
	unin 2000mou 21, 2000.		
	Page 303		Page 305
1	MS. SCULLION: Okay. Let's	1	when the settlement was done. So yes,
2	go to Tab 63.	2	mm-hmm.
3	(Document marked for	3	Q. Okay. But we saw that,
4	identification as Exhibit	4	the earlier, the press release that
5	Endo-Stevenson-18.)	5	was Exhibit 17 was from February of 2006,
6 I	BY MS. SCULLION:	6	right?
7	Q. Let me hand you what's been	7	A. Yes.
8 r	narked as Exhibit 18.	8	Q. So fair to say that between
9	Exhibit 18 is a copy of Endo	9	February 2006 and August 28, 2006, Endo
10 I	Pharmaceuticals 10-K for the fiscal year	10	was, in fact, selling this oxycodone
	ended December 31, 2006.	11	extended-release product at risk, because
12	MS. SCULLION: 18, right?	12	it didn't yet have a settlement agreement
	BY MS. SCULLION:	13	signed, right?
14	Q. And, Mr. Stevenson, let me	14	MS. VANNI: Object to form.
	ake you to Page 15 of the 10-K.	15	THE WITNESS: Yeah, I can't
16	A. Okay.	16	testify they were selling at risk.
17	Q. And under the heading,	17	Because my understanding was
	Generic Products, the second paragraph	18	that that there was still a
	again discusses the you're not on the	19	long way to go in the legal
	page, hold on. I'll wait till you are	20	proceedings.
1	here.	21	So they had already
22		22	initiated I believe I don't
23		23	know when they started discussions
	Q. Okay. Second paragraph under generics product discusses again	24	with Purdue. I would think it
ا ∠⊐ ل	muci generies product discusses again	~ ~	with I didde. I would think it

	Page 306		Page 308
1	started pretty quickly. And, you	1	media relations firm to help it get out
2	know, those discussions took a	2	ahead of any potential issues with
3	long time to come to fruition.	3	respect to its generic version of
4 .	There were certain things we	4	OxyContin, right?
5	wanted and in that. And so it	5	MS. VANNI: Object to form.
6	didn't happen overnight.	6	THE WITNESS: They may have.
7	BY MS. SCULLION:	7	BY MS. SCULLION:
8	Q. Right. Fair to say, though,	8	Q. Okay. Well, let's take a
9	until the settlement agreement is signed,	9	look at that.
10	you don't know that you have a deal	10	MS. SCULLION: Can I have
11	right?	11	Tab 66, please. Let's not use
12	MS. VANNI: Object to form.	12	that one then.
13	THE WITNESS: You don't have	13	Let me have tab 68, please.
14	a deal until it's signed, no.	14	(Document marked for
15	BY MS. SCULLION:	15	identification as Exhibit
16	Q. Right. And according to the	16	Endo-Stevenson-19.)
17	10-K, it wasn't signed until August 28th,	17	BY MS. SCULLION:
18	right?	18	Q. I'll hand you what's been
19	A. Correct.	19	marked as Exhibit 19.
20	Q. Okay. And again, as you	20	MS. VANNI: Thank you.
21	say, then Endo discontinued sale as of	21	BY MS. SCULLION:
22	December 31st, 2006, right?	22	Q. And Exhibit 19, again, we
23	A. Correct.	23	have the metadata on the front to show
24	Q. And that was because of the	24	that this was coming from your custodial
	Page 307		Page 309

1	referencing, it says oxymorphone	1	pain, pain management.
2	extended-release tablets and oxymorphone	2	Q. Did you think that concerns
3	immediate release tablets.	3	about abuse of opioids at that time were
4	Do you see that?	4	overstated?
5	A. Yes.	5	MS. VANNI: Object to form.
6	Q. Okay. Showing you that,	6	THE WITNESS: I didn't think
7	just so you have some reference for what	7	they were overstated or
8	EN3202 and 03 is, as referring to the	8	understated.
9	oxymorphone ER and IR?	9	BY MS. SCULLION:
10	A. Okay.	10	Q. Okay. All right. Let's go
11	Q. Okay.	11	to the case study section, which begins
12	A. That's probably why I didn't	12	on the next page. If you can turn back,
13	recognize it, because it's a brand	13	the first case study concerns Monsanto.
14	product.	14	The next says Purdue Pharma. The third
15	Q. Understood.	15	case study here is Endo.
16	Okay. So going back to	16	Do you have that one?
17	Exhibit 19. There is a page a couple	17	A. Yes.
18	pages back that's headed "Situation for	18	Q. All right. And what's
19	Launching 3218" at the top.	19	described here is in the first bullet
20	A. Okay.	20	point is, "AG Pappert issues press
21	Q. Do you see that?	21	release on April 22nd, warning of new
22	A. Yeah.	22	wave of abuse from generic OxyContin."
23	Q. And what's identified here	23	Did I read that correctly?
	`		
24	is a situation for launching. Again,	24	A. Yes.

Page 318  Q. And then it indicates that,  "An AP article was released at 3:40  focused on concerns of the Attorney  General," correct?  A. Yes, that's what it says.  Q. All right. Then it  indicates that at 3:45, five minutes  later, Endo coordinates an interview with  Dr. Galer and AP reporter.  Do you see that?  A. Yes.  Q. And Dr. Galer, that was  Dr. Brad Galer, right?  A. Yes.  Q. And who was he at Endo at  the time?  A. I don't remember his exact  title, but he was involved in the science  side of the business is five minutes after  concerns from the Attorney General, State  of Pennsylvania, the science side of Endo  Tab 77.                                                       10
10
             did other nefarious things that
                                                              oxycodone ER?
             were contra to the indication on
                                                      11
                                                                  A. I don't recall any.
11
12
             the label
                                                      12
                                                                  Q. Do you recall seeing any
                                                      13
                                                              "Dear Doctor" letters concerning generic
13
                 So the title could be
14
             misleading. I don't know what
                                                      14
                                                              oxycodone ER that told the doctors
                                                              that -- that that medication should not
             caused their hell, the 12 hours of
                                                      15
15
             hell, just for the record.
                                                      16
                                                              be overprescribed?
16
                                                      17
17
        BY MS. SCULLION:
                                                                  A. I don't recall any.
                                                      18
18
             Q. Now, going back to
                                                                  Q. Okay. And turn the page --
                                                      19
                                                                  A. But I -- can I -- I do want
19
        Exhibit 19.
20
             A. 19.
                                                      20
                                                              to stipulate though, it says --
                                                      21
                                                                  Q. I'm so sorry, I apologize,
21
             Q. Yep.
22
             A. Be good at numbers.
                                                      22
                                                              Mr. Stevenson. Your counsel will have
23
                                                      23
                                                              the opportunity to ask you questions, and
             Q. I'm getting better.
24
                                                      2.4
                                                              I'm certain that she will. So I'm trying
                 Same page we were just on,

        Dr. Galer and the AP reporter.
                                                       4
                                                              on -- starts with communications
                                                       5
 5
                The third bullet point with
                                                              imperatives. Do you see that?
 6
        respect to balanced messages in that
                                                       6
                                                                  A. Yes.
                                                                  Q. And do you see that one of
 7
        article says, "The company, Endo, plans
                                                       7
 8
        to monitor for prescription data for
                                                       8
                                                              the communications imperatives identified
 9
        signs of abuse and tell doctors that the
                                                       9
                                                              a must have as part of a crisis
10
        medication should not be overprescribed."
                                                      10
                                                              preparedness program is, looking at the
                                                              third bullet point, "A strategy to
                Do you see that?
                                                      11
11
12
            A. Yes.
                                                      12
                                                              neutralize critics/activists."
                                                      13
                                                                      Do you see that?
13
            O. Now, I think you've
14
        mentioned and testified to rather a
                                                      14
                                                                  A. Yes.
                                                                  Q. Those are pretty strong
                                                      15
15
        number of times, with respect to generic
                                                              words, right, neutralize?
16
        oxycodone ER, Endo wasn't going to be
                                                      16
        telling doctors anything, right? Endo is
                                                      17
17

                                                                  firm
21
                MS. VANNI: Object to form.
                                                      21
                                                              BY MS. SCULLION:
22
                THE WITNESS: They were not
                                                      22
                                                                  Q. Well -- just to make sure we
2.3
            promoting it. I do not know if
                                                      2.3
                                                              are on the same page. This was, in fact,
                                                              a PR firm that Endo hired. But I -- I
24
            they sent out informational
                                                      24
```

			<del>-</del>
	Page 326		Page 328
1	will show you. I know you said you don't	1	to
2	remember. Let me show you, so you know	2	A. But Cohn & Wolfe did not do
3	the basis on which we are saying that.	3	any marketing or promotional materials
4 .	You don't have to take my word for it.	4	for the generic business, just for
5	(Document marked for	5	Q. That's fine.
6	identification as Exhibit	6	A. For the record.
7	Endo-Stevenson-22.)	7	Q. That's fine.
8	BY MS. SCULLION:	8	Here, here we're looking in
9	Q. Let me show you what's been	9	Exhibit 19 at what is more traditionally
10	marked as Exhibit 22.	10	called public relations.
11	And Exhibit 22 is a copy of	11	A. Yes.
12	Endo Health Solutions Inc. and Endo	12	Q. Okay. So let's we were
13	Pharmaceutical Inc.'s excuse me, Endo	13	on the page communications imperatives.
14		14	A. Yes.
15	Pharmaceuticals Inc.'s supplemental		
	objections and responses to plaintiffs'	15	Q. And the strategy to
16	second set of interrogatories numbers	16	neutralize critics/activists, right?
17	and I'm not going to read the series of	17	A. Yes.
18	numbers.	18	Q. Just getting us back to
19	If you'll go to Page 35.	19	where we are.
20	A. Can I just ask a question?	20	Now, again, what's written
21	Q. Absolutely.	21	here is to neutralize the critics and
22	A. What what is the date of	22	activists. It doesn't say for example,
23	this document?	23	engage in a thoughtful debate, right?
24	Q. Sure. The date of this	24	MS. VANNI: Object to form.
	Daga 227		Daga 220
4	Page 327		Page 329
1	document is November 15, 2018.	1	THE WITNESS: I had no way
2	A. 2018, okay.	2	of controlling what somebody
3	Q. Correct. If you'll go to	3	writes in a PowerPoint
4	Page 34.	4	presentation who worked for
5	A. 34.	5	another firm.
6	Q. And I'm looking at	6	BY MS. SCULLION:
7	Interrogatory Number 31.	7	Q. Just asking. It doesn't say
8	A. 34, okay.	8	that, right, it doesn't say engage in a
9	Q. Okay. And this is an	9	thoughtful debate, right?
10	interrogatory, you can see, that asks	10	MS. VANNI: Object to form.
11	Endo to identify all vendors, including	11	THE WITNESS: No, it says
12	but not limited to, public relations	12	neutralize, as we've already said
13	firms you have retained for purposes	13	five times.
14	relating to opioids. And it it asks	14	BY MS. SCULLION:
15	for certain details.	15	Q. It doesn't say give
16	And on the next page, 35,	16	considered attention to the concerns of a
17	you see listed under vendor, Cohn &	17	community devastated by the opioid
18	Wolfe. It says, "/GCI Health." And it	18	epidemic, it doesn't say that, right?
19	identifies the purpose for hiring that	19	MS. VANNI: Objection to
20	vendor as marketing and promotional	20	form.
21	materials, public relations.	21	THE WITNESS: No, it doesn't
22	* 1	22	say that.
Z. Z.	DO VOU SEE HIAL?		
	Do you see that?  A Yes		
23	A. Yes.	23	BY MS. SCULLION:

```

between the respective wholesaler, and in this case Endo. They were widely used by pharmaceutical companies. In this case, it was the distributor -- I mean, it was a wholesaler in question, and it established fees that the wholesaler negotiated a fee that they received in return for their services.

It also limited the amount of quantity that they could stock. You know, they had to -- they had to have a minimum and a maximum. So no less than 30, no more than 45, that kind of thing. I don't remember what the exact numbers were.

But it was designed to -- it was designed as an outgrowth of what happened in a court case involving stuffing the channel. There was a -- I don't know all the companies involved. But there was a stuffing-the-channel case. And there's a fine line between having products, enough on hand to fulfill demand, and what is was called

Page 356

- A. As I recall, yes. It didn't apply -- to be clear, it only -- it did not apply to generics. It was just for brands.
- O. Fair enough. And that's what we're talking about here, was the relationship with the wholesalers with respect to Opana ER, branded product?
  - A. Yes.
- O. And -- and you were explaining that the reason that, let's take Endo in this case, was paying a fee under these distribution service agreements, was in recognition of certain services provided by the distributors.
- 16 Do I understand correctly? 17 A. By the wholesalers, yes.
  - O. Wholesalers, thank you. Is wholesalers different from distributor or iust better term?
  - A. Distributor has a different meaning to me.
  - Q. Fair enough.
    - A. I understand why people call

Page 355

And so there's a -- you're not allowed to manage income. It's against the, you know, SEC law. There's a rule against that law or whatever. I'm not a lawyer. But there was a --

stuffing the channel.

And so as a result of that. when the dust settled, the wholesalers were concerned that they were providing services for no compensation, and the pharmaceutical companies, whether it be Endo or anybody else, recognized, okay, they did provide a value, and they negotiated respectively with each wholesaler what the fee was. It was normally a couple percent -- you know, percent.

Q. Okay. So that was a lot. That's helpful. Let me just make sure I understand the various pieces of that. Let's start with the last point. You said that the fee negotiated was normally a couple percent. Is that percent of the product sales?

Page 357

them distributor. To me a distributor is different than a wholesaler.

- Q. We'll call them wholesalers. Thank you. Even though it's called distribution services agreement, it's a wholesaler?
  - A. Yeah, it was the -wholesaler was providing distribution services.
  - O. And what did those distribution services entail?

Can you give me an example, and explain what they were?

A. Well, they would stock the product. They would, you know, ship the product out. They would provide data.

You know, I think 567s -- I don't recall

18 exact, they were sales out data. You 19 know, that was interesting data to have.

You know, what -- what did they sell out 2.0 21 of there. Again, it enabled you to

22 monitor product, because if you sold 100

23 bottles and they shipped out 90, okay, 24

that meant, you know, if they ordered you

```
Page 358
                                                                                             Page 360
                                                        1
 1
                                                                  Q. And Endo could negotiate or
        could use that as your order monitoring.
                                                        2
                                                              tried to negotiate to get that sales out
 2
        It was very -- you know, especially for a
 3
        control drug, you could -- it enabled you
                                                        3
                                                              data included as part of a DSA if it
        to better monitor what inventory they had
                                                        4
                                                              wanted to, right?
 4
                                                        5
                                                                     MS. VANNI: Object to form.
 5
        on hand and what they were shipping out.
                                                        6
                                                                      THE WITNESS: It was part of
 6
        You can see who they shipped it to with
 7
        respect to a large account. You know,
                                                        7
                                                                  the negotiation. It was something
 8
        that -- that kind of data.
                                                        8
                                                                  that was -- that they could
                                                        9
                                                                  provide.
 9
                So they provided that
                                                      10
                                                                      And before a DSA, they would
10
        service. They provided, you know, it
        was -- the big product, the big thing was
                                                      11
                                                                  charge for that.
11
                                                              BY MS. SCULLION:
12
        stocking in all of their DCs. So it was
                                                      12
13
        called DC balancing. So if you send 100
                                                      13
                                                                  Q. Okay.
                                                      14
14
        bottles to a DC, you know, in Michigan
                                                                  A. And -- but as far as the
        somewhere and you had ten other DCs out
                                                      15
                                                              DSA, it was agreement, an overall
15
                                                              agreement on minimal inventories, maximum
16
        of product, that was -- that was not
                                                      16
                                                      17
                                                              inventories. It was designed to prevent
17
        conducive to consider stocking.
                                                              spec buying. Had benefits to both sides,
18
                So part of the agreement was
                                                      18
        they would have their -- they would have
                                                      19
                                                              and one of the benefits to a company like
19
20
        their -- your product in all of their
                                                      20
                                                              Endo, was that you could get sales out
21
        DCs, in adequate quantities that they
                                                      21
22
        could meet demand.
                                                      22
                                                                  Q. Okay. And I think you
            Q. The e-mail references --
                                                      23
                                                              explained though that even if it hadn't

2.4
        references -- excuse me, I'm losing my
                                                      24
                                                              been provided for in the DSA, Endo could
                                      Page 359
                                                                                             Page 361
 1
        tongue.
                                                        1
                                                               have gotten that sales out data from a
 2
                The e-mail references 567s.
                                                        2
                                                               wholesaler by paying for it, right?
 3
                                                        3
            A. Right.
                                                                    A. Yeah.
                                                                        MS. VANNI: Object to form.
 4
            Q. You discussed that in your
                                                        4
                                                        5
 5
        testimony.
                                                               BY MS. SCULLION:
 6
                Is 567 sometimes called the
                                                        6
                                                                    Q. Okay.
                                                        7
 7
        867 data?
                                                                    A. With the caveat that they
 8
                                                        8
            A. It could have been. That's
                                                               normally wanted an exorbitant price, so
 9
                                                        9
        why I said the 567. It could be 867.
                                                               nobody wanted to pay for it.
10
                                                       10
                                                                    Q. Okay. So -- so then it was
        But it's sales out.
            Q. It's sales out. Okay.
                                                               then negotiated as at least part of some
11
                                                       11
12
                Have you worked, whether
                                                       12
                                                               of the DSA's, right?
        it's 567 or 867, had you worked with that
13
                                                       13
                                                                    A. Yeah.
14
        kind of sales out data before you joined
                                                       14
                                                                    Q. Is that right?
15
        Endo?
                                                       15
                                                                    A. Yes.
16
            A. No, because it was
                                                       16
                                                                    Q. Okay. Thanks.
17
        relatively new during that time frame
                                                       17
                                                                        Okay. And I just want to
18
        that these things became popular.
                                                       18
                                                               quick -- take a quick look at the data
            O. Got it. Okay. But that
                                                               itself that you're referencing.

                                                                       23? Oh.
 1
         sorry.
                                                         2
 2
                                                                   O. No. no. I have Tab 23. I'm
             O.
                 The next page of Exhibit 26.
 3
         So the first --
                                                         3
                                                               going to get it to you. It's a lot of
                                                         4
                                                               numbers.
 4
             A. Oh, okay.
                                                         5
 5
                                                                       (Document marked for
                  -- chart or data run, I
                                                         6
 6
         should say. And it says -- it has
                                                                   identification as Exhibit
 7
                                                         7
                                                                   Endo-Stevenson-27.)
         handwritten at the top, Opana ER
                                                         8
 8
         5-milligram?
                                                               BY MS. SCULLION:
                                                         9
 9
                                                                   Q. I'll hand you what's been
             A.
                  Yes.
                                                        10
                                                               marked as Exhibit 27. And Exhibit 27 is
10
             O. Do you have that?
                                                        11
                                                               Bates-stamped ENDO-OPIOID MDL-02230226.
11
                  Yeah.
             A.
                                                        12
12
             Q. Okay. I just want to make
                                                                       And, Mr. Stevenson, do you
                                                        13
         sure I understand the best I can here.
                                                               recognize Exhibit 27 as a series of
13
                                                        14
                                                               e-mails from you to various folks in late
14
                  The first column, again it's
                                                        15
                                                               October 2006?
         slightly cut off, appears to be sold to
15
         party; is that right?
                                                        16
                                                                   A. Yes.
16
                                                        17
                                                                   Q. All right. Let's start on
17
             A. Yes.
                                                        18
18
             Q. Okay. And then under -- in
                                                               the next to last page of the exhibit. At
                                                        19
                                                               the bottom it says -- 227 is the last
19
         that column it's listing the names of the
                                                        20
                                                               three digits of the number.
20
         entities to which the wholesaler has sold
                                                                   A. Yes.
         the product in question, right?
                                                        21
21
22
             A. No. These are the -- these
                                                        22
                                                                   Q. Okay. And let's start
                                                        23
                                                               with -- with your e-mail at the bottom of
23
         are the wholesalers.
                                                        24
                                                               the page, which again is from you to
24
             Q. Oh. Okay. That's why I was
                                       Page 363
                                                                                                Page 365
        a little confused. I thought it said
 1
                                                          1
                                                                Mr. Kerr and it's cc'd to Mark Baglin.
 2
        sold to party. Maybe that won't work.
                                                          2
                                                                         Do you recall his position
 3
        Let's see. Okay.
                                                          3
                                                                at the time?
                But here we have listed by
 4
                                                          4
                                                                     A. No, I don't.
        month, as you said, this is the dollar
                                                          5
                                                                     Q. And again, this is
 5
 6
        amounts of sales to these wholesalers,
                                                          6
                                                                concerning Project Pizza, right?
                                                          7
 7
        right?
                                                                     A. Yes.
 8
                                                          8
                                                                     Q. All right. And you're
             A. Yes. It appears to be.
 9
             Q. Okay. And you indicate in
                                                          9
                                                                explaining to Mr. Kerr that you and
        your e-mail that you would be getting
                                                        10
                                                                Mr. Baglin had met to -- as a follow-up
10
        that information in -- in bottles, I
                                                                 to discussion with Mr. Kerr the day
11
                                                        11
12
        think you anticipated within the next
                                                        12
                                                                before to further brainstorm Project
        couple days. You said, "By Monday, we'd
                                                        13
13
                                                                Pizza deliverables. And then you explain
        get that information in bottles," right?
                                                        14
                                                                 what those are.
14
             A. Yes -- well, no, it says
                                                        15
15
                                                                         Do you see that?
        here, "On Monday someone will get the
                                                        16
                                                                     A. Yes.
16
        assignment to put it into bottles."
                                                        17
17
                                                                     Q. Let's just go to the first
            Q. Thank you. That's right.
                                                        18
                                                                bullet point which says, "'Mine'
18
19
                                                        19
                                                                wholesaler supplied DSA data on sales out
        Okay.
             A. That's what I -- I have to
                                                        20
                                                                to help independently verify retail store
20
21
        review it again. I...
                                                        21
                                                                 stocking."
22
             Q. Thank you. Okay.
                                                        22
                                                                         Did I read that correctly?
23
                Let's go to Tab 23. You can
                                                        23
                                                                     A. Yes.
        put this one aside for now.
24
                                                        24
                                                                     Q. And that's referring to what
```

```
Page 366
                                                                                            Page 368
                                                        1
 1
        we were just talking about before, in
                                                              pharmacies, obviously you have to have
 2
                                                        2
        terms of looking at the sales out data
                                                              made the sales to the wholesalers, right?
 3
        from wholesalers to understand what, in
                                                        3
                                                                   A. Yes.
 4
        fact, had been supplied to the retail
                                                        4
                                                                   Q. Okay. So that's --
        stores one level more down the chain,
                                                        5
 5
                                                                   A. Or -- or a vaulted chain.
 6
        right?
                                                        6
                                                                   Q. Or a vaulted chain, thank
 7
                                                        7
                 Yeah. The customer's
                                                              you.
             A.
 8
                                                        8
        customer, yeah.
                                                                      Okay. And if you go down to
 9
                                                        9
             Q. Okay.
                                                              the fourth bullet point just to help
10
             A. In most cases. Those are de
                                                      10
                                                              clarify the whole 567/867 issue. You
11
                                                      11
                                                              say, "As a result, Mark Baglin and I met
        novo.
12
             Q. And then you go on in the
                                                      12
                                                              this morning to further brainstorm. We
        next sentence to say, "We receive this
                                                      13
13
                                                              agreed to begin with data based on
14
        data every week, but" -- it says, "do use
                                                      14
                                                              quantitative facts that have attribution,
        it for this purpose (Endo fault)."
                                                      15
15
                                                              i.e., 867 data."
                 Does it look like you mean
                                                      16
16
                                                                      Is that -- and then you go
                                                      17
17
        to say we receive this data every week,
                                                              on again in the last sentence to talk
18
        but do not use it for this purpose?
                                                      18
                                                              about using 867 data.
             A. Yes, I believe so.
19
                                                      19
                                                                      Does that confirm that, in
20
                                                      20
             Q. Okay. But to the best of
                                                               fact, you're referring to 867 data in
                                                      21
                                                              that first e-mail we looked at, not 567?
21
        your understanding, Endo did, in fact,
22
        receive this sales out data every week at
                                                      22
                                                                   A. Yes.
23
                                                      23
                                                                   Q. Okay.
        least as of October 2006, correct?
24
                                                      24
                                                                   A. Yes. It was a typo.
             A. Yes.
                                      Page 367
                                                                                            Page 369
            Q. All right. Okay. Then
 1
                                                        1
                                                                   Q. And towards the end of that
 2
        let's go up to the next e-mail which
                                                        2
                                                              bullet point, you do say, "So using the
 3
        starts on the first page of Exhibit 27.
                                                        3
                                                              867s and input from chains obtained via
 4
                                                        4
                                                              the NAEs, we will establish a baseline
        Okav.
                                                        5
 5
                                                              early next week."
                And now you are giving
 6
        everyone an update on the Project Pizza,
                                                        6
                                                                      Do you see that?
 7
        correct?
                                                        7
                                                                   A. Yes.
 8
                                                        8
                                                                   Q. We talked about the 867
            A. Yes.
 9
                                                        9
                                                              input. What was the input from chains
            Q. All right. And you explain
        the key takeaways from a recent meeting
                                                      10
                                                              obtained from the NAE?
10
        that you and Amy Romero and David Kerr
11
                                                      11
                                                                   A. It would be, what this is
12
        had were, first, the goal was 12,000
                                                      12
                                                              referring to -- well, to answer your
        retail pharmacies stocked by year-end; is
13
                                                      13
                                                              question specifically it would be input
14
        that right?
                                                      14
                                                              from the vaulted chains who do not -- did
                                                              not have 867s. So what he was trying to
                                                      15
15
            A. Yes. That's what it says.
16
            Q. Okay. And 17.5 million in
                                                      16
                                                              establish, on a total market basis, you
17
        net factory sales by year-end; is that
                                                      17
                                                              know, where are we with stock. He was
                                                      18
18
        right?
                                                              getting pressure to Opana -- as I
19
                                                      19
                                                              remember. You know, I don't remember
            A. Yes.
            Q. Okay. And you then go on to
                                                              much about this stuff. But it was -- the
20
                                                      20
        state, "If we" -- "if we achieve the
                                                      21
21
                                                              Project Pizza was a fancy word for -- you
22
        12,000 stocked pharmacies we obviously
                                                      22
                                                              know, they gave it a code name in order
23
        will achieve 17.5 million." And that's
                                                      23
                                                              to have adequate stocking of Opana.
                                                      24
                                                                      And why -- so that's why the
24
        just because, in order to stock the
```

```
Page 370
                                                                                             Page 372
                                                        1
 1
                                                               will probably run a promotion focused on
        feeling was, reading this, that leading
                                                        2
 2
        up to these e-mails, that it was not
                                                               the retail pull-through from the
 3
        stocking, and the pull-through was not
                                                        3
                                                               wholesaler."
        sufficient. So -- or below par, I mean
                                                        4
                                                                       Do you see that?
 4
                                                        5
 5
        below expectation.
                                                                   A. Yes.
                                                        6
 6
                So we had this focus, you
                                                                   Q. Let me try and break that
                                                        7
 7
        know, to have better stocking.
                                                               down and make sure I understand. First
 8
            Q. Understood. And you
                                                        8
                                                              of all, the WG there refers to Walgreens;
                                                        9
        explained sales-out data would show you
                                                              is that right?
 9
        the customer's customers of the
                                                       10
                                                                   A. I believe so, yes.
10
        wholesaler, right --
                                                       11
                                                                   Q. Okay. And do I understand
11
                                                      12
                                                              correctly that you're saying if the data
12
            A. Yes.
            Q. -- what the stocking was; is
13
                                                      13
                                                              winds up showing that that's 6,000 stores
        that right?
                                                              stocked, even when Walgreens is accounted
14
                                                       14
                                                      15
                                                               for, we will probably run a promotion,
            A. Yes.
15
                                                               that that's what Endo -- you were
16
            Q. And then with respect to the
                                                      16
                                                      17
                                                               proposing to do, is if the data showed
17
        vaulted chains. Was the idea that the
                                                      18
                                                              that level of stocking, you would run a
18
        NAEs, the national account executives,
        would get similar information about what
                                                      19
                                                              promotion, right?
19
                                                       20
20
        the level of stocking was at the
                                                                      MS. VANNI: Object to form.
21
        individual stores within the vaulted
                                                       21
                                                                      THE WITNESS: We would run a
22
        chains?
                                                       22
                                                                   promotion, not to physicians, but
                                                      23
                                                                   to -- from the wholesaler, we
23
            A. If they could. You know.
2.4
                                                       24
                                                                   would support one from the
        the chains may not have agreed to provide
                                      Page 371
                                                                                             Page 373
                                                                   wholesaler to the retailer, which
 1
        it to them.
                                                        1
 2
            Q. Okay. But they were going
                                                        2
                                                                   would consist of making sure they
 3
        to make an effort to do that, right?
                                                        3
                                                                   knew it was available.
 4
            A. Yes.
                                                        4
                                                                       If you read further on in
                                                        5
 5
            O. Okav.
                                                                   the e-mail, you know, there was
 6
                MS. SCULLION: And can we
                                                        6
                                                                   demand generation program that
 7
            take -- can we go off the record
                                                        7
                                                                   marketing was creating and sales
                                                        8
 8
            really quickly?
                                                                   was executing.
 9
                THE VIDEOGRAPHER: Off the
                                                        9
                                                               BY MS. SCULLION:
                                                       10
                                                                   O. Yeah.
10
            record. 3:15.
                                                                   A. So in order for those
                (Short break.)
11
                                                       11
12
                THE VIDEOGRAPHER: We are
                                                       12
                                                               programs to be successful, they had to be
                                                               stocking at the retail pharmacy. So
13
            back on the record at 3:19.

1	Q. That's what you are	1	umpteen pharmacies. Again, it was to get
2	referring to?	2	the word out that the product was there
3	A. Yeah.	3	and that the promotion was not what
4 .	Q. Just again to put it in	4	you would think of promotion in the
5	layman's terms, your goal was to get the	5	normal sense. It was it was designed
6	product into the pharmacies stocked,	6	to promote the fact that scripts were
7	right, so that as prescriptions are	7	coming.
8	coming in from the demand generation	8	Q. Okay. And that was to
9	programs, they can be filled?	9	encourage the pharmacies to stock?
10	A. Correct.	10	A. Yeah. To stock the product.
11	MS. VANNI: Object to form.	11	Q. Okay.
12	BY MS. SCULLION:	12	A. To have pull-through.
13	Q. Let's stay in that same	13	Q. And I think and correct
14	paragraph, same page. You say at the	14	me if I got this wrong. I think you
15	very top there that, "Endo is prepared to	15	mentioned that the promotion could be
16	trade price to gain volume and get on the	16	done, as you said, either directly, you
17	launch trajectory."	17	said, from Endo, through a direct mail or
18	Do you see that?	18	PDQ, right? That's one way to do it?
19	A. Yes.	19	A. Yeah, that's one way.
20	Q. What did that mean?	20	Q. Did you also say that the
21	<ul> <li>A. I don't know specifically</li> </ul>	21	promotion could be done through the
22	what the discussion was at that time.	22	wholesaler?
23	You know, normally brands were might	23	A. I don't recall the
24	have been, if there was a well, I	24	different, you know, components involved.

1	units times times their net price,	1	We everybody does it the same way.
2	and, you know, that's that's what it	2	You normally take a charge to the P&L
3	was. I don't know what their net price	3	based on what your historic rate is of
4 .	was. But it would be that's why it	4	returns. It's normally 1 1/2 percent,
5	says equal to six months of units.	5	2 percent, whatever it may be that you're
6	Q. Okay. Okay. So you I	6	experiencing, and you just take a charge
7	mean, are you effectively giving them six	7	to the P&L to cover for any any
8	months worth of units for free	8	returns so there's no surprises.
9	A. No, no, no.	9	Q. Okay. And what's the
10	Q or just just at the	10	reference to Medicaid there?
11	net price?	11	A. Medicaid is the charge that
12	A. No. To be clear, we	12	you pay Medicare rebates. Medicare
13	didn't we didn't do free goods.	13	rebates get put in there, it's another
14	Q. Okay.	14	charge that you pay. Generics paid I
15	A. All right. We when they	15	think at the time 11 percent, you know,
16	bought when they the stick when	16	is my recollection.
17	they bought we we established based on	17	So that's a charge that you
18	their forecast of demand what six months	18	pay because it's a charge to the P&L.
19	of units were.	19	Q. Okay. And that's when
20	Q. Right.	20	you say it's a charge you pay, you are
21	A. And when they attained that,	21	paying it to McKesson?
22	we gave them a rebate.	22	A. No, no, no. We're
23	Q. Okay. But it wasn't a	23	Q. You're paying it to the
24	rebate for the entire price, right?	24	government?

Now, you explained in in a prior exhibit that the marketing and sales departments had this demand generating these demand-generating programs. We looked at that in your earlier e-mail, right?  A. On the brand side. Q. Right. Got it. Okay. So on the generic side
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. It wasn't a rebate for what?  I'm sorry.  Q. The entire price for those six months' units.  A. I'm sorry, I don't follow the question.  Q. That's okay. I'm asking, the sales out rebate, that did did that equal the actual cost to them for those six months' units?  A. No. Their cost would have been at WAC. It would have been based on my recollection is it would have been based on net price.  Q. Okay. Got it.  And then the next line is returns, Medicaid, and cash discount. Do you see that?  A. Yes.  Q. And that's just and returns is, again, it's accounting for actual returns, I assume, right?  A. It would have been it	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A we're paying it to the government.  Q. Okay. Okay. A. But it's based on products sold to McKesson. Q. Understood. I'm just trying to make sure I understand how it all flows together. And then cash discount is, I assume, just a discount for payments in cash? A. It's prompt payment terms. Q. Okay. Got it. Now, you explained in in a prior exhibit that the marketing and sales departments had this demand generating these demand-generating programs. We looked at that in your earlier e-mail, right? A. On the brand side. Q. Right. Got it. Okay. So on the generic side though, there's still going to be
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. It wasn't a rebate for what?  I'm sorry.  Q. The entire price for those six months' units.  A. I'm sorry, I don't follow the question.  Q. That's okay. I'm asking, the sales out rebate, that did did that equal the actual cost to them for those six months' units?  A. No. Their cost would have been at WAC. It would have been based on my recollection is it would have been based on net price.  Q. Okay. Got it.  And then the next line is returns, Medicaid, and cash discount. Do you see that?  A. Yes.  Q. And that's just and returns is, again, it's accounting for actual returns, I assume, right?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A we're paying it to the government.  Q. Okay. Okay. A. But it's based on products sold to McKesson. Q. Understood. I'm just trying to make sure I understand how it all flows together. And then cash discount is, I assume, just a discount for payments in cash?  A. It's prompt payment terms. Q. Okay. Got it. Now, you explained in in a prior exhibit that the marketing and sales departments had this demand generating these demand-generating programs. We looked at that in your earlier e-mail, right?  A. On the brand side. Q. Right. Got it. Okay. So on the generic side

	Page 390		Page 392
1	served by McKesson, correct?	1	competitive issue ongoing against our
2	MS. VANNI: Object to form.	2	McKesson business that we had to respond
3	THE WITNESS: Yes.	3	to.
4 .	BY MS. SCULLION:	4	Q. Okay. And that's one of the
5	Q. Okay. And as part of its	5	things I wanted to turn to. If you look
6	relationship with the pharmacies,	6	at the next page of the exhibit, which
7	McKesson has responsibility to try and	7	has some of the, I think, backup detail
8	ensure those pharmacies can service their	8	to your summary on the first page we've
9	patients, right?	9	been looking at.
10	MS. VANNI: Object to form.	10	
11		1	I'm just going down to the
12	THE WITNESS: I can't speak for McKesson.	11	second box that says proposed pricing and
13		12	rebates. Do you see that?
	BY MS. SCULLION:	13	A. Yes.
14	Q. Okay. I'm just trying to	14	Q. Okay. And in the third
15	understand why Endo would need to pay any	15	column from the left, it says contract
16	monies to McKesson to, I think you	16	price. Do you see that?
17	explained, try to make sure that the	17	A. Yes.
18	stock was getting out to the McKesson	18	Q. And just, can you explain to
19	DCs. Isn't that just something McKesson	19	me, when it says contract price, who is
20	would do as part of its business?	20	the contract between? Who are the two
21	MS. VANNI: Object to the	21	parties?
22	form.	22	A. Endo and McKesson.
23	THE WITNESS: No. They	23	Q. Okay. And I think you are
24	BY MS. SCULLION:	24	explaining to me that one of the things
	Page 391		Page 393
1	Q. Why not?	1	that you were doing was you had to meet a
2	A. Because if you you know,	2	competitive pricing offer with respect to
3	this was part of a competitive package,	3	McKesson for oxycodone, at least at this
4	and we were not exclusive. There was an	4	time?
5	authorized generic that we competed	5	A. It appears that way.
6	against, IVAX, who had the Purdue Pharma	6	Q. Okay. Let's go back to your
7	product as a generic. And so we had to	1	
		7	summary page in this exhibit.
8	•	7 8	summary page in this exhibit.  A. Which
8	have a competitive offer. And so,	1	A. Which
	have a competitive offer. And so, basically, what this is about is, in	8	A. Which Q. The McKesson summary.
9	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we	8 9 10	<ul><li>A. Which</li><li>Q. The McKesson summary.</li><li>A. Yes.</li></ul>

9 10 11 12 13 14 15 16 17	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is	8 9 10 11 12 13 14 15 16 17	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection.
9 10 11 12 13 14 15 16 17	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I	8 9 10 11 12 13 14 15 16 17 18	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes.
9 10 11 12 13 14 15 16 17 18	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I had a certain authority, current VP	8 9 10 11 12 13 14 15 16 17 18	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes. BY MS. SCULLION:
9 10 11 12 13 14 15 16 17 18 19 20	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I had a certain authority, current VP authorization level, that was me. And it	8 9 10 11 12 13 14 15 16 17 18 19 20	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes. BY MS. SCULLION: Q. Okay. And if you go over to
9 10 11 12 13 14 15 16 17 18 19 20 21	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I had a certain authority, current VP authorization level, that was me. And it was and SVP authorization level. So	8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes. BY MS. SCULLION: Q. Okay. And if you go over to the right-hand side of that box under
9 10 11 12 13 14 15 16 17 18 19 20 21 22	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I had a certain authority, current VP authorization level, that was me. And it was and SVP authorization level. So the price was declining. That's why I'm	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes. BY MS. SCULLION: Q. Okay. And if you go over to the right-hand side of that box under total, you are explaining that the
9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I had a certain authority, current VP authorization level, that was me. And it was and SVP authorization level. So the price was declining. That's why I'm ask we need to have new levels,	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes. BY MS. SCULLION: Q. Okay. And if you go over to the right-hand side of that box under total, you are explaining that the account value total for those periods was
9 10 11 12 13 14 15 16 17 18 19 20 21 22	have a competitive offer. And so, basically, what this is about is, in order to get the McKesson business, we had to have a competitive offer and these were the components, to gain that to gain that business.  Q. Got it. Okay.  A. And you can see now, you know, what this is designed to show if I look across here, this is this is asking for new price authorization and I had a certain authority, current VP authorization level, that was me. And it was and SVP authorization level. So the price was declining. That's why I'm	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Which Q. The McKesson summary. A. Yes. Q. So, again, the first box at the top is summarizing the McKesson financial value to Endo. This is your attempt to summarize what the value is to Endo of this relationship as proposed, right?  MS. VANNI: Objection. THE WITNESS: Yes. BY MS. SCULLION: Q. Okay. And if you go over to the right-hand side of that box under total, you are explaining that the

Page 394 Page 396 1 1 A. On gross. launch incentives. 2 2 O. Right. Q. Right. So, and I think as 3 A. On -- on gross, yeah. 3 you're pointing out, Endo is paying a O. That was the account value. 4 4 substantial amount in connection with the 5 5 After the various rebates and allowances, launch, in this case, of generic 6 6 et cetera, the net revenue to Endo would OxyContin, right? 7 be 11.4 -- about \$11.4 million, right? 7 MS. VANNI: Object to form. 8 A. Almost 11.5. But yeah. 8 THE WITNESS: That's what 9 9 Q. Okay. So pretty substantial was required in the competitive 10 10 decrease off of the gross, right? environment. BY MS. SCULLION: 11 A. Yep. Yes. 11 12 Q. Okay. And then the gross 12 O. Okay. And so much so that profit listed underneath would be just 13 the value to McKesson, estimated value to 13 14 over \$6 million, right? 14 McKesson, of this proposed relationship was more than three times the estimated 15 15 A. Yes. Q. But still the gross profit 16 gross profit to Endo of this 16 17 17 percentage was 53 percent, right? relationship? 18 18 A. Well, just to be clear, all A. Yes. 19 we could speak to is the amount of money 19 Q. Okay. All right. And then 20 at the bottom of the page, you do the 20 we gave McKesson through rebates and 21 opposite analysis looking at the 21 discounts, et cetera. It was in no 2.2 financial value of this proposed 22 way -- in no way seeks to imply or 23 23 relationship to McKesson, right? implies what the actual financial value 24 A. Yes, our estimate. 2.4 to McKesson is in their internal P&L. Page 395 Page 397 1 Q. Okay. And the estimate of 1 There's no way for us to know that. 2 the total value to McKesson for this same 2 Q. Okay. Okay. 3 period, the period in which gross profit 3 MS. SCULLION: Can I have to Endo was going to be a little over 4 4 Tab 52, please. Make sure we have \$6 million. The value to McKesson was 5 5 the same document. Because these 6 going to be almost \$20 million, right? 6 can get a little bit tricky. 7 A. Yes, because our price was 7 (Document marked for 8 declining as you can see in the middle 8 identification as Exhibit 9 section here. Our level, what we were 9 Endo-Stevenson-29.) 10 anticipating was to have to go to a lower 10 BY MS. SCULLION: price. And, therefore, you know, we had 11 Q. I'll hand you what's been 11 12 paid these -- these different rebates, et 12 marked as Exhibit Number 29. cetera, out, the stocking, et cetera, 13 13 And, Mr. Stevenson, if 14 14 you'll turn to the second page of out. So the pricing was -- it was 15 15 Exhibit 29, you'll see at the top, that showing that while it still made sense 16 16 it's entitled "Endo Contribution Margin 17 from a profitability standpoint for us, 17 Report - Period." vou know, management wanted to see, okay, 18 18 Do you see that? 19 what was -- what has McKesson received 19 A. Yes. Q. Now, I'll represent to you 20 2.0 from us 21 So obviously as the price 21 that this is a format of this data that 22 declines, you know, that number is going 22 was produced to us by Endo in this 23 to increase, because you're going to take 23 litigation in response to our request for in less revenue, but you paid out these 24 24 financial reporting from Endo.

	Page 398		Page 400
1	And I just want to draw your	1	was their contract price. And so if the
2	attention to this first page. You'll see	2	WAC was \$80, and the contract price was
3	on the product line, indicates that	3	\$40. There would be a \$40 chargeback
4 .	it's Endocet is the product, right?	4	submitted to Endo to for the number
5	A. Yes.	5	for the number of bottles sold sold to
6		6	
	Q. Okay. And then we see a		that contract number.
7	number of lines in the chart. It starts	7	Q. Okay. Again, let me see if
8	with the gross revenues and then goes	8	I can just break that down to make sure I
9	through a number of the line items that	9	actually understand how that all worked,
10	we discussed when we were looking at the	10	because it was a lot. It was very
11	McKesson summary.	11	helpful. But so, again, the WAC is the
12	Do you see that?	12	wholesale acquisition cost, right?
13	A. Yes.	13	A. Yes.
14	Q. But there's there's a new	14	Q. And that's the price across
15	line item in here that we haven't	15	the board, the same WAC across the board
16	discussed in detail yet. We referred to	16	that Endo sets for a product, right?
17	it earlier. That's the chargebacks. Do	17	A. Yes.
18	you see that the fourth line down under	18	Q. Okay. And then the contract
19	revenue?	19	price you referred to, in the context of
20	A. Yes.	20	a product like Endocet, would that be the
21	Q. It says chargebacks. Can	21	contract between Endo and let's start
22	you explain what chargebacks were in this	22	with the retail pharmacy chain?
23	context for context for Endocet?	23	A. It wouldn't be to the retail
24		24	
24	A. Well, it's the same concept	24	pharmacy chain. It would be to the
	Page 399		Page 401
1	for any product, whether it's an opioid	1	wholesaler. The chargeback goes to the
2	or not. It's the difference between the	2	
3			wholesaler not to the
	W/A( the wholesale acquisition cost and	1	wholesaler, not to the
	WAC, the wholesale acquisition cost, and	3	Q. The contract price is the
4	the contract price	3 4	Q. The contract price is the price that the wholesaler has contracted
4 5	the contract price Q. Okay.	3 4 5	Q. The contract price is the price that the wholesaler has contracted for?
4 5 6	the contract price Q. Okay. A for the number of bottles	3 4 5 6	Q. The contract price is the price that the wholesaler has contracted for?  A. No. No. It's the price
4 5 6 7	the contract price Q. Okay. A for the number of bottles sold through their whatever the	3 4 5 6 7	Q. The contract price is the price that the wholesaler has contracted for?  A. No. No. It's the price that Endo has with the respective chain
4 5 6 7 8	the contract price Q. Okay. A for the number of bottles sold through their whatever the respective wholesaler's program was to	3 4 5 6 7 8	Q. The contract price is the price that the wholesaler has contracted for?  A. No. No. It's the price that Endo has with the respective chain or wholesaler program.
4 5 6 7 8 9	the contract price Q. Okay. A for the number of bottles sold through their whatever the respective wholesaler's program was to the independent pharmacists.	3 4 5 6 7 8	Q. The contract price is the price that the wholesaler has contracted for?  A. No. No. It's the price that Endo has with the respective chain or wholesaler program.  Q. Okay.
4 5 6 7 8 9	the contract price Q. Okay. A for the number of bottles sold through their whatever the respective wholesaler's program was to the independent pharmacists. Q. Okay.	3 4 5 6 7 8 9	Q. The contract price is the price that the wholesaler has contracted for?  A. No. No. It's the price that Endo has with the respective chain or wholesaler program.  Q. Okay.  A. So McKesson had One Stop, or
4 5 6 7 8 9 10	the contract price Q. Okay. A for the number of bottles sold through their whatever the respective wholesaler's program was to the independent pharmacists. Q. Okay. A. Or whatever not only I	3 4 5 6 7 8 9 10	Q. The contract price is the price that the wholesaler has contracted for?  A. And they sent you a chargeback for the number of bottles sold  Q. Through that program?

	Page 402		Page 404
1	the chargeback.	1	which is a shelf stock.
2	Q. Okay. And when they were	2	So the price declines in the
3	calculating the chargeback, that had to	3	market, and they have 100 bottles
4 .	be based on that wholesaler's sales	4	on the shelf, they want to have
5	through that particular program under	5	the bottles on the shelf be the
6	that contract price, right?	6	same price as their new price.
7	A. Number.	7	Okay. And as a result of
8	Q. Okay. And did Endo get data	8	that you would get a claim for
9	telling it how those chargebacks were	9	that, and they would say, "We had
10	calculated? In other words, to see which	10	900 bottles on the shelf when the
11	sales through the program justified the	11	price change went into affect."
12	chargeback that the wholesaler was asking	12	
13	for?	13	And if it's a direct account, you
14		1	can validate that because you know
	MS. VANNI: Object to form.	14	from what you shipped them.
15	THE WITNESS: Endo got	15	So if it's a chain with a
16	chargeback data that was	16	vault, you can validate that. If
17	primarily matter of fact, as	17	it's a chain or customer without a
18	far as I know, exclusively used	18	vault and they make that claim, to
19	for financial verification.	19	pass an audit which is always
20	That's who that's what	20	important to do, and verify that
21	chargeback data was for, to	21	the claim was a legitimate claim,
22	validate claims.	22	finance would use chargeback data
23	BY MS. SCULLION:	23	to validate the claim.
24	Q. Right. And let me make	24	BY MS. SCULLION:
	Page 403		Page 405

VANNI: Gotcha.  BY MS. SCULLION:  Q. Okay. You are on the on the page that has the product listed as

	Page 406		Page 408
1	Q. Okay. And you see that for	1	Q. I will tell you in this set
2	this fiscal year, it's 2006, it does	2	it's the only oxycodone page there is.
3	indicate that year-to-date there were	3	So that's my understanding.
4 .	392,000, a little bit more, in sales of	4	A. Okay.
5	Numorphan during that year?	5	Q. Okay. So again, let's look
6	A. That's what it shows, yeah.	6	down the line for price sorry, for
7	Q. Okay. And again you recall	7	sales promotions. And you'll see, just
8	that we saw the name Numorphan come up in	8	for Period 1, 2.6 million, a little bit
9	the article about oxymorphone abuse,	9	more. Do you see that?
10	correct?	10	A. Yes.
11	MS. VANNI: Object to form.	11	
12	THE WITNESS: Yes, I recall	12	Q. What was sales promotions?
13	the article.	13	A. I'm sure it was you know,
14	BY MS. SCULLION:		had to do with stocking.
		14	Q. So that would be
15	Q. Okay. Do you have any	15	A. That's the only promotion
16	understanding about what Numorphan	16	that we would ever you know, they put
17	product is referred to in this	17	it into a convenient P&L line. But
18	contribution margin report?	18	that's only we didn't promote to
19	A. I have no idea.	19	doctors. So generics do not promote to
20	Q. Okay. Let's go turn	20	physicians, ever.
21	another page back and you'll see at the	21	Q. Just going down a few more
22	top, the product Opana ER.	22	lines. There's a reference to
23	A. I see Opana. Is there	23	distribution fees?
24	supposed to be an Opana ER?	24	A. Yes.
	Page 407		Page 409

And here, I just want to ask you about a few more of the of the lines indicated on the left-hand side. We talked about a lot of them. You mentioned price equalization. The next line is sales promotions. What was sales promotions? A. I don't know. I wasn't involved with Opana or Opana ER, other than stocking. That's my only involvement. Q. You know what, fair enough. Let's go let's go to the next page	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. And are are those the percentage fees under the distributor distributor services agreement we talked about earlier?  A. I I'm assuming. You know, I'm assuming that's what it is. I don't know I don't know what I haven't seen these P&Ls before, so  Q. Okay. And then two more lines down underneath that is an administration fee. Do you see that?  A. Yes.  Q. What was administration fee separate from distribution fee?  A. You know, I don't recall the specifics. It was some customers or wholesaler whoever it was, they had they called it an admin fee? I don't remember what it was all for. It was just another fee, another charge, you know, cost of doing business on the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. Yeah. If you go to the next page, you'll see an Opana ER. A. Okay. Q. All right. And here it's just representing that the stub last five months of 2006 for Opana ER. Do you see that? A. Yes. Q. Okay. And here, I just want to ask you about a few more of the — of the lines indicated on the left-hand side. We talked about a lot of them. You mentioned price equalization. The next line is sales promotions. What was sales promotions? A. I don't know. I wasn't involved with Opana or Opana ER, other than stocking. That's my only involvement. Q. You know what, fair enough. Let's go — let's go to the next page then, which is oxycodone.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And are are those the percentage fees under the distributor distributor services agreement we talked about earlier?  A. I I'm assuming. You know, I'm assuming that's what it is. I don't know I don't know what I haven't seen these P&Ls before, so  Q. Okay. And then two more lines down underneath that is an administration fee. Do you see that?  A. Yes.  Q. What was administration fee separate from distribution fee?  A. You know, I don't recall the specifics. It was some customers or wholesaler whoever it was, they had they called it an admin fee? I don't remember what it was all for. It was just another fee, another charge, you know, cost of doing business on the account.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. Yeah. If you go to the next page, you'll see an Opana ER. A. Okay. Q. All right. And here it's just representing that the stub last five months of 2006 for Opana ER. Do you see that? A. Yes. Q. Okay. And here, I just want to ask you about a few more of the of the lines indicated on the left-hand side. We talked about a lot of them. You mentioned price equalization. The next line is sales promotions. What was sales promotions? A. I don't know. I wasn't involved with Opana or Opana ER, other than stocking. That's my only involvement. Q. You know what, fair enough. Let's go let's go to the next page then, which is oxycodone. A. And I assume this is	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. And are are those the percentage fees under the distributor distributor services agreement we talked about earlier?  A. I I'm assuming. You know, I'm assuming that's what it is. I don't know I don't know what I haven't seen these P&Ls before, so  Q. Okay. And then two more lines down underneath that is an administration fee. Do you see that?  A. Yes.  Q. What was administration fee separate from distribution fee?  A. You know, I don't recall the specifics. It was some customers or wholesaler whoever it was, they had they called it an admin fee? I don't remember what it was all for. It was just another fee, another charge, you know, cost of doing business on the account.  Q. From your perspective it's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. Yeah. If you go to the next page, you'll see an Opana ER. A. Okay. Q. All right. And here it's just representing that the stub last five months of 2006 for Opana ER. Do you see that? A. Yes. Q. Okay. And here, I just want to ask you about a few more of the — of the lines indicated on the left-hand side. We talked about a lot of them. You mentioned price equalization. The next line is sales promotions. What was sales promotions? A. I don't know. I wasn't involved with Opana or Opana ER, other than stocking. That's my only involvement. Q. 20 21 22	(Document marked for identification as Exhibit Endo-Stevenson-30.)	20 21 22	of of what it is that Mr. Cresswell was describing to you just generally?
20 21 22 23	(Document marked for identification as Exhibit Endo-Stevenson-30.) BY MS. SCULLION:	20 21 22 23	of of what it is that Mr. Cresswell was describing to you just generally?  A. This was a long time ago. I
20 21 22	(Document marked for identification as Exhibit Endo-Stevenson-30.)	20 21 22	of of what it is that Mr. Cresswell was describing to you just generally?

	Page 414		Page 416
1	it is. I don't remember what it is. It	1	MS. VANNI: Object to form.
2	was, you know, a national you know,	2	THE WITNESS: It would be
3	the NCPA was always you know, was	3	important just so the if, you
4 .	interested in trying to they had	4	know, in this case it was an
5	programs that they designed for	5	opioid, so that it was coming out
6	independent pharmacists. And they were	6	and whatever the education program
7	looking for people that wanted to	7	is, it could have been a
8	participate. It was in my I just sent	8	noncontrolled drug. You know, any
9	it off to them as another, are you	9	time you had a product launch,
10	interested in this, FYI, are you	10	they wanted to say how they could
11	interested in this, something we may want	11	help you, and of course there was
12	to consider. That's that's what I see	12	a fee associated with that.
13	here.	13	So that's why you know,
14	Q. And so I think you are	14	it should have said up above, if
15	talking to the the top e-mail where	15	any of these programs we find
16	you're passing along to Mr. Wickline and	16	appealing. Because there's a cost
17	Mr. Gossett, correct?	17	associated with that. And
18	A. Yes.	18	eventually somebody in sales, and
19	Q. And as you say, you say,	19	above, Mark Gossett was my boss at
20	"NCPA serves independent pharmacists. We	20	the time, he would have to decide
21	should evaluate which of these programs	21	whether or not they were
22	we find appealing for oxymorphone	22	interested in spending the money
23	launch," correct?	23	or found these programs
24	A. Yes.	24	attractive.
2 1	Λ. 103.	27	attractive.
	Page 415		Page 417
1	Q. And so why would Endo even	1	Most of the time, to my
2	potentially find a program offered by	2	knowledge, my recollection is they
3	NCPA for independent pharmacists	3	didn't. You know, they didn't
4	appealing to the oxymorphone launch?	4	engage in this.
5	What would the purpose be in such a	5	BY MS. SCULLION:
6	program?	6	Q. Okay. Do you recall whether
7	MS. VANNI: Object to form.	7	Endo, in fact, engaged in such a
8	THE WITNESS: In reading the	8	program
9	second, the bottom e-mail, it	9	A. I don't recall.
10	talks about tutorial. It a	10	Q for oxymorphone?
11	pharmacist education solution:	11	A. I don't recall.
12	So what this would be, would	12	Q. Fair enough.
13	be part of the education program.	13	MS. SCULLION: Can I have
14	And what NCPA is offering is a	14	Tabs 2 and 4, please.
15	appears to be a program for new	15	(Document marked for
16	launches of how to educate the	16	identification as Exhibit
17		17	Endo-Stevenson-31.)
18	pharmacists about the product.	18	BY MS. SCULLION:
	That kind of thing is what I'm	19	Q. Let me hand you what's been
19	reading here.	20	· · · · · · · · · · · · · · · · · · ·
20	BY MS. SCULLION:	20	marked as Exhibit 31. And Exhibit 31 is
21	Q. And how would educating a	21	Bates-stamped ENDO-OPIOID_MDL-02255008.
22	pharmacist about the product, why would		And, Mr. Stevenson, do you
0.0	that he important as part of a launch for	23	see that Exhibit 31 is a series of
23	that be important as part of a launch for		
23 24	a product like oxymorphone?	24	e-mails between yourself and

	Page 418		Page 420
1	Miss Kitlinski in February of 2004?	1	designed for CE programs. And the rest
2	A. Yeah yes.	2	would have been for reminder ads and
3	Q. Okay. Again, let's start at	3	things like that.
4 .	the back of the exhibit with beginning	4	Q. Okay.
5	at the chain of the e-mails. And the	5	A. In this case, also for
6	subject matter of her e-mail is urgent	6	I'm guessing for mailers, in addition
7	regarding opioid education materials,	7	to that the product was available.
8	correct?	8	Most of it was for CE programs which were
9	A. Yes.	9	very expensive.
10	Q. Okay. And she says to you	10	Q. Okay. And so just again to
11	she wants to "follow up on the opioid	11	break that down. There was a budget for
12	education initiatives we discussed a few	12	promotion, and in your mind a large part
13	weeks ago." She goes on to explain, "I	13	of that was of that budget was for CE
14	know this is a high priority." And that	14	programs, right?
15	she can't sign any CE agreements until	15	MS. VANNI: Object to form.
16	the budget has been approved.	16	THE WITNESS: Correct.
17	Do you see that?	17	BY MS. SCULLION:
18	A. Which paragraph are we in?	18	Q. And then in addition, I
19	Q. I was just reading the first	19	think you said there could have been
20	two paragraphs of her e-mail.	20	some some mailers and some ads, right?
21	A. Oh. Oh, yes. I'm sorry,	21	A. There could have been, yeah.
22	yes.	22	The problem with the problem with
23	Q. That's okay.	23	the having a the problem with a
24	A. Yes.	24	mailer for for an opioid drug is that
	71. 103.		muner for the optoid drug is that
	Page 419		Page 421
1	Q. Do you see that? Okay. And	1	Page 421 there's so much information that it's not

Page 422 Page 424 1 1 generally; is that right? when that was going to end. So 2 obviously, these folks that are 2 MS. VANNI: Object to form. 3 identified, U.S. Pharmacists, PharmAlert, 3 THE WITNESS: Yes, it was PDQ, you know, they're pushing for 4 not about -- normally these people 4 5 did not run -- they did not want 5 business all the time. 6 6 Q. Understood. And then, as to view themselves in U.S. 7 you said, a large part of the promotion 7 Pharmacists as a promotional tool 8 budget was set aside for CE programs, it 8 for your product. BY MS. SCULLION: 9 9 says, to support 3218. That's the generic oxy, right? 10 10 O. Okav. A. That's generic -- that's 11 A. They were more than happy to 11 oxycodone ER, yes. have a -- run a CE on an overall topic, 12 12 13 Q. Okay. And then -- and then 13 like narcotic analgesics. And so yes, I would say that's accurate. 14 you go onto explain in the next paragraph 14 that, "Part of our RMP for 3218 calls for 15 Q. Okay. Now let's go to the 15 first page of Exhibit 31. a pharmacist education program." 16 16 17 Mr. Andrzejewski agrees with you in terms 17 Do you see that? of your approach to the budget and use of 18 A. Yes. 18 19 the funds, right? 19 O. And the RMP there, that's 20 20 A. Yes. Apparent -- yes. referring to the risk management plan, 21 21 Q. Okay. And Ms. Kitlinski right? 22 A. Yes. 22 then responds to all -- to both of you in her e-mail above saying, "Steve, George, 23 23 Q. And so -- okay. You then, 2.4 as you say, explained that from a 2.4 many thanks for the prompt reply. I Page 423 Page 425 1 budgetary standpoint you can't support 1 think your proposed path forward is the 2 individualized customer CE programs, such 2 right way to go." 3 as the one for Walmart, one for CVS, et 3 Do you see that? 4 4 cetera, right? A. Yes. 5 O. Okay. She talks about 5 MS. VANNI: Object to form. 6 THE WITNESS: Correct. And 6 needing to discuss prioritization of the 7 7 it talks about Endo's policy calls initiatives. for CE programs to be run by our 8 8 And in her last paragraph, 9 clinical folks, which I testified 9 she says, "My suggestion would be to move 10 10 forward with developing one program now to earlier. and initiate the others once launch 11 BY MS. SCULLION: 11 12 Q. Understood. And in that 12 decision is made." 13 same paragraph, that you're looking at 13 Do you see that? 14 right now you explain that -- in the last 14 A. Yes. two sentences, the CE programs themselves 15 15 Q. And she explains, "George, are not about 3218, but rather narcotic this would allow us to utilize a portion 16 16 17 17 of the budget for the opioid analgesic analgesics. 18 18 brochure that was also included in your Did I read that correctly? 19 19 presentation to the DEA." Yes. 20 Q. So if I understand, you were 20 Did I read that correctly? trying to say, look, these CE programs 21 21 A. Yes. 22 even though they can be paid for by the 22 Q. Okay. And you recall that we looked at the RMP for generic 23 promotion budget for generic oxy, they're 23 24 really about narcotic analgesics more 24 oxycodone and the reference to a patient

```

	Page 430		Page 432
1	A. Yes.	1	go to patients, right?
2	Q. Okay. And then if you go	2	A. I believe so.
3	down to the next paragraph sorry, next	3	Q. Okay. And let's look at the
4 .	paragraph, Mr. Aron is asking for certain	4	actual brochure itself. Go to Page 5804
5	information from you, Debbie Travers and	5	in the lower right-hand corner. You see
6	others in order to make appropriate	6	the cover for "Understanding your pain:
7	decisions regarding the initial print run	7	Taking oral opioid analgesics," right?
8	for the brochure, correct?	8	A. Yes.
9	A. Yes. It appears that way,	9	Q. All right. And if you go to
10	yes.	10	Page 5806 in the lower right-hand corner
11	Q. Okay. And the first bullet	11	of the brochure, looking in the
12	point discusses the budget for the	12	right-hand column under the heading,
13	brochures, and then there's a couple	13	"What should I know about opioids and
14	sub-bullets under that. The first one is	14	addiction?"
15	addressed to you. "George, as above	15	Do you see that?
16	relative to 3218." And that's the	16	A. Yes.
17	generic oxycodone again, right?	17	Q. Okay. And then the text
18	A. Yes.	18	describes statements about what addiction
19	Q. And then it goes on in the	19	allegedly is and isn't, correct?
20	next paragraph. "As above relative to	20	A. Yes.
21	EN3202/03." And you'll recall that we	21	MS. VANNI: Object to form.
22	saw those numbers refer to Opana IR and	22	BY MS. SCULLION:
23	ER, right?	23	Q. The third sentence in that
24	A. Yes, and Deb Travers and	24	section states, "Addiction is a chronic
			·
	Page 431		Page 433
1	Jerry McLaughlin were brand marketing.	1	brain disease that can occur in some
2	Q. Okay. So this was a patient	2	people exposed to certain substances such
3	brochure that was contemplated to be used	3	as alcohol, cocaine, and opioids."
4	in association with both the generic	4	Did I read that correctly?
5	oxycodone product and the branded	5	· · · · · · · · · · · · · · · · · · ·

 6
             A. Correct.
                                                       6
                                                                  A. Not -- you know, I'm not
 7
             Q. All right. Not something an
                                                       7
                                                              familiar with them, but yes, okay.
 8
        average person could diagnose?
                                                       8
                                                                  Q. Okay. And then let's go see
 9
                                                       9
                 MS. VANNI: Object to form.
                                                              what the brochure then actually tells
                 THE WITNESS: I don't
10
                                                      10
                                                              patients. The next page, if you go to
                                                              the next page of the brochure, you see in
11
             think -- I don't think addiction
                                                      11
                                                              the top left-hand corner it asks the
12
             was designed to be -- that
                                                     12
             somebody could -- that somebody
                                                     13
                                                              question, "How can I be sure I'm not
13
14
             could diagnose it. It was -- I
                                                      14
                                                              addicted?"
             think what it's saying here,
                                                     15
15
                                                                  A. Yeah.
             addiction is a chronic brain
                                                     16
                                                                  Q. Do you see that?
16
                                                     17
                                                                  A. Yeah.
17
             disease, et cetera, that as you
18
             read it, as trying to find what it
                                                     18
                                                                  O. And the first bullet point
19
                                                     19
                                                              under that talks about, again, what
                                                     20
                                                              addiction allegedly means in terms of
20
                 And then it goes on to say,
21
                                                      21
                                                              whether a pain has gone away.
             as I'm sure you'll cover, what
22
             it's not.
                                                     22
                                                                      Do you see that?
23
        BY MS. SCULLION:
                                                      23
                                                                  A. Yes.
24
             Q. Right. And I'm just asking,
                                                      24
                                                                      MS. VANNI: Object to form.

                                                             to take this medicine if my pain went
11
12
            Q. Well, as you say, it is a
                                                     12
                                                              away? If you answer no, you are taking
        medical condition. You typically would
                                                     13
                                                             opioids for the right reasons, to relieve
13
14
        go to a doctor to diagnose a medical
                                                     14
                                                             your pain and improve your function. You
                                                     15
                                                             are not addicted."
15
        condition, right?
            A. Yes. You would go to a
                                                     16
16
                                                                  Q. Right. Now, again, the
                                                     17
                                                             brochure says that after asking the
17
        doctor to diagnose a medical condition.
18
            Q. Okay. And we've seen in the
                                                     18
                                                             question, "how can I be sure I'm not
        risk management plan, in fact, there's a
                                                             addicted?" Right?
                                                     19
19
        whole field of medicine that specializes
                                                     20
                                                                  A. That's what it says, yes.
20
                                                                  Q. It doesn't say, "What are
21
                                                     21
        in addiction, correct?
22
                                                     22
                                                             signs of addictions?" Right?
            A. I don't know if I would say
2.3
        specializes in addiction, but I guess you
                                                     23
                                                                     MS. VANNI: Object to form.

	Page 447		Page 449
1	then they are taking it for the right	1	MS. VANNI: Asked and
2	reason. If they are not taking it for	2 3	answered.
3	pain management or quality of life," as		THE WITNESS: This is saying
4	it says there, or to be clear, not	4	to somebody who is under the care
5	quality of life. "To relieve your pain	5	of a doctor who is being
6	and improve your function," then if if	6	prescribed an opioid product by a
7	that's why if they are taking it for	7	doctor, that if they are taking
8	other than that, then then it	8	that, and they have some concern
9	indicates that you have a problem. And	9	that they are addicted to the
10	it implies you should go see obviously a	10	product, if they have pain,
11	medical professional.	11	then and I want to read it
12	Q. Right. But it's asking the	12	correctly.
13	patient to make that self-assessment,	13	If they have pain and their
14	right?	14	functions are improved by the
15	MS. VANNI: Object to form.	15	opioid product that the doctor has
16	BY MS. SCULLION:	16	prescribed, that doesn't mean they
17	Q. About why they are taking	17	are addicted. That's what it's
18	the opioids?	18	saying.
19	A. Well, we talked a moment ago	19	BY MS. SCULLION:
20	about human beings. Most human beings	20	Q. Okay. Now, you were you
21	are going to if I read that I would	21	were looking at Page 06 before. And I
22	say a-ha, if that's my case I would	22	think you were looking under the column
		23	"What should I know about opioids and
23	Sav == 1 Wollid Dow/ he anie in ien hrent/		
23 24	say I would now be able to tell pretty clearly using common sense whether I had	24	addiction?"

	Page 450		Page 452
1	Is that right?	1	THE WITNESS: If you're
2	A. Correct.	2	taking any kind of medication,
3	Q. And you pointed to, in the	3	opioid or non-opioid, you are
4 .	second paragraph, the sentence, "Your	4	getting that medication through an
5	doctor will avoid stopping your	5	interaction with a physician. And
6	medications suddenly by slowing	6	if you're on pain management
7	reduce" "slowly reducing the	7	medication, you would be under the
8	medication" let me start again.	8	care of a of a medical doctor
9	Sorry.	9	in order to get that pain
10	"Your doctor will avoid	10	management prescription. So it
11	stopping your medication suddenly by	11	implies that you are interacting
12	slowly reducing the amount of opioid you	12	with a physician.
13	take before the medicine is completely	13	So this was written by the
14	stopped."	14	clinical people. I didn't write
15	Did I read that correctly?	15	this. This was written by the
16	A. Yes.	16	science people of the company.
17	Q. And nothing in that sentence	17	That's who wrote this document.
18	says, if you have concerns that you may	18	But it obviously it goes
19	be addicted, ask your doctor to be sure;	19	to the patient, but it's just
20	that's not what it says, right?	20	designed to make them aware
21	MS. VANNI: Object to form.	21	this these are some signs to be
22	THE WITNESS: No, but it	22	aware of in case you know, so
23	certainly implies that you're	23	they are educated that they should
24	talking to a doctor.	24	be aware of when they what

        be clear in the characterization of my
                                                      14
                                                                      MR. LENISKI: We have a
                                                                  standing objection, the Tennessee
        answer, it implies interaction with a
                                                      15
15
        doctor. You are implying. That's why I
                                                      16
                                                                  plaintiffs do, to these
16
17
        disagree with the characterization of the
                                                      17
                                                                  depositions, which I'll adopt
18
        line of inquiry that somehow the patient
                                                      18
                                                                  here, due to a number of different
                                                                  issues, lack of notice, lack of
19
        is taking opioids outside the -- outside
                                                      19
20
        the prescription of a medical doctor.
                                                                  document production, because
                                                      20
21
                MS. SCULLION: So I'm going
                                                      21
                                                                  different civil rules of procedure
2.2
            to move to strike everything after
                                                      22
                                                                  apply in Tennessee.
23
                                                      23
                                                                      And I will adopt that
            that I've already testified to
                                                      2.4
24
                                                                  objection, as I have in other
            that.
                                     Page 455
                                                                                           Page 457
        BY MS. SCULLION:
                                                                  depositions. And nonetheless, in
 1
                                                       1
 2
            O. And, Mr. Stevenson, I
                                                       2
                                                                  the spirit of cooperating with the
 3
       understand you didn't write the brochure.
                                                       3
                                                                  MDL and under the protocol
                                                                  established by that court, we're
 4
        I understand that. Do you agree though
                                                       4
        it would be important to be as clear as
                                                       5
                                                                  here today to ask questions.
 5
 6
       possible with patients about an issue
                                                       6
                                                                     If there's no response,
 7
       such as how they could be sure about
                                                       7
                                                                  I'll --
 8
        whether they were addicted to opioids?
                                                       8
                                                                     MS. VANNI: No objection.
 9
            A. Clarity is always good.
                                                       9
                                                                     MR. LENISKI: -- continue.
            O. Okav.

10
                                                                     MS. VANNI: So noted.
               MS. SCULLION: I have no
                                                      11
                                                                     MR. LENISKI: Thank you.
11
12
            further questions for you today.
                                                      12
                                                              BY MR. LENISKI:
                                                                  Q. Before your deposition,
13
            Thank you for your time.
                                                      13
14
               THE WITNESS: Okay.
                                                      14
                                                              Mr. Stevenson, we asked Endo's lawyers if
                                                      15
15
               MS. SCULLION: I think we're
                                                              you had any knowledge that was specific
                                                      16
16
            going to take a quick break and my
                                                              to the State of Tennessee. And they
                                                      17
                                                              responded that your responsibilities
17
            colleague from Tennessee will be
            asking some questions.
                                                      18
                                                              while you were at Endo were national in
18
                                                      19
                                                              scope and not particular to Tennessee,
19
               THE WITNESS: Okay.
               THE VIDEOGRAPHER: Off the
                                                      20
                                                              and that you didn't -- effectively, you

21
            record, 4:48.
                                                              didn't have any Tennessee-specific
22
                                                      22
                                                              knowledge that you gained while you were
               (Short break.)
23
               THE VIDEOGRAPHER: We are
                                                      23
                                                              at Endo.
                                                      24
24
            back on the record at 4:55.
                                                                     Do you agree with that
```

	Page 458		Page 460
1	statement?	1	it now, yes.
2	A. Absolutely true.	2	Q. And basically it's just a
3	Q. Okay. So, for example,	3	range of is a range of the region,
4 .	during your tenure at Endo, while you may	4	rather, around the Appalachian Mountains.
5	not have had specific knowledge, did you	5	A. Okay.
6	know that Endo did sell its opioid	6	Q. Did you gain any while
7	products in the State of Tennessee?	7	you were employed at Endo, did you gain
8	A. Endo sold their products	8	any understanding about opioid use in
9	nationally, so including Tennessee.	9	Appalachia?
10	Q. Okay. What did you know	10	A. No.
11	about opioid abuse rates in Tennessee	11	Q. Did you learn anything
12	during your time at Endo?	12	during your time at Endo of opioid abuse
13	A. Nothing.	13	rates in Appalachia relative to other
14	Q. While employed at Endo, did	14	areas of the country?
15	you have any understanding of the level	15	MS. VANNI: Object to form.
16	of opioid use in Tennessee relative to	16	THE WITNESS: No.
17	other states?	17	BY MR. LENISKI:
18	A. No.	18	Q. Okay. So you did not have
19	Q. While employed at Endo, did	19	any understanding while you were at Endo
20	you have any understanding of the level	20	that the level of opioid abuse in
21	of opioid abuse in Tennessee relative to	21	Appalachia was relatively higher than
22	other states?	22	other parts of the country?
23	A. No.	23	
23		24	MS. VANNI: Object to form. THE WITNESS: No. I had no
24	Q. While employed at Endo, did	24	THE WITNESS: NO. I had no
	Page 459		Page 461
1	you know that opioid abuse rates or	1	knowledge of that.
2	have any understanding that opioid abuse	2	BY MR. LENISKI:
3	rates were higher in Tennessee than	3	Q. Okay. I also represent
4	almost anywhere else in the country?	4	individual infants and toddlers in
5	MS. VANNI: Object to form.	5	Tennessee who were born afflicted with
6	THE WITNESS: No.	6	neonatal abstinence syndrome, or what's
7	BY MR. LENISKI:	7	called NAS, because their mothers abused
8	Q. Now, most of my clients are	8	opioids while pregnant. Have you ever
9		9	
9 10	district attorneys in the State of	1	heard of neonatal abstinence syndrome?
10	district attorneys in the State of Tennessee. They represent districts in a	10	heard of neonatal abstinence syndrome?  A. No.
10 11	district attorneys in the State of Tennessee. They represent districts in a part of Tennessee that we refer to as	10 11	heard of neonatal abstinence syndrome?  A. No. Q. Okay. Did you ever hear the

12
        was very difficult to do scientifically,
                                                        12
                                                                     identification as Exhibit
13
        but we couldn't overcome the patent
                                                        13
                                                                     Endo-Stevenson-40.)
14
        because of the proprietary nature of the
                                                        14
                                                                 BY MR. LENISKI:
        machines as I recall. It had something
15
                                                        15
                                                                     O. I've handed the witness what
16
        to do with that. And so we dropped the
                                                        16
                                                                 we've marked as Exhibit 40. This is an
        product from our development program.
                                                        17
17
                                                                 e-mail -- it's a few e-mails. First one
                                                        18
18
             Q. Okay. So Actiq was
                                                                 is -- the top of the first page is from
        manufactured by another manufacturer,
                                                        19
                                                                 Patty Leitch to you, Mr. Stevenson, and
19
                                                                 others, dated May 21, 2004. Subject is
20
                                                        20
        correct, not Endo?
21
             A. Actig was a brand of
                                                        21
                                                                 EN3218 preparedness next steps.
22
        Cephalon, I believe.
                                                        22
                                                                         Did I read that correctly?
             Q. Okay. In the article below,
23
                                                        23
                                                                     A. Yes.
        that is forwarded by Ms. Leitch, about
2.4
                                                        2.4
                                                                     Q. Okay. And Ms. Leitch states
                                       Page 499
                                                                                               Page 501
        three paragraphs down, there is a quote
                                                                in her e-mail, "Scott, George, and Bill.
 1
 2
                                                         2
                                                                Just wanted to follow up on last Friday's
        starting -- that starts, "we are starting
 3
        to see it emerge."
                                                         3
                                                                meeting to confirm our recommended next
                                                                step to finalize the EN3218 crisis binder
                                                         4
 4
                Do you see that?
 5
                                                         5
                                                                as we are waiting approval of the
             A. Yes.
 6
             Q. And the quote is -- full
                                                          6
                                                                product."
                                                         7
 7
        quote there in the article is, "We're
                                                                       Did I read that correctly?
 8
        starting to see it emerge as a drug that
                                                         8
                                                                    A. Yes.
                                                                    Q. Okay. Does reading that
 9
        is, as we call it, diverted, which is a
                                                         9
                                                                refresh your recollection about what a
10
        legally prescribed drug being used
                                                        10
                                                                crisis binder was?
        illegally, said Kevin Harley, spokesman
                                                        11
11
12
        for state Attorney General Jerry Pappert.
                                                        12
                                                                    A. No, I don't -- I don't -- I
                                                        13
                                                                don't remember -- I don't remember a
13
                "It is a drug that is easily
14
        administered or taken by somebody who
                                                        14
                                                                crisis binder.
        might be afraid to either take a pill,
                                                        15
                                                                    Q. Okay. Does reading what Ms.
15
                                                        16
                                                                Leitch wrote about a follow-up on last
16
        snort or inject a needle in their arm."
                                                        17
                                                                Friday's meeting to confirm recommended
17
                Did I read that correctly?
18
                                                        18
                                                                next step to finalize the crisis binder
             A. Yes.
                                                        19
                                                                refresh your recollection about being in
19
             Q. Okay. Now, do you recall
        receiving this e-mail and article from
                                                        20
                                                                meetings with any individuals from Cohn &

```

	Page 502		Page 504
1	that we weren't going to we weren't	1	for sale on the black market in
2	going to get approval for the product. I	2	Appalachia, even though it's not yet
3	believe the appellate court case had	3	available in all pharmacies."
4 .	already been held and I think it was	4	Did I read that correctly?
5	the the appellate the appearance	5	A. Yes.
6	before the appellate court on the on	6	Q. Okay. Do you recall seeing
7	the lower court verdict had transpired	7	this article about the time that
8	and we were in the waiting period. And	8	Ms. Leitch sent the e-mail?
9	the waiting period was, I remember very	9	A. Could have.
10	explicitly, was going to be 15 or	10	
11	18 months. You know, so we got approval	11	Q. Do you recall discussing the article with anybody at Endo?
12	in June of '05, and in June of '05, you	12	A. Could have. It wasn't we
13	can go back 15 months obviously, it's	13	weren't selling it. So from my
14		14	
15	with in '04, May of in this case, May of '04. We weren't I wasn't	15	perspective, it wasn't an Endo product. That, I know. We didn't sell the product
16	expecting, based on what I had heard, we	16	in May of '04 or, yeah, May of '04.
17	were going to get out of the legal woods,	17	
18	out of the complete the legal process.	18	We were not selling we did not sell
19		19	oxycodone ER until we got FDA approval,
20	And so, you know, people may have sent me information and documents. But, you	20	and FDA normally doesn't approve the product give final approval until the
21		21	
22	know, for me, okay, great. But at the	22	legal process is completed. As a matter
23	end of the day, it wasn't a focal point at the moment because I knew it was still	23	of fact, in most cases when I you
24		24	know, post-Endo when I've had a
24	a ways off if we won at the appellate	24	settlement with a brand company, as you
	Page 503		Page 505
1	Page 503 court level.	1	guys probably know better than anybody,

	Page 510		Page 512
1	MR. LENISKI: Can I ask that	1	lawmakers sent a letter to FDA
2	it be put on your screen?	2	commissioner Andrew von Eschenbach asking
3	MS. VANNI: You don't have a	3	the agency to reclassify OxyContin after
4 .	copy for him?	4	the drug's manufacturers pleaded guilty
5	MR. LENISKI: I don't.	5	to misbranding the product."
6	THE WITNESS: I'll read	6	Did I read that correctly?
7	through my bifocals.	7	A. Yes.
8	MR. LENISKI: Has it been	8	Q. And then two paragraphs down
9	pulled up? Okay. I'm going to	9	starts, "Purdue Pharma, which
10	ask that that be entered as	10	manufactures OxyContin, and three current
11	Exhibit 41 to your deposition	11	and former company executives recently
12	(Document marked for	12	pleaded guilty to mislabeling the drug
13	identification as Exhibit	13	and will pay more than \$634 million in
14	Endo-Stevenson-41.)	14	fines. The company had promoted the drug
15	MR. LENISKI: even though	15	as less addictive, less subject to abuse,
16	we don't have a paper copy of it.	16	and less likely to cause withdrawal
17	BY MR. LENISKI:	17	symptoms than other painkillers."
18	Q. This is an e-mail from	18	Read that correctly?
19	yourself to David Kerr dated May 22,	19	A. Yes.
20	2007, correct?	20	Q. And the very next paragraph
21	A. Yes.	21	reads, "The company 'ruthlessly marketed'
22	Q. And you are forwarding	22	the drug to individuals in areas with
23	what's called FDA News Drug Daily	23	less access to medical information and
24	Bulletin, correct?	24	higher levels of disability, such as
	Page 511		Page 513
1	A. Yes.	1	Virginia and Kentucky, the lawmakers said
2	Q. Who is David Kerr?	2	in the letter.
3	A. He was the vice president of	3	"One quarter of all overdose
4	business operations, who was my immediate	4	deaths from OxyContin in 2002 happened in
5	boss.	5	eastern Kentucky, which includes Rogers'
6	Q. Okay. And did he oversee	6	district, the lawmaker noted in a
7	both generic and branded business at	7	separate statement."
8	Endo?	8	Did I read that correctly?
9	A. Yes.	9	A. Yes.
10	Q. Okay. You write to Mr. Kerr	10	Q. Okay. Do you recall sending
11	on this occasion, "FYI, please note first	11	this e-mail to Mr. Kerr?
12	article on OxyContin. Could have an	12	A. No.
13	impact on Opana."	13	Q. Okay. When you wrote to
14	Did I read that correctly?	14	Mr. Kerr that this article about Purdue
15	A. Yes.	15	paying pleading guilty to mislabeling
16	Q. And then you forward the FDA	16	and paying a very large multi-million
	•		
17	Drug I'm sorry, FDA News Drug Daily	17	dollar fine, when you said, "This could
17 18	Bulletin. And the very first item under	18	have an impact on Opana," what were you

Do you see that?	18 19 20 21 22	have an impact on Opana," what were you saying to Mr. Kerr?  A. I was FYI, just be aware of it. That's what I was saying.  Q. What was the impact on Opana

	Page 514		Page 516
4	_		_
1	A. The top sentence, where it	1	again.
2	talks about reclassifying the drug.	2	Q. COLT, C-O-L-T, staff was at
3	That's what I was referring to.	3	Endo?
4 .	Q. And what do you mean by	4	A. No.
5	that?	5	Q. This is the last document I
6	A. My point was if they	6	have I don't have a copy of. But I'm
7	reclassified OxyContin, you know I	7	going to ask that
8	wasn't involved in Opana, but, you know,	8	ENDO-OPIOID_MDL-01915705, please, be
9	this stuff was up for him since he	9	shown.
10	supervised the brand business to see if	10	(Document marked for
11	they would you know, if there was	11	identification as Exhibit
12	going to be a move afoot to reclassify	12	Endo-Stevenson-42.)
13	Opana. That was the whole point.	13	BY MR. LENISKI:
14	Q. And can you tell the jury	14	Q. This is we'll have it
15	what you mean by reclassify?	15	identified as Exhibit 42. The document
16	A. I don't I mean, I guess	16	at the top reads "COLT staff minutes,
17	what they mean by reclassify is to is	17	Thursday, May 24, 2007," correct?
18	to take it up to the next level and call	18	A. This was the now I now
19	it a Class I. You know, after the	19	I I thought it was a product. I'm
20	only class left after Class II is a Class	20	sorry. When you say COLT staff, I was
21	I.	21	thinking about a product. COLT I believe
22	Q. And what would be the impact	22	was the commercial something leadership
23	of reclassifying an opioid as a Class I	23	team. And I don't know I forget what
24	narcotic?	24	the O stands for. Maybe it's commercial

                                                                   Q. Okay. And that was data
 1
        Item Number 2, sales update?
                                                         2
                                                               that -- correct, that Endo received from
 2
             A. Yes.
 3
             Q. And third item down, there's
                                                         3
                                                               wholesalers and distributors about those
                                                         4
                                                               wholesalers and distributors' customers
 4
        a bullet that reads, "Opana surge program
                                                         5
 5
        update."
                                                               who received Endo product?
                                                         6
 6
             A. Yes.
                                                                   A. Yes. Sales out, yes.
 7
             O. Do you see that?
                                                         7
                                                                   Q. Okay.
 8
                Do you recall what that was?
                                                         8
                                                                      (Document marked for
                                                         9
                                                                   identification as Exhibit
 9
             A. No. Opana was a brand. I
        wasn't involved in the brand. I've said
                                                        10
                                                                   Stevenson-43.)
10
                                                        11
                                                               BY MR. LENISKI:
11
        that, you know, numerous times. I've
                                                        12
12
        testified to that numerous times. I have
                                                                   Q. Was it -- was it part of
13
        no idea. What -- I wasn't involved in
                                                        13
                                                               your job responsibilities to receive and
                                                        14
                                                               review 867 data received from Endo's
14
        Opana in any way other than the stocking
                                                        15

23
        company?
                                                        24
2.4
                                                               on this document is McKesson 867 Opana
             A. Yes. The leadership team
                                       Page 519
                                                                                               Page 521
        was comprised of brand and -- and myself.
 1
                                                          1
                                                                data August to present, 11-3-06.xls.
 2
        I was the only generic VP. So it was
                                                          2
                                                                         And the original custodian
 3
        just myself and the other people, yeah.
                                                          3
                                                                on this, on Exhibit 43, is you, George
 4
            O. Okav. In other words,
                                                          4
                                                                Stevenson.
        generic side of the business was not
                                                          5
 5
                                                                     A. That's what it says.
 6
        walled off from the branded side. There
                                                          6
                                                                 Someone gave it to me. But I wasn't
 7
        were joint meetings where the leadership
                                                          7
                                                                responsible for assembling it.
 8
        such as yourself and the other
                                                          8
                                                                     O. And that's fair.
 9
        individuals listed in this exhibit met
                                                          9
                                                                     A. And it deals with Opana. So
        and talked about all aspects of Endo
                                                        10
                                                                it depends -- when was this? '06? Okay.
10
        Pharmaceutical's business, correct?
                                                                I would have been involved in stocking.
11

1	for adjudication.	1	I'm I would believe it was a
2	Q. Okay. So even though Opana	2	customer wholesaler customer ID
3	was a branded product, you would still	3	number.
4 .	have that responsibility, correct?	4	Q. Okay. Then there's a
5	MS. VANNI: Object to form.	5	customer account name, which is the name
6	THE WITNESS: For stocking.	6	of the particular and here it's a
7	Just for stocking.	7	appears to be a pharmacy, correct,
8	BY MR. LENISKI:	8	Crescent Center Drugs?
9	Q. Okay. And was that true for	9	A. I have no idea who they are.
10	both Opana and Opana ER?	10	I'm assuming it's a pharmacy. Could
11	A. I don't remember if Opana ER	11	be it could be a medical center.
12	had launched by that time. I don't I	12	Q. Okay. And then there's the
13	don't remember.	13	address, city and state and zip code for
14	Q. Okay. And I'll also	14	this particular customer, correct?
15	represent that Exhibit 43 originally	15	A. Yes.
16	contained a lot of information. We only	16	Q. And what is the EM item
17	included the Tennessee-specific 867 data	17	number column, what is that?
18	that was in the original spreadsheet.	18	A. I don't know.
19	And so that's what you see on Page 2 and	19	Q. And the sale description,
20	3 of this document. Okay?	20	that is the what was in the bottle
21	A. Okay.	21	that was sold for that particular
22	Q. If you look at the document,	22	customer, correct?
23	I just want to understand what we're	23	A. Yes.
24	looking at here.	24	Q. And then so the first line
2 1	looking at here.		Q. This then so the first fine
	Page 523		Page 525
1	The first column is an	1	would be Opana ER tablets 5-milligram
2	invoice date, correct?	2	strength, 100 count, correct?
3	A. Yes.	3	A. Correct.
4	Q. And then what's the fill DC	4	Q. And then the NDC number is
5	ID?	5	what?
6	A. I have no idea.	6	A. The NDC number for Opana ER.
7	Q. Okay. And then sales	7	Yes, it would be the Opana ER NDC number.
8	quantity. What does that number	8	Q. Okay. Now you said you
9	indicate?	9	didn't it's not your recollection that
10	A. A bottle.	10	you routinely analyzed this data; is
11	Q. One bottle?	11	that, correct?
12	A. Yes.	12	A. I didn't analyze, so it was
13	Q. Okay. And there's a	13	my testimony I never analyzed this data.
14	customer account ID, correct?	14	Q. Okay. And when who would
15	A. Yes.	15	you receive this data from?
16	Q. And was that customer	16	A. I don't recall who gave this
17	account ID assigned to this particular	17	to me. I have no idea.
18	customer from the wholesaler or	18	Q. Do you have any idea why you
19	distributor from whom the 867 data was	19	would have been included or copied on the
20	received?	20	receipt of such information?
	received:	21	MS. VANNI: Object to form.
21	A. I believe so, but I'm not	1	
21 22	A. I believe so, but I'm not I don't believe it was an Endo customer	22	THE WITNESS: I think I
21 22 23	A. I believe so, but I'm not I don't believe it was an Endo customer ID number. Would have this was sales	22 23	THE WITNESS: I think I think I testified earlier that
